Students on an F1 Visa are required to have proof of international student health insurance. Cloud County Community College has selected International Student Insurance (ISI) to provide the policies. F1 students must purchase the health insurance prior to attending classes or College activities.

Each student is responsible to establish a relationship with ISI in order to purchase the required coverage. This may be done by accessing the customized ISI link on the CCCC website.

Students are required to purchase insurance per semester. Minimum level of coverage is the Budget Plan and must be paid in full at the time of purchase for each semester. The fall semester includes August 1 – January 1 (5 months). The spring semester includes January 1 – June 1 (5 months). If applicable, the summer term is June 1 – August 1 (2 months).

Once the student purchases health insurance coverage from ISI, it is the responsibility of the student to inform CCCC of coverage via confirmation from ISI.

If the student does not purchase the minimum level of coverage through ISI as stated in paragraph 3 above, the student will not be allowed to attend class, participate in extracurricular activities or participate in sports.

Refer to Policy E2 for other admission requirements for international students.

The Principal Designated School Official (PDSO) and/or Designated School Official(s) (DSO) will determine whether the student has adequate insurance before he/she is allowed to enroll or participate in College activities.
