Development of Internet Courses

A faculty member who develops an Internet course for Cloud County Community College will receive a stipend of $2,000 for classes that are 3 credit hours or more. If a class is less than 3 credit hours, the stipend will be prorated. To receive the stipend the instructor must have the approval of the administration to develop the course for Cloud County Community College and must teach the course one time for Cloud County Community College.

Compensation for Teaching Internet Courses

Faculty members who teach Internet courses for Cloud County Community College will be paid on a per student basis for students enrolled in the course. For each student enrolled in the course the instructor will receive the equivalent of one-half of out-of-state tuition for that course. For the 1997-98 year out-of-state tuition was $77.50 and half of that amount would be $38.75. Therefore, if an instructor taught a three hour class, they would receive $116.25 for each student in the class. Prior to receiving compensation for a course, an instructor must have completed all necessary paperwork for the Records’ Office.
