Minutes:

Move by Brent, second by Mark to accept the February minutes with Sara marked as present. Minutes approved.

HLC

Assurance Argument: Criterion 4 meeting today. Steering Committee meeting as well.

Annual Conference: Beginning of April. Virtual registrations

Old Business

Review of Comprehensive Program Review:

Brandon and Stefanie reported on evaluation of SSC. NOTE: at this time only the annual was available. Overall a strong review, more details could be provided in the narrative; emphasize the good work being done and make more direct or specific relationships between the strategic plan initiatives and the work done in SSC. The SSC should consider moving vitality index from Maintain current to Potential Enhancements/Room for Growth.

Mark and Paul discussed the Business annual review and need to see comprehensive.

Discussion regarding "underrepresented and/or at-risk" section of program review and finding ways to track this for academic and cocurricular within programs. Student check-in or other ways of tracking students in cocurricular activities such as SSC could be linked to Jenzabar to track. This will be explored with the use of Study Hall Tracker/CloudNow.

New Business

No new business.

Meeting adjourned.
