Interdisciplinary Studies

Associate of Arts

Interdisciplinary Studies are designed to allow students the opportunity to explore fields of study or disciplines and use a combination of courses to complete a degree. For students who know they want to transfer, the A.A. is a good option; however, the general program may not meet the specific requirements of the school of study the student wants to transfer into. If a student wants to transfer to a Bachelor's program, it is in the student's best interest to enroll in the field of study once an area of interest is identified.
