COURSE DESCRIPTIONS

Renewable Energy

Instructors:

Craig Smith & Kit Thompson

Learn about the electrifying technologies harnessing wind and solar energy. Gain insight into the nation's fastest growing occupations of wind turbine technician and solar photovoltaic installer. Explore the fabrication of fiberglass composites and visit CCCC's Renewable Energy Park.

Drones

Instructors:

Charles Henry & Monte Poersch

Find out how drones are becoming a part of our daily lives as more and more industries rapidly implement this emerging technology. Learn about the basic requirements for safe drone operations. Observe exciting drone flight demonstrations performed by CCCC's UAS (Uncrewed Aircraft Systems) instructors.

Exploring Music

Instructor: Chris Langsford

This class will help students explore and appreciate the world of music through different activities, games, listening experiences, music technology, and much more. Students will even get the opportunity to record their own music and create music videos.

Painting Pet Portraits

Instructor: Amy Kern

Come join Art Instructor Amy Kern to learn to draw and then paint your favorite animal or family pet. Please bring a photo of your animal for reference, or you can draw from your imagination.

Exploring Space

Instructor: Dennis Smith

Exploring Space is a chance to open your mind. Join our Instructor of Astronomy Dennis Smith (the Wizard), who will take you to the Observatory where you'll learn about the sun, moon, and stars.

The World of Radio

Instructor: Brandon Galm

Have you ever wondered what goes on in a radio station? Come learn more about what happens behind the scenes. Kids will have a chance to record a Station ID for KVCO-FM, which will be played on air during the next school year, read a weather report, put together a music playlist, and do other activities related to the world of radio.

Nursing 101

Instructors: Stefanie Perret & Amanda Wolf

During this two-day session, students will gain insight into the world of Nursing by participating in active learning healthcare scenarios. Students will work through interactive hands-on skills labs to learn and practice various nursing skills on models. Students will get to experience the simulation lab with state-of-the-art, high-fidelity mannequins that provide them with real-life clinical scenarios.
