Jul 30	College Closed (4-day work-week ends)

Cloud County Community College prepares students to lead successful lives and enhances the vitality of our communities.

General Information

Locations

The Concordia campus of Cloud County Community College is located in Concordia, a town with a population in excess of 5,000 in north central Kansas. Served by U.S. Highway 81, it is within easy driving distance of Salina, Manhattan, Junction City, Hays, Topeka, and Wichita. Highway 36, 24, 9 and Interstate 70 provide easy access to Concordia.

Concordia is a vibrant community with a rich history, featuring multiple historical attractions, and a thriving downtown, complete with a four-screen movie theatre, multiple restaurants, and the Broadway Plaza.

The Broadway Plaza is Concordia's premier outdoor public event space. Home to 100-150 events each year, the Plaza is the gateway to Concordia's downtown shopping, dining and entertainment district. With a giant LED screen to watch games and movies, a splash pad for kids, and a stage for concerts, the space entertains residents, neighbors and guests.

The famous Brown Grand Theatre, restored to its original 1907 splendor, features live entertainment, including plays and concerts. The Brown Grand Players and the Community Concert Association welcome student membership and participation. The stage is also home to at least one of the college's plays or musicals each year.

The Geary County Campus is located on a multi-building site in Junction City. The campus is easily accessed from Highways 77 and 18, or Interstate 70. It is a short drive from Manhattan, Abilene, Salina, and Herington. Located in the heart of the state, Junction City offers a small-town atmosphere with big-city amenities. It is also just minutes from Fort Riley, an active-duty Army post. The Geary County campus is presently non-residential, but there is ample housing conveniently located nearby.

History of the College

The college was established as the Concordia Junior College in 1965 as part of the Concordia Public Schools. Classes first met on February 8, 1965, using the Concordia School's facilities.

On July 1, 1965, the Concordia Junior College became a member of the state system of community colleges under the name Cloud County Community Junior College. Classes began in the current location in the fall of 1968. The college is now known as Cloud County Community College.

The Concordia campus is made up of four buildings, grouped together on three levels, and connected by a central library. Additionally, Tech West houses the Nursing Department and the Child Care Center. There are 15 campus apartment buildings, as well as Thunder Heights, a 78-person, three-story building that offers private and semi-private rooms.

Situated on the hill south of campus, the Cloud Power Wind Farm was finished and commissioned in April 2010. The wind farm has two Northwind 100 wind turbines. Combined, and at peak performance, the turbines can generate 350 kilowatts of electricity. The wind farm also provides an on-site laboratory for students enrolled in the Wind Energy Technology program.

Shortly after the turbines were commissioned, the college began a major overhaul of the HVAC system in the main building, which included a switch from gas-fired boilers to a geothermal system. The geothermal well field consists of 99 wells, drilled to 400 feet deep. The system is completely powered by the wind farm on an average day, which offsets the college's electricity and natural gas costs. When combined, the college will save 1,656 barrels of oil per year, or enough electricity to power 60 homes.

In Junction City, the Grandview Plaza attendance center was opened in 1994 to better meet the needs of the population of the southeastern portion of Cloud's service area. In January 1998, the college opened the present Geary County site. The campus is composed of four buildings and offers a full range of academic programs and student support services. The Geary County campus is an integral part of Cloud County Community College, and its campus is distinguished by its own architecture and campus plan.

Mission Statement

Cloud County Community College prepares students to lead successful lives and enhances the vitality of our communities.

Guiding Values

Success

Students are our central focus, and we strive to see every student succeed.

"We champion individual success"

Excellence

We deliver forward thinking programs of study as well as industry-best practices that reflect the highest academic standards.

"We are committed to excellence"

Service

We make a positive difference in the lives of our students, community members, and each other through meaningful relationships.

"We make a difference"

Integrity

We uphold the highest standards of ethics and public stewardship.

"We do what is right"

Diversity

We encourage active citizenship and embrace the diversity of people and ideas.

"We are better together"

Accessibility

We provide the best value for a high quality, holistic education.

"We ensure every student has opportunities"

Sustainability

We promote renewable energy as well as sustainable lifestyles in our changing world.

"We are Black, Gold, and Green"

General Information

Notice of Nondiscrimination

Cloud County Community College does not discriminate in admission or access to, or treatment in employment in its services programs or activities on the basis of race, color, national origin, sex (including pregnancy, sexual orientation, or gender identity), religion, age, disability, or veteran status.

Cloud County Community College established procedures for handling grievances or problems related to discrimination. The President or his/her designee has the authority to establish these procedures.

If you have questions, please contact the Section 504 coordinator at 2221 Campus Drive, Concordia, KS 66901 or at (785) 243-1435 ext. 251 or 800-729-5101.

Accreditation

Cloud County Community College is accredited by the Higher Learning Commission, a commission of the North Central Association of Colleges and Schools, 230 South LaSalle Street, Suite 7-500 Chicago, Illinois, 60604, or (800) 621-7440.

Student Educational Records - Rights of Privacy (FERPA)

Cloud County Community College complies with the Family Education Rights and Privacy Act of 1974 (FERPA). FERPA is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. For more information see Policy E5 at <http://www.cloud.edu/Assets/PDFs/about/Board-of-Trustees/E5%20Student%20Privacy%20Rights.pdf>.

Bookstore

Striving for superior customer service, the T-Bird Bookstore caters to all of your classroom and apparel needs. Beginning Fall 2020, they are offering a new inclusive access program, titled T-Books. More information can be found at https://www.tbirdbookstore.com/inclusive_access.asp?. They also offer classroom and laboratory supplies, and supplemental reading materials. For additional information go to <https://www.tbirdbookstore.com/>.

Academic Services

Student Success Center

The mission of the Student Success Center is to provide assistance and services to support students at Cloud County Community College in achieving their academic goals.

Concordia Campus

The SSC offers a variety of services to support the success of all students at Cloud County Community College. We encourage you to stop by Room GR210 to meet our friendly staff and to see how we can help you succeed in your academic career at CCCC.

Services provided by the center are:

- Tutoring
- Test Proctoring Academic
- Coaching Editing and Proofreading Academic
- Support Reference
- Materials Computers
- Study Management Resources Tutor Training
- Relaxed and Quiet Study Environment
- Professional and Caring Staff

Distance Tutoring

The Student Success Center also offers on-line tutoring which is provided through a Zoom link. Students can request assistance between the hours of 9:00 am to 11:00 am and 1:00 pm to 3:00 pm. However, students are advised to make an appointment by calling 1-800-729-5101, ext.231 or by emailing jstangel@cloud.edu to ensure assistance availability.

At your appointment time, to connect to Zoom through Canvas, click on the Online Tutoring side tab on any class menu and then click on the link provided.

Geary County Campus

The Student Success Center on the Geary County Campus is located in Building A. The center offers a full-service computer lab available for all students to use and provides support with homework on all subjects. Test proctoring is also available by appointment.

For more information regarding the Student Success Center, see <http://www.cloud.edu/Academics/Student%20Success%20Center>.

Library

The Cloud County Community College Library supports and enhances the College's instructional programs by providing services and resources to the college community and the general public in order to promote information literacy, i.e., the ability to locate, evaluate, and use information.

For more information and to see what resources are available, go to <http://www.cloud.edu/Academics/Library/index>.

Accommodation for Disability

Academic: If academic accommodation is needed for any type of disability, students should contact the Director of Advisement and Retention Services, located in the Advisement Center on the Concordia Campus. Students requiring auxiliary aids and services need to request accommodation six to eight weeks in advance of the start of the semester.

Other than Academic: If special arrangements are needed for accessibility, contact the Vice President for Administrative Services to request accommodation six to eight weeks in advance of the start of the semester.

Emergency Evacuation: Students desiring assistance during emergency evacuations will need to complete a registration form each semester in the Advisement Center on the Concordia Campus or the Student Services Office on the Geary County Campus.

Academic Regulations

Academic Regulations

Certificates Offered

A Technical Certificate may be granted for programs of instruction that are less than 60 semester hours in length but more than 15 semester hours. Certificates place an emphasis on occupational experience and are designed to prepare students for specific occupations.

Degrees Offered

“Associate of Applied Science Degree” (A.A.S.) means a degree: granted to those who successfully complete programs which emphasize preparation for employment typically at the technical or semi-professional level; and consisting of a minimum of 62 semester credit hours and a maximum of 68 semester credit hours, in which not less than 15 semester credit hours in general education and not less than 30 semester credit hours in the area of specialized preparation are required. An exception/waiver to the 68 semester credit hour limit may be granted to meet specific criteria such as external program accreditations or other special requirements. Selected courses may transfer to a college or university upon validation of applicable coursework.

“Associate of General Studies” (A.G.S.) means a degree: granted to those who successfully complete programs with an emphasis on a broad range of knowledge; and in which not less than 24 semester credit hours in general education and not less than 36 semester credit hours in a program of college-level work are required. Students can earn a General Studies Degree in a field of study to be generally prepared for employment in the field.

“Associate of Arts Degree” (A.A.) means a transfer-oriented degree: granted to those who successfully complete programs equivalent to the freshman and sophomore level requirements for a bachelor of arts degree; and in which not less than 30 semester credit hours in general education are required.

“Associate of Science Degree” (A.S.) means a transfer- or professional-oriented degree: granted to those who successfully complete programs equivalent to the freshman and sophomore level requirements for a Bachelor of Science degree; and in which not less than 30 semester credit hours in general education are required.

Following are the general education requirements for each of the degrees. General education substitutions must be approved by the Vice-President for Academic Affairs & Student Services. Program substitutions must be approved by the department chair. Electives should be selected in consultation with an academic advisor.

General Education Requirements for Certificates and Degrees

Certificates:

16-Hour Certificates

3 credit hours General Education Courses (To be specified by the department)

30-Hour Certificates

6 credit hours General Education Courses (To be specified by the department)

45-Hour Certificates

9 credit hours General Education Courses (To be specified by department)

Degrees:

Associate of Applied Science Degree

(This degree is considered a work-ready program and is not designed for transfer, however, courses may transfer to specific degree programs at selected colleges or universities.)

62 -68 credit hours including the following General Education minimum requirements:

- Proven English Grammatical Proficiency *or*
- 3 credit hours Communications (Written)
- 3 credit hours Communications (Oral)
- 3 credit hours Mathematics General Education Course, Intermediate Algebra, or Survey of Math
- 3 credit hours Humanities General Education Course
- 3 credit hours Social Sciences General Education Course
- 3 credit hours Natural Science General Education Course

MINIMUM TOTAL..... 15 credit hours

Specialized and Related Competencies - Minimum of 47 credit hours from those listed below, to be determined by the department using the requirements of the occupation(s):

- Technical Knowledge
- Technical Skills
- Communication
- Science
- Mathematics
- Interpersonal Skills (employability skills)
- Courses from other technical disciplines

Academic Regulations

Associate of General Studies Degree

62 credit hours, including the following General Education minimum requirements:

- 6 credit hours Communications General Education Courses
 - 3 hours in Written Communications
 - 3 hours in Oral Communications
- 3 credit hours Mathematics General Education Course or Intermediate Algebra
- 3 credit hours Humanities General Education Course
- 3 credit hours Social Sciences General Education Course
- 3 credit hours Humanities or Social Sciences General Education Course (Must be from second area)
- 4 credit hours Natural Science w/Lab General Education Course
 - Either Biological *or* Physical Science Course
- 3 credit hours General Education Elective Course

MINIMUM TOTAL 25 credit hours

The awarding of an Associate of General Studies degree requires a student to complete a minimum of 37 elective credit hours in addition to the 25 hours of General Education listed above.

The Associate of General Studies degree is not intended for transfer to a college or university. The student may elect to use occupational/technical coursework in part or in whole to fulfill the block of elective credit hours. **Students should be aware that occupational coursework may not be accepted in transfer to another college or university**, however, general education courses and others may transfer to specific degree programs at selected colleges or universities.

Associate of Arts Degree

62 credit hours including the following General Education minimum requirements:

- 9 credit hours Communications General Education Courses
 - 6 hours in Written Communications
 - 3 hours in Oral Communications
 - 3 credit hours Mathematics General Education Course
 - 6 credit hours Humanities General Education Courses
 - From two areas
 - 6 credit hours Social Sciences General Education Courses
 - From two areas
 - 4 credit hours Natural Science General Education Course
 - Either Biological *or* Physical Science w/Lab Course
 - 3 credit hours General Education Elective Course
- MINIMUM TOTAL 31 credit hours

Associate of Science Degree

62 credit hours including the following General Education minimum requirements:

- 9 credit hours Communications General Education Courses
 - 6 hours in Written Communications
 - 3 hours in Oral Communications
- 3 credit hours Mathematics General Education Course
- 6 credit hours Humanities General Education Courses
 - From two areas
- 6 credit hours Social Sciences General Education Courses
 - From two areas
- 8 credit hours Natural Science General Education Courses
 - Both Biological *and* Physical Science Lab Courses

MINIMUM TOTAL 32 credit hours

General Education

General Education Philosophy

General Education expands students' understanding of the world and prepares them for civic, social, and employment responsibilities. General education advances students' abilities to function in diverse and dynamic environments by enhancing communication, stimulating critical thinking, exploring modes of inquiry, developing creative work, fostering constructive attitudes regarding learning, and promoting academic literacy.

Academic Regulations

Attendance

Cloud County Community College regards punctual and consistent classroom attendance as integral to academic success and expects it of all students in all classes. Students are expected to attend all classes as scheduled regardless of delivery format. For online learners, regular, systematic weekly participation is expected according to the tenets established on the course syllabus. A copy of the Attendance policy and procedures may be obtained from the student's faculty, the Office of the Vice-President for Academic Affairs, or found in Policy D4 at <http://www.cloud.edu/About/Board-of-Trustees/policies/>. Each instructor's attendance requirements will be published in the course syllabus. Penalties for excessive absences, up to and including the reduction of the final grade, will be included in the course syllabus. The instructor or the Student Retention Specialist may notify students whose class performance has been jeopardized by excessive absences.

Academic Integrity and Honesty

A standard of honor, fair play, trust, and honesty - fairly applied - is essential to a good learning environment. Students are expected to adhere to such standards in all areas of academic pursuit. Students who compromise the integrity of the classroom are subject to disciplinary action on the part of the College.

A copy of the Academic Integrity and Honesty policy and procedures may be obtained from the Office of the Vice-President for Academic Affairs and Student Success, or Policy D17 at <http://www.cloud.edu/About/Board-of-Trustees/policies/>.

Course Transfer and Program Articulation

Cloud County Community College accepts prior college coursework in transfer from regionally accredited institutions of higher education. These courses are accepted either as direct equivalencies to CCCC courses, as substitutions for CCCC courses, or as general electives. The College participates in the Kansas Core Outcomes Group state-wide initiative, which aligns learning outcomes of college courses typically taught by Kansas colleges and universities. The courses reviewed through this process are accepted in transfer to and from any Kansas institution of higher education. See <http://www.cloud.edu/Academics/transferability/> for additional information.

CCCC also develops program articulation agreements with various colleges and universities around the state, region, and nation. These articulations are designed for CCCC graduates to transfer their associate degree as completion of the first two years of a related baccalaureate degree program. The College has articulation agreements with other community colleges in the state designating specific CCCC courses that satisfy program requirements at the receiving community college. These articulation agreements can be found at <http://www.cloud.edu/Academics/transferability/>.

Additional transfer and program articulation can be found in Policy D23 at <http://www.cloud.edu/About/Board-of-Trustees/policies/>.

Credit by Examination

1. The student should enroll in the course they intend to "quiz-out" of. Approval for credit by examination must be obtained from both the Vice-President for Academic Affairs and Student Success and the instructor prior to taking the exam. Forms are available in the Student Records Office. The exam must be taken within the first five business days of the semester.
2. If the examination is passed the student will be dropped from the course with no refund and a notation, "Credit by Exam", will appear on the transcript for this course with grade earned. The student may then enroll in a sequential course with approval of the Vice-President for Academic Affairs and Student Success and the instructor. Enrollment in the quiz-out and sequential course may not be done concurrently.
3. If the examination is not passed the student will remain enrolled in the course.
4. An examination fee of \$15.00 will be charged for all attempted quiz-outs. Students will receive a grade for all courses successfully completed via the quiz-out method.
5. High school students are not eligible to quiz-out of a college course.

Credit For Prior Learning: AP, CLEP, Military Credit, Military and Industry Training and Experience

Credit for Prior Learning (CPL) is the evaluation and assessment of an individual's learning obtained outside a formal academic setting. For more information, see Policy D6 at <http://www.cloud.edu/About/Board-of-Trustees/policies/>.

Student Classification

1. Freshman: Any student having fewer than 30 semester hour's credit.
2. Sophomore: Any student having 30 or more credit hours
3. Special students, include the following: (1) high school students taking college courses; (2) gifted students, as defined by K.S.A. 72-962(g); (3) students who earned more than 64 hours; and (4) those students not meeting specific requirements for admission.

Enrollment and Withdrawal

Enrollment

New students will meet with advisors during a New Student Enrollment Day to discuss academic goals and to enroll in courses. Returning students will schedule appointments to meet with their advisor to enroll in courses during designated enrollment periods. These dates are scheduled and published throughout the year. For assistance, contact the Advisement Center (Concordia campus) at 800.729.5101, ext. 275 (advisement@cloud.edu) or Student Services (Geary County Campus) 800.729.5101, ext. 714 (gcadvisement@cloud.edu). Early enrollment is encouraged due to a greater course selection and to provide time to complete the enrollment process.

Academic Regulations

After students complete the personal information update within their iCloud account, if required, students will be ready to enroll in courses. At the time of enrollment, official transcripts or placement scores must be on file. Refer to the Placement Test section for more details.

All students are required to have an established method of payment by the scheduled due dates assigned for each term enrolled to ensure FULL access to classes and to prevent being dropped from classes.

Students taking off-campus or on-line courses should enroll through iCloud or contact an advisor.

Prior to the first day of class, students are required to identify the prescribed textbook and all materials which will be required for each course. Books and access codes are often required for on-line courses. Visit the T-bird Bookstore (<http://www.tbirdbookstore.com/>) to view and purchase course materials during established timeframes. For many courses, the bookstore has launched an inclusive access program called T-Books. More information can be found at https://www.tbirdbookstore.com/inclusive_access.asp? Purchasing required books, access codes, and other materials are important to ensure your success. Plan ahead to receive your books before class begins.

Placement Test

Students who have not completed college-level math or English must provide ACT, SAT, or Accuplacer placement test scores prior to enrollment. Placement scores that are no more than three years old for Math and five years old for English are acceptable. Students without scores on file are given a placement test and will incur a test fee that will be due at the time of testing. There is a 1-month waiting period for retake tests. The same fee applies to retake tests.

Scores from the test will be used to determine the appropriate math, English or reading courses for the student; placement information can be found at <https://www.cloud.edu/academics/advising/>. Depending on the scores, students may be required to take developmental courses. These courses will prepare the student for college courses, will appear on the official transcript, and be included in the career GPA. Developmental courses do not count toward the graduation requirements.

High school students in the CCCC service area, who are enrolling in concurrent courses through CCCC, are given the placement test during designated periods at the high schools. The test fee will be due prior to or at the time of testing. See the coordinator at your high school for more information. Students enrolling in courses at CCCC may take the placement test at the Concordia or Geary County campuses throughout the year. Students wishing to schedule a time to test can call 800.729.5101, ext. 275 for the Concordia campus or 800.729.5101, ext. 750 for the Geary County Campus.

The Concordia and Geary County campuses are remote test sites. Students can also make arrangements to test at a test site closer to the student. Students studying at other institutions can call the Advisement Center at the Concordia campus or the Student Services Office at the Geary County Campus for information regarding testing details and fees.

Add Procedure

Students may add courses either through iCloud (student web portal) or by contacting their academic advisor at the GCC Student Services Office or the Advisement Center on the Concordia Campus. Guidelines for adding a class can be found in Policy D5 at <http://www.cloud.edu/Assets/PDFs/about/Board-of-Trustees/D5%20Procedures.pdf>.

Withdrawal

Students may withdraw from classes according to guidelines in Policy D5 at <http://www.cloud.edu/Assets/PDFs/about/Board-of-Trustees/D5%20Procedures.pdf>. A “W” (withdrawn) will appear on the transcript for these courses. Forms for this purpose are available from the Concordia Campus Advisement Center and the Geary County Campus Office of Student Services.

Before a withdrawal can be finalized the instructor must be informed.

Requests for withdrawals, including total withdrawals, outside these established timelines will be considered for extraordinary or unusual circumstances as determined by the Director of Advisement and Retention.

Grading System

For each semester hour of graded work, students earn points, as follows:

AExcellent	4	grade points
BGood	3	grade points
CAverage	2	grade points
DPoor	1	grade points
FFailing	0	grade points
WWithdrawn	0	grade points
PPass	0	grade points
NPNo Pass	0	grade points
IIncomplete	0	grade points
AUAudit	0	grade points
WIPWork in Progress	0	grade points
XFAcademic Integrity Violation	0	grade points
WAAdministrative Withdrawal	0	grade points

Grade Point Average (GPA):

Grade point average is a measure of scholastic performance calculated by dividing the number of grade points by the hours of work attempted, using the grade point scale above. Grades A, B, C, D, F and XF are computed in the Grade Point Average. The numerical value of each letter grade is multiplied by the credit hour value of the course. The resulting total of grade points is divided by the total number of these hours. Grades of W, P, NP, I, AU and WA are not computed in the GPA.

Nursing Grading System

AExceeds Expectations	90.00-100.00%
BMeets Expectations	80.00-89.99%
CDoes not meet Expectations	70.00-79.99%
DDoes not meet Expectations	60.00-69.99%
FDoes not meet Expectations	59.99 and below

***All students must obtain an 80% or higher to pass the course and progress in the program.

Academic Regulations

Honor Roll

The President's Honor Roll recognizes students who have earned a semester grade point average of 3.9 - 4.0. The Honor Roll includes students who have earned a semester grade point average of 3.6 to 3.899. In order to be eligible for these honor rolls, a student must complete a minimum of 12 hours in any given semester. These lists are published after the fall and spring semesters.

Honor Graduate

A student meeting all graduation requirements for Cloud County Community College and who has a 3.6 GPA or higher for **all college** credit hours completed (Cloud County Community College credits and all transfer hours) may be designated an Honor Graduate.

For commencement ceremony purposes in the spring, tentative Honor Graduates will be recognized based upon the cumulative GPA at the end of the fall semester. However, the official designation will take place after the final GPA is determined based upon the criteria stated above and the degree has been conferred. At that point, the designation of "Honor Graduate" will be noted on the student's transcript.

Academic Probation & Suspension Sanctions

For students at Cloud County Community College, academic probation and academic suspension are not punitive measures or disciplinary actions. The purpose of this policy is to provide opportunities for students to succeed.

The clear intent of these sanctions is:

- To identify students whose academic efforts have not been successful;
- To provide these students the opportunity for guidance in developing strategic plans to succeed at college level learning; and
- To link these students with staff and faculty who can offer support and encouragement to follow their plans through to success.

Satisfactory Academic Progress

To graduate, students must earn a minimum cumulative GPA of 2.0. To reach this required minimum, students must maintain certain GPA minimums as compared to completed credit hours (see chart below).

Earned credit hour minimum for satisfactory academic progress: Students will pass 50% (grades A, B, C, D, or P) of stated credit hours in any given semester.

Academic Probation

Students who have attempted eleven or more cumulative credit hours at Cloud County Community College shall be placed on academic probation when the cumulative grade point average or semester grade point average is less than that needed to achieve satisfactory academic progress, or a student passes less than 50% of courses for which they are enrolled.

Satisfactory Academic Progress Chart

<u>Total Attempted Credit Hours</u>	<u>Minimum Career GPA</u>	<u>Minimum Semester GPA</u>
1-10 credit hours	N/A	N/A
11-20 credit hours	1.60	1.70
21-30 credit hours	1.70	1.70
31-40 credit hours	1.80	1.70
41-50 credit hours	1.90	1.70
51-94 credit hours	2.00	1.70

Students on probation or suspension from another college or university may Cloud County Community College on probation.

At the close of each semester, the academic performance of students on academic probation will be re-evaluated in terms of satisfactory academic progress.

If the student's semester and cumulative GPA meet the requirements for satisfactory academic progress and the student has completed at least 50% of the courses for which they are enrolled, the student no longer will be considered on academic probation.

Academic Suspension

If the student does not meet satisfactory academic progress requirements, the student will be placed on academic suspension after review by the Academic Probation and Suspension Committee.

The terms of academic suspension shall be as follows:

1. A student on academic suspension will not be eligible to register for the next regular fall or spring semester.
2. After one semester of academic suspension, the student may enroll on continuing academic probation status.

Reinstatement

A student who has been suspended for academic reasons may file a petition for reinstatement with the Academic Probation and Suspension Committee. The Academic Probation and Suspension Committee will consider each petition individually and may request the student to appear before the committee. If reinstated, the probationary status will continue.

For more information regarding Probation/Suspension see Policy D14 at <https://www.cloud.edu/about/board-of-trustees/policies/>.

Final Examinations

Final Examinations shall be given during the time allotted for such examinations. Any deviation from these policies shall be cleared with the Vice President for Academic Affairs and Student Success.

When a student has three or more final examinations scheduled for one day, that student may petition the instructor(s) to reschedule the middle examination (s), leaving two examinations for a testing day. Any difficulties arising from this process should be referred to the Vice President for Academic Affairs and Student Success.

Academic Regulations

The final examination in a course must be given during the term final examination week specified by the Final Exam Schedule (Concordia and Geary County Campuses and Online). Courses may have take-home examinations, projects, papers, or media, in lieu of written term final examinations as the last evaluation instrument in the course. In such instances, a deadline for submittal of the material may not be earlier than the date/time of the course's scheduled term final examination.

Graduation

In order to graduate, students are expected to complete the graduation requirements listed in the catalog that was in effect at the time they first enrolled. However, if graduation requirements change while the student is pursuing a degree, the student will have the choice of continuing with the old requirements, where those courses are available, or accepting the new requirements in order to graduate. If a student sits out two consecutive semesters, the student will be readmitted under the graduation requirements in the current catalog.

Graduation requirements are as follows:

- Completion of the general education requirements.
- Completion of a minimum of 62 credit hours and an overall grade point average of at least 2.0. Courses must be 100 level or above.
- Technical courses typically will not count toward AA or AS degree requirements. Technical courses are those created to satisfy specific program outcomes for the Associate of Applied Science programs and certificates and Allied Health courses. They include courses with prefixes of AH, IE, MS, NR, SE, UA, TD, WE as well as CDL and Agri-Biotechnology courses.
- For the Associate of Applied Science Degree, completion of the departmentally approved program.
- Students completing requirements during the fall semester will be part of the May ceremony. Those students must submit a petition by December 1. Students completing requirements during the spring or summer semester must submit a petition by March 1 to participate in the commencement ceremony.
- No more than 12 hours of PE activity course credits can be used towards any of Cloud's associate degrees.
- A student must earn 15 hours of credit as a Cloud County Community College student for completion of the Associate's Degree being sought. For a Technical Certificate, students must earn 8 of 30 hours of credit or 4 of 16 hours of credit as a CCCC student. These courses must be 100 level or above.
- A high school student who petitions to graduate with an AA/AS/AGS/AAS must present a high school transcript demonstrating completion of high school graduation requirements.

Cloud County Community College holds one commencement ceremony, which takes place in May. It is the responsibility of the student to meet all requirements for graduation, and to check with the Student Records Office well in advance so there are no deficiencies.

Academic Due Process

In order to provide the highest level of service to the student, CCCC adopts the following procedure for addressing any complaint or dispute related to academic matters. Students who wish to appeal any academic dispute arising from an academic endeavor must follow this procedure. Failure to comply with these procedures shall be grounds for dismissal of any complaint or dispute and dismissal of the complaint shall be final. The complete Academic Due Process policy and procedure may be obtained from the Office of the Vice-President for Academic Affairs and Student Success or at <http://www.cloud.edu/Assets/PDFs/about/Board-of-Trustees/D19%20Academic%20Due%20Process.pdf>. After obtaining a copy of the policy from the Academic Affairs and Student Success Office, students who wish to appeal any academic dispute arising from an academic endeavor must start the process by:

Step 1: The student shall, within 10 business days following the academic dispute (i.e. issuance of the grade, charge of academic dishonesty, questioning classroom policy, procedures, assignments, or any related areas) provide written notification of any objection or complaint to the instructor and personally confer with the instructor (face-to-face or through web conferencing) to discuss resolution of the matter. Both student and instructor shall make a good faith effort in settling any dispute at this level. The instructor shall, within five (5) business days following the conference with the student, provide the student in writing the decision regarding the academic dispute.

Step 2: If the student is not satisfied with the results of the conference, the student must submit the Academic Due Process Complaint Form (found at the end of the procedures at <http://www.cloud.edu/Assets/PDFs/about/Board-of-Trustees/D19%20Academic%20Due%20Process.pdf>) to the appropriate Division Dean, his/her designate, within five (5) business days following completion of Step 1. The Division Deans will document evidence and log the complaint according to institutional practice.

The Division Dean, or his/her designate, may request a meeting with the student (face-to-face or through web conferencing) for the purposes of seeking a resolution to the dispute. All parties must make a good faith effort at resolution, and no complaint or dispute may proceed to the next step unless such attempt at resolution is made.

The Division Dean, or his/her designate, shall evaluate the complaint or dispute to ensure that it meets the standards set forth in this policy and prepare a formal letter with his or her decision within five (5) business days, addressed to the student and to the faculty member identifying the resolution of the complaint.

Academic Regulations

If the student is not satisfied with the resolution presented by the Division Dean, the student will initiate Step 3.

Step 3: The student shall supply a copy of the Academic Due Process Complaint Form, along with all attachments or supporting material, to the Vice-President for Academic Affairs and Student Success or his/her designate, within five (5) working days of the completion of Step 2.

The student shall make themselves available to the Vice-President for Academic Affairs and Student Success, or his/her designate, for informal discussions on the topic of resolutions of the complaint or dispute.

Should the Vice-President for Academic Affairs and Student Success, or his/her designate, deem it appropriate, a formal hearing on the complaint or dispute may be set within five (5) business days. Such hearing shall be held before an ad hoc committee composed of the Division Dean, two faculty members from the Division, the Vice-President for Academic Affairs and Student Success, one faculty member from another division, and one faculty/staff member representative on behalf of the student. The members of the committee shall be appointed by the Vice-President for Academic Affairs and Student Success. Said committee shall serve in an advisory role only, and shall report directly to the Vice-President for Academic Affairs and Student Success, or his/her designate.

The Vice-President for Academic Affairs and Student Success retains the discretionary authority to take action on the complaint or dispute based on the written reports submitted.

Step 4: Should the matter not be resolved, the student must submit a copy of the complaint or dispute, along with all attachments or supporting material, to the Office of the President within five (5) business days of completion of Step 3. The student must also submit a written notice of appeal from the decision of the Vice-President for Academic Affairs and Student Success, and such notice must contain a concise statement of all issues remaining in dispute. The President retains discretionary authority to take action on the complaint or dispute based on the written reports submitted. The President may also take other action as deemed necessary.

Step 5: Use of the complaint procedure is not a prerequisite to the pursuit of other remedies. In addition to utilizing the college's complaint process, the following outlets exist for seeking redress of grievances:

- Complaints regarding State Authorization Reciprocity Agreement (SARA) courses delivered by SARA member community colleges may be filed by students enrolled in these courses with the Kansas Board of Regents office.
- Kansas Community Colleges are regionally accredited by the Higher Learning Commission on Colleges and Universities (HLC). Complaints regarding an institution's ongoing ability to meet the Criteria of Accreditation may be filed by following the guidelines at <https://www.hlcommission.org/HLC-Institutions/complaints.html>.

Assessment of Student Learning

Assessment of student learning is a critical part of the education process at CCCC. Ongoing assessment of student learning is a means for the College to measure its success in meeting the mission; and for continued enhancement of both academic programs and student success. Contributions by students constitute a critical source of assessment data. Throughout their educational career at CCCC, all students will be expected to contribute to the assessment program by completing surveys, standardized tests, submitting academic work products, working with academic advisors, and completing exit interviews as required by specific programs. CCCC believes assessment of student learning leads to decisions which affect the entire college thus CCCC faculty, staff and administration are committed to an ongoing assessment program to continually improve teaching and learning.

Leave of Absence

Cloud County Community College is committed to student success and provides services to help students who need an extended leave of absence due to personal tragedy, family illness, death in the family, or other sudden personal issue.

If a student needs an extended leave of absence due to one of the above circumstances, please notify the Director of Advisement and Retention Services located in the Advisement Center. A form must be completed and signed prior to leaving campus by both the student and their instructors providing an understanding of the estimated time a student will be gone from campus, when the student expects to return to campus, and the course expectations during the leave of absence. The Leave of Absence form does not serve as a contract, but rather a tool for communication between the student and their instructors. In emergency situations when the student is not able to contact the Advisement Center, a family member or friend should notify the Advisement Center for the student. The Director of Advisement and Retention Services will then notify the student's instructors and the Vice President for Academic Affairs and Student Success.

Academic Regulations

COURSE TRANSFER

Course Transfer

The Kansas Board of Regents has now approved a list of courses for guaranteed transfer among all Kansas public postsecondary institutions. A student who completes these courses at any Kansas public community college, technical college, or university can be certain that he or she can transfer that course to any other public institution in Kansas in pursuit of a degree or credential.

A list of the courses approved for the statewide guaranteed transfer may be found at <https://www.kansasregents.org/academic-affairs/transfer-articulation>. Additional courses are added annually.

REVERSE TRANSFER

Reverse Transfer

Students who transfer to a Kansas public university from a Kansas public community college or technical college (or vice versa) are eligible for Reverse Transfer, which allows for the attainment of any associate degree for which one is eligible along the way to additional certificates and degrees. Within a student's first semester, those who transfer coursework from a public university, community college or technical college will be notified if they are eligible to be considered for reverse transfer degree status and which courses are needed to finish the related degree. Students who then complete the coursework for a given associate degree will be eligible to receive that degree, administered automatically by correspondence between the new institution and the university, community college or technical college the student last attended.

Visit <https://www.kansasregents.org/students/reverse-transfer-2> for more information.

KS DegreeStats.org

There are many factors to consider when picking the college and the degree that are the best match for you. Explore: ksdegreestats.org to learn more about the specific costs of each undergraduate degree program offered in Kansas, and the earnings those graduates are making today.

Course Transfer and Program Articulation

Cloud County Community College accepts prior college coursework in transfer from regionally accredited institutions of higher education. These courses are accepted either as direct equivalencies to CCCC courses, as substitutions for CCCC courses, or as general electives. The College participates in the Kansas Core Outcomes Group state-wide initiative, which aligns learning outcomes of college courses typically taught by Kansas colleges and universities. The courses reviewed through this process are accepted in transfer to and from any Kansas institution of higher education. See <http://www.cloud.edu/Academics/transferability/index> for additional information.

CCCC also develops program articulation agreements with various colleges and universities around the state, region, and nation. These articulations are designed for CCCC graduates to transfer their associate degree as completion of the first two years of a related baccalaureate degree program. The College has articulation agreements with other community colleges in the state designating specific CCCC courses that satisfy program requirements at the receiving community college. These articulation agreements can be found at <http://www.cloud.edu/Academics/transferability/index>

Additional transfer and program articulation can be found in Policy D23 at <http://www.cloud.edu/Assets/PDFs/about/Board-of-Trustees/D23%20Course%20Transfer%20and%20Program%20Articulation%20procedures.pdf>.

Career Programs

Associate of Applied Science Degrees

The career program is for students who want to enter the workforce in a specific career after obtaining an associate degree. An Associate of Applied Science degree is awarded after completion of a minimum of 62 hours in a departmentally approved program, and 124 grade points. Of the hours required, a minimum of 15 hours must be General Education courses. Certificates are also available in the career programs. For information about courses in the career program offered online visit <http://www.cloud.edu/Academics/Online/>.

Associate of General Studies Degrees

The general studies program is designed for students who want to enter the workforce after obtaining an associate degree. This degree allows student flexibility in selected courses applicable to their desired field of study. Both transfer courses and technical courses accumulate toward the 62 hours needed for completion. Of the hours required, a minimum of 25 hours must be General Education courses. After degree completion, students could seek employment or decide to apply coursework toward a transfer program. Transfer Program

Associate of Arts and Associate of Science Degrees

The transfer program is designed for students planning to enter professions requiring a bachelor's degree. During their time at Cloud, students work toward completing the Associate of Arts or the Associate of Science degree. These 62 credit hour degrees contain required General Education courses as well as electives which, with the aid of an Academic Advisor, may be selected to fulfill freshman and sophomore level course needs in the student's desired major at a four-year college or university. Transfer materials for regional colleges and universities are available in the Advisement Center to assist students and advisors with course selection. Additional transfer information is available on the website <http://www.cloud.edu/Academics/transferability/>. For information about courses in the transfer program offered online visit <http://www.cloud.edu/Academics/Online/>.

Potential Careers:

- Agronomist
- Ag & Food Science Technician
- Ranch Manager
- Agriculture Teacher/Professor
- Communications Specialist

Agriculture includes the principles of animal care, crop and vegetable farming, marketing of farm products, sustainable practices, and large property management. Certificates in the areas of Production and Services, Agri-Biotechnology, and Precision Agriculture can be completed in one year or less and can be a starting point for a two-year degree. A.A.S. and A.G.S. degrees are considered “ready for work” programs. Students interested in pursuing a Bachelor’s degree should enroll in the A.S. degree. The Ag unit provides a hands-on learning lab for students in Agriculture.

Biological Science General Education		

Required Precision Agriculture Courses 19 cr

AG101	Plant Science	4
AG102	Introduction to Plant Pest Control	3
AG132	Agriculture Management	3
AG255	Precision Ag Hardware	3
AG256	Precision Ag Software	3
AG257	Precision Ag Machine Data Management	3

Elective Courses * (CCCC) 4 cr

AG103	Plant & Soils for Crop Production	3
AG104	Soils	4
AG105	Range Management	3
AG106	Soil Classification and Evaluation	1
AG107	Agronomy Id & Experimentation	1
AG112	Agronomy Id & Experimentation II	1
AG115	Animal Science	3
AG134	Agriculture Marketing	3
AG160	Introduction to Biotechnology	3
AG164	Advanced Soil Classification & Evaluation	1
AG210	Agriculture Advertising & Design	3
AG217	Farm Computer Applications	3
UA100	Introduction to sUAS	3
UA201	sUAS Command, Control, & Comm	3
UA210	sUAS Systems & Conceptual Design	3
WE110	Electrical Theory	3
WE240	GIS/GPS	3

Courses CCCC will accept as Electives from Highland CC

AB126 Principles of Agronomy
 AB128 Agriculture Electronic Devices & Systems
 AB130 Precision Farming Systems
 AB136 Intro to Agricultural GIS
 AB138 Remote Sensing
 AB142 Field Mapping for Decision Making
 AB144 Intermediate Agricultural GIS
 AB244 Precision Agriculture Capstone

*All electives should be selected with assistance from an advisor.
 Substitutions must be approved by department chair.

Fields of Study

Agriculture

AGRICULTURE PRODUCTION & SERVICES 30 Hour Certificate

Required General Education Courses 7 cr

<i>Mathematics Requirement</i>		
MA110 Intermediate Algebra (3 cr) or		3
MA105 Survey of Math (3 cr) or		
Mathematics General Education Course		
<i>Natural Science Requirement (1 area required)</i>		4
Physical Science General Education		
Biological Science General Education		

Required Agriculture Courses 7-10 cr

AG127 Ag Science (4 cr) or		4-7
AG101 Plant Science (4 cr) or		
AG150 Introduction to Horticulture (4 cr) and		
AG115 Animal Science (3cr)		
AG132 Agriculture Management (3 cr) or		3
AG134 Agricultural Marketing (3 cr)		

Elective Courses 13-16 cr

Business/Economics

AG130 Principles of Agriculture Economics		3
AG132 Ag Management		3
AG134 Ag Marketing		3
AG210 Ag Advertising and Design		3
AG212 Agricultural Law		2
AG217 Farm Computer Applications		3
BE161 Accounting I		3
BE162 Accounting II		3
BE188 Principles of Advertising		3

Agronomy

AG102 Intro to Plant Pest Control		
AG103 Plants & Soils for Crop Production		3
AG104 Soils		3
AG105 Range Management		4
AG106 Soil Classification and Evaluation		3
AG107 Agronomy ID & Experimentation		1
AG160 Intro to Biotechnology		1
		3

Animal Science

AG111 Animal Management		3
AG114 Domestic Animal Production		1
AG116 Principles of Feeding		3
AG118 Principles of Livestock Selection		2
AG119 Principles of Livestock Selection II		1
AG123 Beef Science		2
AG128 Animal Health & Nutrition		3
AG139 Farm Animal Reproduction		3
AG159 Equine Evaluation		1
AG166 Fundamentals of Livestock Nutrition		3
AG170 Wildlife Management		3

Equine Science

AG111 Animal Management		3
AG122 Intro to Horsemanship		2
AG128 Animal Health & Nutrition		3
AG139 Farm Animal Reproduction		3
AG157 Equine Industry Management I		3
AG159 Equine Evaluation		1
AG165 Equine Evaluation II		2

Commercial Gardening

AG102 Intro to Plant Pest Control		3
AG103 Plants & Soils for Crop Production		3
AG104 Soils		4
AG105 Range Management		3
AG106 Soil Classification and Evaluation		1
AG107 Agronomy ID & Experimentation		1
AG160 Intro to Biotechnology		3
AG240 The Horticulture Industry		3
AG241 Commercial Productions of Fruits & Vegetables		3

General Electives

AG155 Comparative Ag		1
AG220 Cooperative Ed Internship		1-6
AG299 CDL: Maps, Log Books, and DOT Regulations		1
AG300 CDL: Commercial Driver's License		1
AG301 Truck & Tractor Trailer Vehicle Inspection & Maintenance		1
AG302 In City Commercial Driver's License Driving		1
AG257 Precision Ag Machine Data		3

BUSINESS

Department Chair: Shelly Farha
sfarha@cloud.edu • 243.1435, ext. 260

Employment:

\$40,000-\$100,000

Potential Careers:

- Accountant
- Payroll Manager
- Office Manager
- Entrepreneur
- Sale Representative
- Marketing Analyst

Business offers broad-based programs that include the study of accounting, economics, management, and marketing. Students can complete a certificate in one year and be employable or use the certificate as a building block for a two year degree. The A.A.S and A.G.S. are considered “go to work” programs. Students looking to complete a four year degree should consider the A.A. as transfer preparation.

COMMUNICATIONS

Department Chair: Andy Myers
amyers@cloud.edu • 243.1435, ext. 242

**Employment:
\$30,000-\$65,000**

Potential Careers:

- Radio Station News Director
- Journalist
- Web Designer
- Graphic Designer
- TV Reporter

Communications develops practical skills and applied knowledge by engaging students with real- life communications issues. Coursework develops understanding of fundamental principles and skills through hands-on experiences. A certificate can be completed in one year and can serve as the first step to the A.A.S. or A.G.S. degrees which are considered "ready to work" degrees. Students interested in transferring to a bachelor's program should enroll in the A.A. program.

EDUCATION

Department Chair: Spencer Farha
safarha@cloud.edu • 243.1435, ext. 269

Employment:

\$25,000-\$85,000

Potential Careers:

- **Elementary School Teacher**
- **High School Teacher**
- **College Professor**
- **Principal/Superintendent**
- **Classroom Paraprofessional**

Education includes programs in elementary and secondary education in the following focus areas: agriculture, art, communications and theatre, health and physical education, history, math, music, science, and social science, with coursework also available in early childhood education. While there are some opportunities in supporting roles in education for employment after two years, most teaching positions will require a bachelor's degree. The A.A. degree is the best option for students planning to continue college after a two year degree.

Degrees & Certificates

Early Childhood Education	30-hour certificate	Associate of Arts.....	A.A. - 62 hours
Associate of General Studies.....	A.G.S. - 62 hours		

Fields of Study

Education

EARLY CHILDHOOD EDUCATION 30 Hour Certificate

General Education Courses 9 cr

Choose 3 of the following:

- CM101 English Composition I (3 cr)
- CM115 Public Speaking (3 cr)
- MA110 Intermediate Algebra (3 cr) *or*
Mathematics General Education Course (3 cr)
- Science General Education Course w/ lab (4 cr)
- Social Science General Education Course (3 cr)

Early Childhood Education Courses 6 cr

Choose 2 of the following:

- HE150 Early Childhood Development (3 cr)
- HE153 Creative Activities for Young Children (3 cr)
- HE164 Developmental Program Planning for
Young Children <2.5 (3 cr)

Elective Courses 15 cr

HE144	Inclusive Early Childhood Education	3
HE147	Principles of the CDA Credential	3
HE151	Early Childhood Development Lab	1
HE152	Interaction Techniques with Young Children	3
HE154*	Creative Activities for Young Children Lab	1
HE155	Parent, Providers and Community Relationships	3
HE156	Developmental Program Planning for Young Children >2.5	3
HE157*	Developmental Program Planning for Young Children >2.5 Lab	1

HEALTH & HUMAN PERFORMANCE

Spencer Farha, Department Chair
safarha@cloud.edu • 243.1435, ext. 269

Recent graduates hired as:

- **Coach**
- **Physical Education Instructor**
- **Athletic Trainer**
- **Nutritionist**

Health and Human Performance is a broad field including athletic training, coaching, physical education instructor health science, and health administration. While there are some opportunities for employment in supporting roles after a two-year A.G.S. program, many careers require a bachelor's degree. Students planning to complete a four year degree should enroll in the A.S. program.

Degrees & Certificates

Emergency Medical Technician..... 16 hours Associate of Science..... A.S. - 62 hours
Associate of General Studies..... A.G.S. - 62 hours

Fields of Study

Health and Human Performance

EMERGENCY MEDICAL TECHNICIAN

This course of study will provide the participant with the preparation necessary to test for certification as an Emergency Medical Technician in the State of Kansas. This is the initial course of instruction required for persons involved in providing emergency care. Areas covered include: the control of an accident scene, care of the patient prior to transport, preparation for transport, transport and care of the patient while en-route to the hospital, transfer of patient to a hospital emergency department, communication, reporting, record keeping, and vehicle care. This Emergency Medical Technician course meets the course requirements of the Kansas Board of Emergency Medical Services as set forth in Kansas Administrative Regulations.

When taken with *First Aid and Safety* and *General Psychology* or *Introduction to Sociology*, the student will be awarded a college-level certificate. These courses will apply toward requirements for an Associate's degree if the student wishes to continue his or her education. In the state of Kansas, the entry-level hourly wages for certified EMT's range from \$13.00 to \$15.00 per hour with an annual salary ranging from \$26,000 to \$32,000.

EMT LEVEL I *16-Hour Certificate*

HUMANITIES/ FINE ARTS

Focus Areas:

Art, History, Music,
Philosophy,
Theatre, Religion

Division Dean: Brenton Phillips

bphillips@cloud.edu • 243.1435, ext. 244

Employment:

\$45,000-\$100,000
(with bachelor's
degree)

Potential Careers:

- Graphic Designer
- Artists
- Attorney
- Event Coordinator
- Musician

Humanities/Fine Arts help people understand, analyze, and explore the human condition. Student activities in music, theatre, and art club enhance a student's classroom learning. There are some opportunities for employment after two years, but many careers require a Bachelor of Arts degree. Students planning to complete a four year degree should enroll in the A.A. program.

INTERDISCIPLINARY STUDIES

Division Dean: Dr. Brian Stark
brian.stark@cloud.edu • 243.1435, ext. 216

Students with a degree are more competitive for employment opportunities.

Interdisciplinary Studies are designed to allow students the opportunity to explore fields of study or disciplines and use a combination of courses to complete a degree. The A.A.S. in Technical Studies is available to students who complete technical courses from multiple programs and is considered a “go to work” program that can be completed in two years. The A.G.S. is a combination of technical courses and transfer courses that could help students be more competitive for employment or apply to a transfer program. For students who know they want to transfer, the A.S. degree is the best option; however, the general program may not meet the specific requirements of the school of study the student wants to transfer into. If a student plans to transfer to a Bachelor’s program, it is in the student’s best interest to enroll in the field of study once an area of interest is identified.

Degrees & Certificates

- Technical StudiesA.A.S. - 62 hours
- Associate of General StudiesA.G.S. - 62 hours
- Associate of Arts A.A. - 62 hours
- Associate of Science A.S. - 62 hours

Fields of Study

Interdisciplinary Studies

Technical Studies Associate of Applied Science 62 Hours

The Associate of Applied Studies offers an opportunity for students to continue technical coursework from two or more approved technical programs. This will allow students to gain skills in emerging occupations or meet employer needs by blending courses from multiple technical disciplines into a single approved degree program. This is an individualized program of study between the student and their advisor using courses from Kansas Board of Regents Career and Technical approved programs.

Any non-technical, non-developmental course can be used to fulfill the requirements of the Associate of Science degree.

Focus Areas:
Architecture,
Engineering,
Mathematics,
Engineering Technology,
Actuary Science

MATHEMATICS & ENGINEERING

Department Chair: Mark Whisler
mwhisler@cloud.edu • 243.1435, ext. 221

Employment:
\$60,000-\$100,000
(with bachelor's degree)

Potential Careers:

- **Data Analyst**
- **Civil Engineer**
- **Chemical Engineer**
- **Electrical or Mechanical Engineer**
- **Actuary**
- **Architect**

Mathematics is the study of numbers, equations, functions, and geometric shapes and their relationships. Engineering combines mathematical theory, practical design theory, and scientific computing to address today's technological challenges.

While there may be some opportunities for employment after two years, many careers require a Bachelor of Science degree. Students planning to complete a four-year degree should enroll in the A.S. program.

NURSING

Stefanie Perret, Nursing Administrator
sperret@cloud.edu •• 243.1435, ext. 332

Focus Areas:

Nursing (ADN)

Partnership AAS/BSN

Pre-BSN

Nurse's Aid

Medication Aid

Employment:

\$20,000-\$65,000

Recent graduates hired as:

- **Registered Nurse**
- **CNA**
- **CMA**

Nursing is a broad field including Associate Degree Nursing, Allied Health, and pre nursing coursework to prepare students for a program of their choice. The Associate Degree nursing program includes two options for students to obtain an associate degree in nursing: the Generic Traditional Option allows students to start directly in the program and the Advanced Standing Option allows for transfer into the program as a Licensed Practical Nurse. Cloud also participates in the KU / Community College Nursing Partnership. Which offers the convenience of staying at the community college while pursuing both an Associate Degree in Nursing (ADN) and a Bachelor of Science in Nursing (BSN)

ALLIED HEALTH

HEALTH AIDE

Certified Nurse Aide, Medication Aide, Medication Aide Update, and Home Health Aide courses are taught at various times and locations in North Central Kansas throughout the year. Contact the Allied Health office at the college (785-243-1435, ext. 372) for information as to times and locations of these courses.

Certified Nurse Aide

The student who completes/passes this 90 hour course is eligible to take the Kansas State Certified Nurse Aide Exam for licensure as a Certified Nurse Aide. Course delivery methods may be completed by face-to-face classroom sessions or hybrid. This course is considered a Stand Alone Program and is not applicable to any degree, although many LPN (Licensed Practical Nursing) Programs require the applicant to have completed the CNA class before admission to their program. Many CNA's are employed in long-term care facilities. The beginning salary for a CNA in the local area ranges from \$8.50 to \$9.50 per hour. Please contact the Allied Health Office at Cloud County Community College for further information. (785)243-1435 Ext. 372.

Medication Aide

The student who completes/passes this 75 hour course is eligible to take the Kansas State Certified Medication Aide Exam for licensure as a Certified Medication Aide. Course delivery methods may be completed by face-to-face classroom sessions or hybrid. This course is considered a Stand Alone Program and available only to Certified Nurse Aides and is not applicable to any degree. Many CMAs are employed in Long Term Care and Assisted Living Facilities. Local beginning salary range from \$8.95 to \$10.00 per hour. Please contact the Allied Health Office at Cloud County Community College for further information. (785)243-1435 Ext 372.

LPN IV Certification

The Licensed Practical Nurse who completes this 32 hour course is eligible to take the Kansas State Exam for I.V. Therapy Certification. Upon certification and under the supervision of a professional registered nurse, the LPN may engage in a limited scope of intravenous fluid treatment. IV certified LPNs generally practice in long term care settings and some acute care. Salaries range from \$14.05-\$14.38. Please contact the Allied Health Office at Cloud County Community College for further information. (785)243-1435 Ext 372.

The logo for Cloud County Community College features the words "CLOUD COUNTY" in a bold, yellow, sans-serif font. Below this, the phrase "Start Here" is written in a black, cursive script font. The entire logo is set against a white background with a subtle drop shadow.

NURSING

The ADN program at Cloud County Community College prepares the graduates to practice as registered nurses upon successful completion of the National Council Licensure Examination (NCLEX-RN®). They are qualified to enter a professional position as a generalist in a variety of care settings with clients of all ages from diverse populations. Cloud County Community College nursing graduates are also prepared to continue studies at colleges or universities that offer bachelor's degrees in nursing. The Associate Degree Nursing program does not prepare persons for teaching positions. The generic program option is for students with no prior nursing license, with the ability and resources, whose career goal is registered nursing. The advanced standing program option is for LPNs, whose career goal is to become a registered nurse.

Upon completion, graduates are awarded an Associate in Applied Science degree and are eligible to take the licensure examination for registered nurses, NCLEX-RN®.

Degree Information

The Associate of Applied Science Degree in Nursing prepares graduates to take the RN licensure exam (NCLEX-RN) and to practice as Registered Nurses.

Recommended Course Sequence:

Generic Traditional Option

Certified Nursing Assistant (CNA) - current certification.

Prerequisite Courses SC126, SS101, SS105, MA110

First Semester: NR110, NR111, SC128

Second Semester: NR112, NR114, CM 101

Third Semester: NR211, NR115, CM115 or CM 240

Fourth Semester: NR 212, Humanities course

**All courses must be completed with a grade of C or better.*

Advanced Standing Option

Prerequisite Courses: CM101, MA110, SS101, SS105, SC126, SC128

LPN Program Portfolio - Transfer 19 cr

First Semester: NR210, NR211, NR115, CM115 or CM240

Second Semester: NR212, Humanities course

**All courses must be completed with a grade of C or better.*

Licensed as an LPN - May be a practical nursing student at the time of application but must be licensed prior to NR211 Lifespan Nursing III. Acceptance is provisional until Practical Nurse Licensure is confirmed.

NR courses are only offered on the Concordia Campus. Nonnursing courses are offered on the Concordia and Geary County Campuses, through Outreach at various locations and times, and on the Internet.

Additional Enrollment Requirements:

Physical Examination: The applicant must have satisfactory physical and mental health. A physical examination and health history are required after admission. It must be submitted by August 1. All immunizations and TB test must be current. Documentation of the influenza immunization will be required in the fall.

CPR certification: Applicants shall provide evidence of current CPR certification at the professional level through the American Heart Association by August 1.

Security Screening: A security screening will be completed prior to any clinical experience. Criminal conviction may jeopardize the ability to continue in the course and/or to obtain licensure.

Health Insurance: Students enrolled in the nursing program are required to carry health insurance as a clinical facility requirement. Proof of coverage must be on file in the nursing office. It is the student's responsibility to continue health insurance coverage throughout the nursing program.

Any health care cost incurred by the student is the responsibility of the student and is not the responsibility of CCCC or any of its clinical agencies. Students are **responsible for their own health care.**

Convictions or Disciplinary Action - Felony Crimes Against Persons are an automatic bar to Kansas nursing licensure as set by the Kansas legislature. It would require a law (statute) change by the Kansas legislature to allow licensure. Those actions are "as specified in article 34 of chapter 21 of the Kansas Statutes Annotated, prior to their repeal, or article 54 of chapter 21 of the Kansas Statutes annotated or K.S.A. 2015 Supp. 21-6104, 21-6325, 21-6326 or 21-6418, and amendments thereto." --Kansas Nurse Practice Act

Literacy Screening: Applicants must have completed General Psychology, Human Growth and Development, Intermediate Algebra and Anatomy and Physiology prior to enrollment in the NR courses. Students with English as a second language are required to take the TOEFL exam to validate proficiency of the English language. *If a student applicant has successfully completed CM101 English Composition I, a TOEFL score is not required.*

Approved by:

Kansas State Board of Nursing
Landon State Office Building
900 SW Jackson, Suite 1051
Topeka, KS 66612-1230
785-296-4929 ksbn.org

Accredited by:

Accrediting Commission for Education in Nursing (ACEN)
3343 Peachtree Road NE, Suite 500 Atlanta, GA 30326
404-975-5000, fax 404-975-5020

Student Organizations: Student Nurse Association

Nursing AAS/BSN Partnership: The Community College Nursing Partnership offers the comfort and convenience of staying at Cloud while pursuing both your Associate Degree in Nursing (ADN) and Bachelor of Science in Nursing (BSN). The program bypasses the traditional prelicensure associate degree nursing step. Instead this curriculum makes it possible for you to complete your ADN (AAS) and BSN through on-campus courses at Cloud and online courses through KU. After completing the program, eligible students are awarded both an ADN and a BSN, and are eligible to take the National Council Licensure Exam (NCLEX).

Gainful Employment: The salary for new graduates of ADN programs going to work in acute care in Kansas is approximately \$40,500 - \$65,000. Salary will vary by specialty and location. The Kansas Department of Health and Welfare, states that a serious nursing shortage exists in Kansas for Registered Nurses. Graduates from the nursing program are consistently employed at a nearly 100% rate. <http://www.kdheks.gov/ches/>

Transfer Institution Guide: A student who is interested in pursuing a baccalaureate degree should consult a CCCC advisor and the transfer guide and catalog of the four-year institution.

Craig Lamb, Department Chair
clamb@cloud.edu • 243.1435, ext. 717

Potential Careers

- Doctor
- Chiropractor
- Physicians Assistant
- Athletic Trainer

Pre-Professional Health is designed to prepare students for entry into professional schools. A human cadaver lab provides a hands-on study space for students to support classroom learning. The A.S. transfer program is a great starting point for students interested in continuing their studies at a professional school in medicine, dental, or therapy. The A.G.S. program is designed to prepare students to work in supporting roles in the health industry.

RENEWABLE ENERGY

Department Chair: Kit Thompson
kthompson@cloud.edu • 243.1435, ext. 256

Employment:
\$36,000-\$67,000

Recent graduates hired as:

- **Wind Farm Technician**
- **Substation Technician**
- **Blade Repair Technician**
- **Wind Farm Manager**
- **Solar Array Technician**

Renewable Energy is an essential component of a sustainable future. Certificates in wind, solar, substation, or unmanned aircraft vehicles can be completed in a year and form a foundation for two-year “go to work” technician programs. Stacking additional certificates to a two-year program allows students to broaden their training and experience which expands employment opportunities. The college energy park and working substation lab provide hands-on training opportunities for students. Students interested in pursuing a Bachelor’s degree should consider the A.S. program.

Degrees & Certificates

Blade Repair	16-hour certificate	Solar Energy	A.A.S 64 hours
Wind Energy Technology	16-hour certificate	sUAS (Drones)	A.A.S. 62 hours

Potential Careers:

- Environmental Scientist
- Wildlife/Field Biologist
- Doctor, Dentist, Chiropractor
- Brewmaster/Distiller
- Conservation Officer

Science builds and organizes knowledge in the form of testable explanations and predictions. Students can select an area of science based on interest: the study of life and living organisms; the origin, history and structure of the earth; properties, reactions, and the structure of matter; or matter and energy. There are some opportunities for employment after two years, many careers require a Bachelor of Science degree.

Students planning to complete a four-year degree should enroll in the A.S. program.

AGRICULTURE

*AG101 PLANT SCIENCE4

Is a transfer course designed to acquaint students with the botanical principles underlying plant growth, development and reproduction. Three hours lecture and one hour laboratory each week.

AG102 INTRODUCTION TO PLANT PEST CONTROL3

This course emphasizes the importance of pest control. Topics covered include the techniques of preventing damage to agriculture crops due to weeds, insects, diseases or nematodes, pesticide use, weed ecology, insects/entomology, and specific pest problems for individual crops.

AG103 PLANT AND SOILS FOR CROP PRODUCTION3

Covers the biological factors governing crop yield and the culture of major crops in the area.

*AG104 SOILS.....4

Covers fundamental principles underlying the formation, fertility and management of soils. Three hours lecture and one extended laboratory per week are required. Prerequisite: Chemistry 1 or General Chemistry.

AG105 RANGE MANAGEMENT 3

An in-depth look at the management of grazing resources including ecology, economics, burning, brush and weed control, grazing systems and complementary grazing crops.

AG106 SOIL CLASSIFICATION AND EVALUATION... 1

An exercise in classifying and evaluating soils according to criteria recognized by USDA soil scientists. Soils are evaluated for their usefulness for agriculture and engineering purposes.

*AG107 AGRONOMY IDENTIFICATION AND EXPERIMENTATION1

This course is designed to develop in students an ability to quickly and accurately identify plants by seed and vegetative characteristics and analyze seed samples for impurities. Students will prepare for national competition in agronomy.

AG108 ENVIRONMENTAL QUALITY 3

Is designed to acquaint land managers with the impact of various practices on such environmental parameters as groundwater, fish and wildlife, as well as to introduce methods of improving the environment on a local scale. Means of utilizing under-used natural resources in a profitable and ecologically sound manner will be stressed. Prerequisite: Chemistry I

*AG109 ENVIRONMENTAL QUALITY LAB.....1

Is designed to allow students to experience concepts discussed in Environmental Quality lecture class. One extended laboratory per week, with frequent field trips. Prerequisite: concurrent enrollment in Environmental Quality.

AG111 ANIMAL MANAGEMENT3

Animal Management helps to acquaint agricultural students with production aspects of the livestock industry. It introduces the basic concepts of inheritance, breeding systems, nutrition and physiology of reproduction; concepts of lactation, growth, health, and muscular work; and acquaints students with marketing procedures.

*AG112 AGRONOMY IDENTIFICATION AND EXPERIMENTATION II.....1

This course is designed to guide students to quickly and accurately identify crops and weed species (both plant and seed) identification, identify pests of crops including insects and diseases, and distinguish common farming implements. All of these aspects are directed toward competition in the year-end national contests.

AG114 DOMESTIC ANIMAL PRODUCTION1

Helps to acquaint agricultural students with the scope of the livestock, dairy, and poultry industries. It introduces the basic concepts of inheritance, breeding systems, nutrition and physiology of reproduction; concepts of lactation, growth, egg laying and muscular work; and acquaints students with marketing procedures, carcass and slaughter grades, principles of carcass grading and aids in the evaluation of live animals.

AG115 ANIMAL SCIENCE3

Helps to acquaint agricultural students with the scope of the livestock, dairy, and poultry industries. It introduces the basic concepts of inheritance, breeding systems, nutrition and physiology of reproduction; concepts of lactation, growth, egg laying and muscular work; and acquaints students with marketing procedures, carcass and slaughter grades, principles of carcass grading and aids in the evaluation of live animals.

AG116 PRINCIPLES OF FEEDING3

This course applies basic nutrition principles to the feeding of livestock, evaluation of feedstuff, and formulating rations through practical feeding problems. Special emphasis is given to anatomical and physiological differences as they affect the use of particular feedstuffs for each species while applying the theory of practical economy. This course combines lecture and lab.

AG118 PRINCIPLES OF LIVESTOCK SELECTION I.....2

This course will consist of the evaluation and appraisal of market livestock and their carcasses and breeding livestock based on visual appraisal and performance records in an effort to organize and justify comparative decisions by presenting oral reasons. This class is designed to make each student more adept at evaluating differences in animals of the same species.

AG119 PRINCIPLES OF LIVESTOCK SELECTION II1

This course will consist of the advanced evaluation and appraisal of market livestock and their carcasses and breeding livestock based on visual appraisal and performance records in an effort to organize and justify comparative decisions by presenting oral reasons. Prerequisite: Principles of Livestock Selection I.

Course Descriptions

***AG122 INTRODUCTION TO HORSEMANSHIP2**

Introduction to Horsemanship helps to acquaint students with basic concepts involved in working with horses. This class will stress safety when working with equines for both the human and the horse. Students will study horse psychology including inherited and learned behavior, methods of communicating, and training. This course includes hands on practice and observation.

AG123 BEEF SCIENCE3

Will cover techniques and management practices used in commercial and purebred cow-calf operations, as well as feeder cattle and feedlot operations. Field trips and hands-on practicums are an integral part of this course.

AG125 HORSE SCIENCE3

Horse Science is a study of the basic principles of animal agriculture specifically related to the equine industry. Prerequisite: Animal Science or consent of instructor.

***AG127 AGRICULTURE SCIENCE FOR AGRI-BIOTECHNOLOGY4**

This class is designed to provide students with a background in biotechnology laboratory techniques and practices in the context of plant and animal systems. Topics will include differences between prokaryotic and eukaryotic cells, differences between plant and animal cells, and basic plant biology. This class will demonstrate common laboratory equipment sequencing, isolation, and amplification (PCR).

AG128 ANIMAL HEALTH AND NUTRITION3

A study of the factors that influence animal health and proper nutrition. Typical species (cattle, swine, sheep and horses) in agriculture will be studied. Herd health methods along with up-to-date recommendations in animal nutrition will be provided. Prerequisite: AG115 Animal Science

***AG129 EQUINE GROUNDWORK TRAINING.....2**

Groundwork Training allows students with all equine interest levels and experience to learn the principles of working the horse's mind from the ground. It also provides handlers with a better understanding of and the importance of feel and timing when communicating during riding. This class will emphasize safety while teaching how to build a trusting and respectful relationship with horses. Lessons will consist of sensitizing the horse to move away from pressure and desensitizing the horse to help it relax while accepting applied pressure.

AG130 PRINCIPLES AGRICULTURAL ECONOMICS.....3

Is suggested for all students interested in the agricultural economy. A study of economic principles with emphasis on their application to the solution of farm, agribusiness and agricultural industry problems in relationship to other sectors of the U.S. economy and foreign countries.

AG132 AGRICULTURE MANAGEMENT....3

Relates specifically to management of farms and ranches. Course content will emphasize budget planning, record keeping, record analysis, ag finance/credit, taxes and machinery and land management. Management exercises simulating farm and ranch activities and decisions are incorporated. Microcomputers are used to aid in the completion of these management exercises.

AG134 AGRICULTURAL MARKETING .. 3

Provides an overview of marketing alternatives for agricultural commodities, primarily grains and livestock. Alternatives to be discussed will include cash sales and contracting, hedging, and options. Students will become familiar with marketing plans, basis, and the effect supply and demand has on the markets.

***AG139 FARM ANIMAL REPRODUCTION... 4**

Is designed to teach basic anatomy and physiology of reproduction in the domestic animal species. This course will include current reproductive management techniques to give students both a scientific and applied knowledge of livestock reproduction. Field trips and hands-on experience are an integral part of this course.

***AG147 LAB METHODS IN AGRI-BIOTECHNOLOGY4**

This class will teach students to perform skills necessary for employment in the biotechnology industry. Students will be introduced to techniques for preparing laboratory reagents and solutions including culture media and buffers, measuring, precision pipetting, preparing and running DNA and protein gel electrophoreses experiments, separating proteins using chromatography methods, examining and manipulating DNA including DNA fingerprinting, restriction enzyme digests, and PCR, and using math calculations to prepare solutions and calculate pH. Students will learn how to use Excel to create standard curves for estimating protein and DNA concentrations. A unit on basic statistical analysis will be included to support data collection, producing data via experiments, creating distributions, using scatter plots and correlations, and conducting tests of significance.

***AG150 INTRODUCTION TO HORTICULTURE.....4**

This course introduces the basic concepts and practices of horticulture with a survey of different aspects and careers of the horticulture industry. Students will develop professional skills in preparation for a career in the horticultural industry. This course combines three hours lecture and one and one-half hours of laboratory time.

AG155 COMPARATIVE AGRICULTURE... 1

This course is designed to expose students to leading producers, members, management practices, and philosophies of various agricultural industries at various locations. This is a travel-based course where students visit sites and meet with management and employees of various sectors at various locations of the industry.

Course Descriptions

AG157 EQUINE INDUSTRY MANAGEMENT.....3

Helps to acquaint equine management students with basic concepts involved in operating a day to day equine enterprise. This class will stress business issues and principles involved in an economically successful enterprise.

AG159 EQUINE EVALUATION..... 1

The study of evaluating form and function in the equine species. Aspects of evaluation will include physical form as in halter classes, as well as the functional aspect of performance classes in both Western and English disciplines. The preparation of oral reasons to organize and justify comparative decisions will be emphasized. The class is designed to make each student more adept at evaluating differences in animals of the same species and is strongly recommended for students wishing to be on the horse judging team.

***AG160 INTRODUCTION TO BIOTECHNOLOGY.....3**

Is designed to introduce and acquaint students with the use of biotechnology in agriculture today and its applications in the near future. The class will cover aspects in the areas of genetically modified organisms (GMOs), transgenic animals, cloning, and the bovine, ovine, and porcine genome projects, and genetic identification and screening of replacement animals. (Dual listed with science.)

***AG164 ADVANCED SOIL CLASSIFICATION AND EVALUATION 1**

An advanced exercise in classifying and evaluating soils, according to criteria recognized by USDA soil scientists including the fundamental chemical, physical, and biological properties of soils; their formation, fertility, and management. Soils are evaluated for their usefulness for agriculture and engineering purposes. Students will use techniques employed in writing descriptions of soil morphology and in classifying soils for intercollegiate soils judging.

AG165 EQUINE EVALUATION II 1

This course offers the continued study of evaluating form and function in equine species. Aspects of evaluation will include physical form as in halter classes, as well as the functional aspects of performance classes in both Western and English disciplines. The preparation and delivery of oral reasons to organize and justify comparative decisions will be emphasized. This class is required for students on the horse judging team. Prerequisite: Equine Evaluation

AG166 FUNDAMENTALS OF LIVESTOCK NUTRITION3

This course teaches the elementary principles of comparative nutrition in farm animals. Additional topics include the anatomy and physiology of the digestive system; the process of nutrition; the origin, chemistry and feeding value of different feeds; the nutritional requirements; and the theory of practical economy for the maintenance and growth of farm animals.

AG170 WILDLIFE MANAGEMENT3

Is designed to introduce students to scientific principles that will enable them to manage land in a manner that will enhance wildlife populations and to defend the proper use of science in wildlife management.

***AG188 VARSITY SPORTS: EQUESTRIAN/RODEO SKILLS...1**

Students will learn safe horse equitation and livestock handling and basic techniques of showing horses in English and/or western disciplines to compete at Intercollegiate Horse Association events and/or individual National Intercollegiate Rodeo Association events.

***AG189 VARSITY SPORTS: EQUESTRIAN/RODEO SKILLS II1**

Students practice safe horse equitation and livestock handling and learn advanced techniques of showing horses in English and/or western disciplines to compete at Intercollegiate Horse Association events and/or individual National Intercollegiate Rodeo Association events.

AG190 MARKETING THE EQUINE INDUSTRY.....3

This class is designed to expose students to advertising and marketing principles, as well as provide them with real life experience. The class will be involved in hands on projects in marketing and advertising. Students will sell advertising space, create ads, and publish marketing materials.

AG210 AGRICULTURE ADVERTISING AND DESIGN3

This course exposes students to advertising and marketing principles as they apply to hands-on projects. Students will use industry-adopted software to develop printed communication pieces to the point of being "printer ready". Assignments will integrate software functionality and design concepts with print production technology requirement.

AG212 AGRICULTURAL LAW.....2

Is a course that will introduce basic legal concepts that affect agriculture. This course is not designated to replace nor produce attorneys; rather, it should enable those in agriculture to prevent unnecessary legal entanglements and to determine when an attorney may need to be consulted. Two hours lecture/discussion per week, with frequent guest speakers.

AG217 FARM COMPUTER APPLICATION I.....3

Is designed for those with knowledge of Electronic Spreadsheets and Data Management and will involve setting up herd records for livestock operations, developing a ration formulation for actual herd records and developing machinery records and inventory.

AG220 COOPERATIVE EDUCATION INTERNSHIP.....1-6

See CA220

Course Descriptions

***AG224 COMPARATIVE AGRICULTURE II.....1-4**

This course is a continuation of AG155 Comparative Agriculture and is designed to expose students to leading producers, members, management practices, and philosophies of various agricultural industries at various locations. This is a travel-based course where students visit sites and meet with management and employees of various sectors at various locations of the industry.

***AG225 BASIC EQUITATION.....3**

This course assists students in advancing basic techniques involved in horseback riding. Safety, proper equipment use, and communication techniques will be emphasized. Students will be expected to increase their skills in performing basic maneuvers on horseback.

***AG226 ADVANCED EQUITATION.....3**

Designed to instruct students in how to achieve a higher level of performance with the equine athlete. The course will stress safety while riding, cues and circumstances, and achieving elevated levels of performance. The students will be expected to safely perform advanced maneuvers on horseback. Prerequisite: Basic Equitation or instructor approval.

***AG228 FOCUSED EQUITATION.....3**

Designed to allow equestrian students who have completed the series of riding classes to focus on a particular discipline such as western pleasure, trail hunter hack, jumping, reining, etc. This class will stress safety when working with equines, for both the human and horses. Horse psychology, learning, and training concepts will be introduced to the students. Prerequisite: completion of advanced equitation or instructor permission.

AG236 MOLECULAR BIOLOGY FOR AGRI-BIOTECHNOLOGY4

Molecular Biology engages the biotechnology student with investigations into the molecular and biochemical nature of cells. Study begins with the biochemical foundations of life and focuses on the central dogma of molecular biology (DNA replications, transcription, and translation). Students will build on techniques learned in previous courses and will gain increased proficiency with techniques involving the manipulation of DNA. Prerequisite: General Biology or Principles of Biology, General Chemistry or Chemistry I, Introduction to Biotechnology, Lab Methods in Agri-Biotech.

***AG237 INTEGRATED ORGANIC AND BIO-CHEM FOR AGRI-BIOTECHNOLOGY...5**

This course is designed for students in the Agri-Biotechnology program. It is an integrated organic and biochemistry course that emphasizes the practical aspects of organic chemistry and biochemistry necessary for the comprehension of biotechnical processes. Prerequisite: General Chemistry with a C or better.

***AG240 THE HORTICULTURE INDUSTRY.....3**

This course is designed to provide instruction and hands-on activities for the development of skills, competencies, and understanding needed for successful employment in the production, sales, and marketing aspects of the horticulture industry.

***AG241 COMMERCIAL PRODUCTIONS OF FRUITS & VEGETABLES3**

This course will cover the principles and practices of successful commercial fruit and vegetable production with an emphasis on environmentally friendly production techniques to maximize yield

and quality. Topics covered will include crop growth requirements and growth patterns, alternative production techniques, harvesting, and storage.

***AG250 INTRODUCTION TO GENETIC ENGINEERING4**

This course is designed to provide students with a background in Biotechnology laboratory techniques and practices. This class will demonstrate and teach common laboratory equipment and protocols involved with DNA restriction digestion and analysis, cloning, expression, sequencing, isolation, and amplification (PCR). The class will demonstrate the use of plasmids in cloning and express, along with RNA isolation, purification, and measurement by quantitative r-PCR. Prerequisites: General Biology or Principles of Biology, General Chemistry or Chemistry I, and Lab Methods in Agri-Biotech.

***AG255 PRECISION AG HARDWARE.....3**

Students will gain a basic knowledge of precision agriculture high tech equipment and management strategies.

***AG256 PRECISION AG SOFTWARE3**

This course will cover aspects of Global Positioning Systems (GPS), Geographic Information Systems (GIS), remote sensing, data acquisition, mapping, variable rate application, and the economics of precision agriculture software. Students will develop a fundamental understanding of precision agriculture software and how to effectively use data to create prescriptions.

***AG257 PRECISION AG MACHINE DATA MANAGEMENT3**

Students will learn how to collect, manage, and retrieve financial, physical, and spatial data from farm operations to support a farm's decision-making and reporting processes. This course will emphasize the use of financial, statistical and logical spreadsheet functions, GIS systems, record-keeping for fertilizer and pesticide usage and regulation, and specialized software applications, including integration of information from various sources and packages.

AG299 CDL: MAPS, LOG BOOKS, AND D.O.T. REGULATIONS.....1

This course is Phase I of the CDL and will provide the information necessary for the student to successfully take the CDL general knowledge, combination vehicle and air brake written tests. Upon passing these tests, which are administered by the State of Kansas, you will receive your CDP (Commercial Driving Permit) which allows the student to drive with the instructor.

AG300 COMMERCIAL DRIVER'S LICENSE...1

This course is the beginning part of Phase 2 of the CDL and continues with class room training along with placing the student in the driver's seat of a tractor/trailer combination vehicle with air brakes preparing for the three part Driving Skills Examination. Topics covered will include: pre-trip inspections, basic vehicle control skills (Closed Course) and on-road driving. Must be taken concurrently with AG301.

Course Descriptions

AG301 TRUCK AND TRACTOR TRAILER VEHICLE INSPECTION AND MAINTENANCE1

This course is the second part of Phase 2 and is designed to guide students to quickly and accurately read a commercial atlas and plan trips in accordance with D.O.T. rules and regulations. Students will learn hours of service regulations, how to maintain log books, and other record-keeping requirements. Other D.O.T. rules and regulations will be discussed with emphasis on recent changes. Must be taken concurrently with AG300.

AG302 IN CITY COMMERCIAL DRIVER'S LICENSE DRIVING.....1

Is designed to give simulated practice of driving in city situations. Done in a parking lot, the students will practice right and left turns, backing, and backing into a dock or elevator. A portion of the practice will be done after dark to practice in low light situations.

* A lab fee will be assessed for these courses.

ALLIED HEALTH

AH099 MEDICATION AIDE UPDATE 1

Will cover basic principles and skills essential for the administration, care and handling of medications which are for oral ingestion and for external application. Current topics such as biological effects of the geriatric patient, over medication, legal aspects, regulations, new drug classifications and reactions will be covered. Not applicable to any degree.

AH101 SPECIAL TOPICS IN HEALTH CARE 1

Has been developed to acquaint mental health, educators, child care and health care professionals with significant family issues of the day. It is broken into four separate, yet interrelated sessions. Upon completing this seminar, participants will have the understanding to provide meaningful intervention in each of these problematic family components.

AH104 PAID NUTRITION ASSISTANT ... 1/2

Will provide training for individuals who are paid to feed residents of an adult care home following state guidelines and regulations.

AH109 INTRODUCTION TO HEALTHCARE PROFESSIONS..... 3

This course is designed to introduce the student to the variety of career occupations in the healthcare profession. The student will learn specific roles and responsibilities of different healthcare professions, explore the legal and ethical issues associated with the United States' healthcare system, understand the importance of confidentiality and patient documentation, and participate in clinical shadowing experiences with area healthcare providers.

AH110 HEALTH UNIT COORDINATOR.. 4

This course is designed to prepare the health unit coordinator student to facilitate the activities of people in a health unit to work together smoothly and harmoniously in a common action, which is the delivery of health care to patients. Students will learn management of information, communication, medical terminology, critical thinking and cultural diversity. Students will learn to transcribe physician orders. Students with skills in health unit coordinating will be prepared to work in a variety of health care settings.

SOCIOLOGICAL GERONTOLOGY MODULES

AH151 ACTIVITIES PROGRAMS IN THE NURSING HOME..... 2

Assists the Nursing Home Administrators in defining the role of the Activities Director and the component parts of coordinating that program with the total restorative services provided to the resident.

AH153 THE SOCIAL SERVICES DESIGNEE ROLE IN THE ADULT CARE FACILITY.....2

Is an introductory course covering the role of the Social Service Designee in the Adult Care Facility.

AH157 INTRODUCTION TO THE HELPING ROLE IN THE LONG TERM CARE FACILITY.....1

Presents historical and current perspectives of the "helping" concept, especially in the field of Long Term Care and Adult Care Home settings. Through lecture, discussion and role playing, based upon written and audio-visual materials, participants have an opportunity to learn about the helping component of social services and recreational programming. Participants will also learn specific tasks they must perform in order to meet more effectively the needs of residents and families. Both theoretical and practical aspects of helping are presented, with specific application to those skills the SSD and AD require for effective functioning as a helper.

AH160 ADULT CARE HOME OPERATOR COURSE 2

This course will prepare the student to be an operator of assisted facilities, residential health care facilities, home plus or adult day care facilities. After successful completion of the course, the student is eligible to take the state exam prepared by Kansas Department of Health and Environment on the principles of assisted living.

AH163 EMERGENCY MEDICAL TECHNICIAN.....10

Is the emergency medical technician initial course of instruction required for persons involved in providing emergency care? It will include care of the patient prior to transport, control of the accident scene, preparation for transport, transport and care of the patient while en route to the hospital, transfer of a patient to a hospital emergency department, communications, reporting, record keeping, and vehicle care. It will provide the participant with the preparation

Course Descriptions

necessary for testing for certification and practice as an Emergency Medical Technician in the State of Kansas. This Emergency Medical Technician course meets the requirements of the Kansas Board of Emergency Medical Services as set forth in the Kansas Administrative Regulations.

AH171 EMERGENCY MEDICAL TECHNICIAN - INTERMEDIATE7

The Emergency Medical Technology program is based on the National Registry Emergency Medical Technician - Intermediate curriculum. It provides training in anatomy and physiology, medical terminology, emergency and assessment of patient conditions, emergency treatment protocol, and legal and ethical standards established for emergency medical care. The Emergency Medical Technology program is intended to produce graduates who are prepared and eligible to take the Kansas Registry EMT-Intermediate certificate examination. Graduates will be competent in the basic skills necessary to assess and treat both pre-hospital medical and traumatic injuries. A variety of clinical and lab experiences are planned to integrate theory and practice. Prerequisite: EMT or EMT-Basic certification. Must be AHA Health Care Provider CPR certified.

AH178 PHARMACY TECHNICIAN LICENSING PREP10

This course offers a comprehensive introduction to the knowledge and skills pharmacy technicians need for successful practice. Key areas of concentration include the role of the pharmacy technician in the pharmacy setting, an overview of medications used to treat specific body systems, a breakdown of the different classifications of drugs, and a review of the basic sciences at the core of pharmacy practice. It also offers helpful PTCB examination review, as well as information on career opportunities for pharmacy technicians with advice on getting a job and advancing in the profession.

AH181 BASIC LIFE SUPPORT1

This course is designed to provide healthcare providers with an overview of the cardiovascular and respiratory systems, a discussion of medical and environmental emergencies leading to the need for CPR, and an introduction to diagnose signs and triage, as well as insight into the structure and function of the emergency medical services system. Participants will be trained to : (1) know how to perform CPR in both in-and-out-of-hospital settings; (2) promptly recognize cardiac arrest; (3) give high-quality chest compressions; (4) deliver appropriate ventilations; (5) provide early use of an automated external defibrillator (AED), as part of a team and individually; and, (6) recognize and relieve choking. Adult, child, and infant rescue techniques will be covered. Upon successful completion of all American Heart Association standards, the student will receive affirmation at the Healthcare Provider level.

AH182 ADVANCED CARDIOVASCULAR LIFE SUPPORT.....1

The Advanced Cardiovascular Life Support (ACLS) Provider Course is designed for healthcare providers who either direct or participate in the management of cardiopulmonary arrest or other

cardiovascular emergencies with the goal of improving outcomes for adult patients with cardiac arrest and other cardiopulmonary emergencies through provider training. Through didactic instruction and active participation in simulated cases, the students will enhance their skills and clinical decision-making abilities for the diagnosis and treatment of cardiopulmonary arrest, acute arrhythmia, stroke, and acute coronary syndromes. Students are taught to use the following important concepts: Basic Life Support (BLS) Survey, high-quality cardiopulmonary resuscitation (CPR); ACLS Survey; ACLS algorithms; effective resuscitation team dynamics; and immediate post-cardiac arrest care. Prerequisite: AH181 Basic Life Support.

AH184 EMT TRANSITION..... 2

This course is designed to bridge existing Kansas certified emergency medical technicians to the new scope of practice as approved by Kansas for emergency medical technicians. The course is built and delivered on the foundation of existing knowledge for the Kansas emergency medical technician. Successful completion of this course is required in order to bridge to the new level of certification as defined by the Kansas EMS scope of practice.

AH190 ADVANCED EMT 13

The AEMT I course is the first in a two-course sequence: AEMT I and AEMT II. This course is designed for individuals interested in providing Advanced Emergency Medical Technician (AEMT) level care in the pre-hospital setting. The program will provide the participant with opportunities to gain information and skills necessary for certification and practice as an AEMT in Kansas, which includes intravenous therapy and medication administration. The National Registry of Emergency Medical Technicians (NREMT) and the Kansas Board of Emergency Medical Services have approved the curriculum for this certification, which addresses information and techniques currently considered the responsibility of the AEMT according to Kansas Education Standards. The program consists of didactic (lecture) instruction and practical skills training. Prerequisite: current EMT certification; and must be CPR/AED certified by the American Heart Association at the Health Care Provider level.

AH191 ADVANCED EMT II..... 15

The AEMT II course is the second in a two-course sequence: AEMT I and AEMT II. This course is designed for individuals interested in providing Advanced Emergency Medical Technician (AEMT) level care in the pre-hospital setting. The program will provide the participant with opportunities to gain information and skills necessary for certification and practice as an AEMT in Kansas, which includes intravenous therapy and medication administration. The National Registry of Emergency Medical Technicians (NREMT) and the Kansas Board of Emergency Medical Services have approved the curriculum for this certification, which addresses information and techniques currently considered the responsibility of the AEMT according to Kansas Education Standards. The program consists of didactic (lecture) instruction, practical skills training, clinical experience

Course Descriptions

in a hospital setting, and field experience with a mobile intensive care unit. Prerequisite: current EMT certification; must be CPR/AED certified by the American Heart Association at the Health Care Provider level; must have completed AEMT I with a C or better.

AH197 CERTIFIED NURSE AIDE5

Upon successful completion of the 90 Hour Certified Nurse Aide course, the student must take a state exam. Successfully passing the exam will result in the receipt of a C.N.A. license from the State of Kansas. Course delivery methods may be completed by face-to-face classroom sessions, (45 hours of classroom/45 hours of clinical), or hybrid. The hybrid delivery method requires the student to complete 45 hours classroom instruction via online and 45 hours clinical per the Kansas Department for Aging and Disability Services. The 90 Contact Hour Certified Nurse Aide Curriculum and Guidelines are fully implemented. (K.A.R. 26-50-10). This course is considered a Stand Alone Program and is not applicable to the Associate of General Studies

AH198 MEDICATION AIDE.....5

Upon successful completion of the Certified Medication Aide course, the student must take a state exam. Successful passing of the state exam will result in the receipt of a Certified Medication Aide license from the State of Kansas. Course delivery methods may be completed by face-to-face classroom sessions, (50 hours of classroom/25 hours of clinical), or hybrid. The hybrid delivery method requires the student to complete 50 hours of instruction via online and 25 hours of clinical per the Kansas Department for Aging and Disability Services. The 75 Contact Hour Certified Medication Aide Curriculum and Guidelines are followed. For authorizing statute for Certified Medication Aides in the KS Nurse Practice Act, See: K.S.A. 65-1124 (1) at (www.ksbn.org). This course is considered a Stand Alone Program and available only to Certified Nurse Aides and is not applicable to the Associate of General Studies

AH207 CERTIFIED NURSE AIDE REFRESHER..... 1

The C.N.A. in Kansas is required to work at least eight hours every two years for the C.N.A. license to remain active. The C.N.A. Refresher Course is designed to offer inactive C.N.A.'s an opportunity to refresh their skills and obtain current information concerning the care of the elderly in long-term care. Students will discuss the nurse aide's responsibility in the current health care system and the importance of residence rights. The students will demonstrate safety measures, infection control procedures, personal care skills, measurement of vital signs, transfers, positioning, and turning. Students enrolled in the refresher course must show proof of certification as a Kansas C.N.A. by providing a copy of their card prior to the first class session. Upon completion of this course, the status of C.N.A. becomes "active" and the individual has the opportunity to work as a C.N.A. again.

AH211 INTRAVENOUS THERAPY FOR LPN'S..... 3

Prepares licensed practical nurses to perform activities as defined in K.A.R. 60-16-102, and according to rules and regulations set forth by the Kansas State Board of Nursing.

AH310 HOME HEALTH AIDE 2

Is designed to prepare participants to become Certified Home Health Aides in Kansas utilizing the Kansas Department for Aging and Disability Services curriculum and guidelines.

AH400 ICD9CM CODING 3

Is used for classification of diagnosis and procedures in the hospital, physician clinics, long-term care facilities, home health agencies, insurance companies, and other medical service providers. This course is a basic beginners coding course.

AH401 ICD9CM ADVANCED CODING..... 3

Is designed for students who need advanced training on ICD9CM coding procedures.

AH402 CPT-HCPCS AMBULATORY CODING.....3

Is designed to train out-patient facility staff (i.e. home health agencies, physician offices) ICD9CM diagnostic coding and CPT/ HCPCS procedural coding for reimbursement purposes.

CRIMINAL JUSTICE

AJ100 INTRODUCTION TO CRIMINAL JUSTICE3

This course provides an introduction to the historical development and the internal and external issues of the various components of the criminal justice system including police, corrections, and the courts. The student will illustrate how these interrelated components result in the administration of justice today.

AJ104 FUNDAMENTALS OF PRIVATE SECURITY..... 3

The course presents the latest in security issues from security equipment and design theory to security management practice. Homeland Security in the United States; terrorism as it relates to: cargo and travel security, potential areas of attack and target hardening techniques; and the use of current technologies to combat new threats are discussed. Changing roles of traditional physical and guard security are examined in light of the advances in the electronic and computer security. Areas such as biometric security, access control, CCTV surveillance advances, as well as the growing computer security issues of identity theft and computer fraud are covered.

AJ112 SPECIAL TOPICS IN CRIMINAL JUSTICE.....3

An organized course offering the opportunity for intensive examination of specialized topics in criminal justice not normally or not often available as part of regular course offerings. Course involves lectures, readings and classroom discussion of selected topics. Special topics may be repeated for credit when topics vary. Specific topic will be indicated when offered.

AJ114 COMMUNITY POLICING 3

This course is an introduction to law enforcement in the United States, focusing on many contradictions and paradoxes that American policing presents. This course will focus on the

Course Descriptions

development of police from the mid-19th century to the present, the varied roles of police, field behavior, organization and management, and contemporary issues facing police departments today.

AJ117 CONSTITUTIONAL LAW 3

Will introduce the student to the U.S. Constitution and its impact upon the criminal justice system. The course will preview the Articles that establish the formation of the federal government and the balance of power. It will also preview the Amendments to the U.S. Constitution and their impact upon society. It will examine the decisions of the U.S. Supreme Court and the impact of those decisions on our legal system.

AJ121 INTRODUCTION TO PUBLIC ADMINISTRATION 3

Examines the organization and administrative activities of government in carrying out public policy. Students will study the basics of public policy management, administrative functions, organization, accountability, finance, and personnel issues as they arise in a government or other public institution.

AJ140 VICTIMOLOGY 3

Criminal justice professionals, regardless of their specific role, will always come in contact with victims of crime. This course will introduce the crime victim as part of our larger society and as part of the criminal and civil justice system. Students will develop an understanding of the role of victimology as a social science; the psychological impact of crime on the victim; the victim's role in the criminal justice and civil system; the financial impact of the crime on the victim; the victim's rights in the criminal justice system and in society; and the future of criminal justice and social policy as they relate to victims. The course will examine specific areas of victimization such as: sexual assault, domestic violence, child maltreatment, elder abuse and homicide.

AJ145 AGENCY ADMINISTRATION 3

This course conducts a practical analysis of modern administration theory and supervisory, management principles and their application to the unique operating problems of criminal justice organizations.

AJ150 LAW OFFICE MANAGEMENT 3

Examines the management of a modern law office with an emphasis on management principles, legal structure, filing and record keeping, attorney-client relationship, billing systems and procedures. This course also explores accepted methods of accounting, inventory control, marketing, and personnel management as it relates to the law office. A special section has been added to address the issues associated with law office technology.

AJ151 INTRODUCTION TO LAW 3

Introduces students to the American Legal System and its many components. The course examines the civil, criminal, and administrative systems as well as explores the different jobs and participants in the system. Students learn about the structure of the courts, the methods for making law, and the acceptable means for prosecuting and defending a civil and criminal action.

AJ154 LEGAL OFFICE VOCABULARY...2

Is designed to give students a working vocabulary of legal terms necessary for office success. The material is divided into modules, with content introduced at a basic level, progressing, by specialization, to more difficult matters. (Dual listed with Business)

AJ158 LEGAL RESEARCH AND WRITING I.....3

Introduces the student to the methods of legal research used in the modern law office. Students focus on the use of traditional hard cover and pamphlet resource materials with additional work focusing on the expanding electronic medium including the Internet. Students will also explore the principles of technical writing as well as the particular styles of writing used in the legal profession.

AJ200 LAW ENFORCEMENT OPERATIONS AND PROCEDURES.....3

This course examines the role of police in society and the application of key concepts to policing scenarios. Students identify, discuss and assess critical police practices and processes to include deployment, arrest procedures, search strategies, and other operational considerations.

AJ205 CRIMINOLOGY 3

Is designed to introduce the student to the study of the origin and nature of the development of law and its impact on the behavior of society. It is a study of the conditions which might lead a person to act in ways which are deemed to be "incorrect or deviant behavior" by the society in which they are a part of. It also attempts to define the terms of, and then measure, deviant behavior through the analysis of available research information.

AJ206 CRIMINAL LAW 3

The course examines the history, scope and nature of law. It focuses on the parties to a crime; classification of offenses; criminal acts and intent; the capacity to commit crime; and criminal defenses. It will cover the elements of misdemeanor and felony crimes.

AJ207 CRIMINAL PROCEDURES.....3

This course introduces basic court system procedures and the jurisdiction of the courts. It also focuses on the constitutional and other legal requirements that affect law enforcement practices and procedures. Specific topics include confessions and interrogations, identification procedures, arrest, search and seizure, and admissibility of evidence.

AJ209 JUVENILE DELINQUENCY AND JUSTICE..... 3

This course examines the historical precedents and philosophical reasons for treating juveniles differently from adults. It reviews empirical evidence about child development that can illuminate the reasons for their special status within the system. It will study the major theories that have been proposed as explanations of delinquent behavior. The course will also provide a detailed overview of the juvenile justice system, from its beginnings to the current state of the institution.

Course Descriptions

***AJ210 CRIMINAL INVESTIGATION3**

This course explores issues including the effective interview and interrogation techniques, crime scene management and lab processes, crime scene documentation methods, case preparation and court presentation.

AJ211 CRIMINAL JUSTICE INTERVIEW AND REPORT WRITING 3

This course focuses on the unique types of writing required in a criminal justice career. Students are required to gather pertinent information and then record that information by writing a variety of report narratives representative of those prepared by individuals working in a profession within the criminal justice system.

AJ212 CRISIS INTERVENTION.....3

This course is an overview of crisis intervention for criminal justice personnel focusing on an understanding of the immediate needs of a person in crisis and on crisis intervention techniques in various situations. This course is intended to familiarize the student with the strategies involved in crisis intervention work and the wide range of issues addressed. The strategies of crisis intervention will be discussed in their own right and within the context of such areas as: suicide and personal loss/bereavement as well as other crisis of lethality; post-traumatic stress disorder and the catastrophic events that are related including a focus on children and PTSD, and sexual assault and domestic violence (including both adult and child victims and the perpetrators of these crimes) as well as the current issue of school-based violence and recent information pertaining to disaster events. Perspectives that relate specifically to special populations and crisis work, including persons with substance disorders, and topics related to the impact (hazards and rewards) of crisis intervention on the criminal justice intervener.

AJ220 COOPERATIVE EDUCATION INTERNSHIP 1-6

See CA220

AJ221 COMPUTER AND HIGH TECHNOLOGY CRIMES 3

This course will examine those crimes which involve the use of computers as well as those perpetrated against computers. Topics will include the various state, federal and international laws, investigative measures and techniques, and preventive measures utilized to provide a secure environment for computer hardware and software. The course will also examine developing trends in cybercrime and cyber law.

AJ225 ETHICS IN CRIMINAL JUSTICE... 3

This course explores the major components involved in the study of ethics, particularly as it applies to the field of criminal justice. Focus is placed on the code of conduct and ethics of the criminal justice profession and the standards held to in their professional role. The aim of the course is to produce professionals who are not only critical thinkers, but who have the skills necessary to pursue sound ethics in their day-to-day decisions and activities.

AJ230 CRIME PREVENTION3

This course is designed to introduce the student to several environmental settings, including major event facilities, small retail establishments, downtown streets, residential areas, and playgrounds. The concepts presented in this book explain the link between design and human behavior. Understanding this link can enable a planner to use natural environmental factors to minimize loss and crime and to maximize productivity. Explanations of criminal behavior and the historical aspects of design teach both the novice and the expert in crime prevention how to use the environment to affect human behavior in a positive manner.

AJ251 CRIME SCENE INVESTIGATIONS.....4

This course is designed to provide students with the basic theoretical and philosophical understanding of the investigatory process. This course will examine techniques and methods of crime scene investigation such as: fundamentals of preliminary investigations, identification, collection of evidence, and fingerprinting. This course will provide students with a general introduction to the mechanics of crime scene investigation and its role in the criminal justice process.

AJ299 CAPSTONE IN CRIMINAL JUSTICE.....3

This course is the culmination of the criminal justice student's academic experience. It serves to synthesize the knowledge gained from each course taken within the criminal justice curriculum and better prepare the graduate to continue on to upper-division studies in the discipline or for entry-level career positions in the criminal justice system. Prerequisite: Introduction to Criminal Justice.

ART

AR100➤ ART APPRECIATION 3

Art Appreciation is a basic level course. The course is a study and appreciation of art and its development through the various periods and movements of man's existence. The course brings the student to a better understanding of art today, its past influences and its current significance.

***AR110 CERAMICS I + 3**

Ceramics I is a beginning course covering the various techniques and forms of creating a ceramic piece, both hand built and thrown. It includes exploration of glazing and decorative techniques, but the emphasis is on bringing one's own personal concepts to the form and craftsmanship. The four and one-half hour per week class is considered both lecture and lab.

***AR111 CERAMICS II + 3**

Ceramics II is a continuation of Ceramics I with greater emphasis on student experimentation and development of individual style. The four and one-half hour per week class is considered both lecture and lab.

Course Descriptions

***AR112 CERAMICS III +3**

Ceramics III is a continuation of Ceramics II with greater emphasis on student experimentation and development of individual style. The four and one-half hour per week class is considered both lecture and lab.

***AR120 ▸ DESIGN I +3**

Design I is a basic level course. This course introduces the basic concepts of design essential to working in the field of graphic design or visual communications. This class is beneficial to students in art, architecture, education, child care and interior design. It is structured around the basic organization of visual communication. The students will have hands on experience dealing with the elements and principles of design and will work with two-dimensional organization on both manual and computer-aided design projects. The four and one-half hour per week class is considered both lecture and lab.

***AR121 GRAPHIC DESIGN I +3**

In Graphic Design I, students will explore the creation and manipulation of visual content using basic design concepts and industry standard computer software. Students will learn to generate hardcopy output using laser and photo quality ink-jet printers. Students will become familiar with the latest practices in the field. Extensive hands-on work with the computer will enable the student to extend their design skills and computer software expertise. The four and one-half hour per week class is considered both lecture and lab. Prerequisite: Graphic Software Applications and Design I or Two-Dimensional Design, or with instructor permission.

***AR122 GRAPHIC DESIGN II +3**

Graphic Design II allows the student visual designer and artist to work with computer hardware and software fundamental for the visual designer and artist. It provides the basic knowledge necessary to operate Macintosh computers and to use software applications in design projects related to product and promotional purposes. This course integrates the graphic design process with the computer's capabilities. The student learns to take a sketch idea and develop it through digital thumbnails, laser proofs, and color output comprehensives as well as the creation and implementation of multimedia and web content. The four and one-half hour per week class is considered both lecture and lab. Prerequisite: Graphic Software Applications, Design I or Two-Dimensional Design, and Graphic Design I, or with instructor approval.

***AR126 TWO-DIMENSIONAL ILLUSTRATION + 3**

Two-Dimensional Illustration is an introductory drawing course where students will work on techniques of perception and graphic composition using a variety of art materials. This is a hands-on class and begins with basic skills in perception and development of technique with various subject matter and drawing medias. The four and one-half hour class is considered both lecture and lab.

***AR129 INTRODUCTION TO DIGITAL PHOTOGRAPHY + 3**

Introduction to Digital Photography is a course of study to develop an understanding of basic photographic techniques and computer assisted image manipulation. This course will include, but not limited to, the following topics; basic camera functions, basic digital image processing, visualization and design skills, and digital manipulation techniques needed in today's market place. Students will have opportunities to create portfolio pieces. The four and one-half hour class is considered both lecture and lab.

***AR130 ▸ DRAWING I +3**

Drawing I is an introductory drawing course for the student with limited art background. Students work on techniques of perception and graphic composition, using a variety of art materials. This is a hands-on class and begins with basic skills in perception and development of technique with various subject matter and drawing medias. The four and one-half hour class is considered both lecture and lab.

***AR131 DRAWING II +3**

Drawing II is a continuation of the Drawing I course. Students will continue to work on techniques of perception and graphic composition, as well as working with a variety of art materials. This is a hands-on class that will help the students enhance their personal vision and style by increasing their knowledge of perception and technique development with various subject matter and drawing medias. The four and one-half hour class is considered both lecture and lab.

***AR140 PAINTING I + 3**

Painting I is an introductory painting course with a concentration on painting techniques and color mixing. Emphasis is placed on individual creativity and experimentation. This is a hands-on class and covers the fundamentals of painting, from color theory, techniques of color application, color modeling and surface separation and definition. The four and one-half hour class is considered both lecture and lab.

***AR141 PAINTING II + 3**

Painting II is a continuation of Painting I focusing on individual experimentation in traditional, contemporary, and experimental techniques. The four and one-half hour class is considered both lecture and lab.

***AR145 WATERCOLOR + 3**

Watercolor is a hands-on class dealing with water-based paint media. The student will explore the many uses and applications of this media. The associations of color in illustration will be applied through various media techniques to master balance through contrast, property of light, shadows, simultaneous contrast and tints. The applications will be achieved through the use of color theory, color themes and the various painting techniques associated with watercolor. The four and one-half hour per week class is considered both lecture and lab.

Course Descriptions

***AR171 ▸ THREE-DIMENSIONAL DESIGN.....3**

Three-Dimensional Design is a basic level course beneficial to students in fine arts, commercial art, architecture, education, child care and interior design. It is structured around the basic organization of visual communication. The students will have hands on experiences dealing with the elements and principles of three-dimensional design and will have opportunities to create portfolio pieces. The four and one-half hour class is considered both lecture and lab.

**AR220 COOPERATIVE EDUCATION
INTERNSHIP 1-6**

See CA220

* A lab fee will be assessed for these courses.

+ These courses are considered lab courses.

BUSINESS

BE100 ▸ INTRODUCTION TO BUSINESS..... 3

This course is an introduction to a broad range of terminology and topics useful to business management. Terminology necessary to understand business literature is emphasized. The course will provide an overall picture of business operations, as we cover different types of economic systems, global trade, business entrepreneurship, e-business, managerial decision-making, techniques for increasing employee motivation, packing, pricing & distributing products, the relationship between management and unions, business ethics, and much more. This course is designed to develop student responsibility for learning, thinking, and questioning while using business as the model.

BE115 BUSINESS MATHEMATICS.....3

Is a course starting with the basic math concepts and moving to more complex mathematical concepts. The course will not only deal with theory but will concentrate on applications of using those concepts in solving problems dealing with personal finance, business finance, and business analysis.

BE121 BUSINESS COMMUNICATIONS3

Provides instruction on the role of communication in the business environment and identifies the most effective methods for creating, sending, and receiving messages. In addition, students should be able to utilize effective oral and written communication skills in business; write and evaluate business documents, including letters, memos, and reports using the principles of correct style, organization and format; and prepare an effective oral business presentation.

BE122 ▸ MEDICAL OFFICE VOCABULARY....2

This course presents a study of basic medical terminology. Prefixes, suffixes, word roots, combining forms, special endings,

plural forms, abbreviations, and symbols are included in the content. A programmed learning, word building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation.

BE124 LEGAL OFFICE VOCABULARY .. 2

Is designed to give students a working vocabulary of legal terms necessary for office success. The material is divided into modules, with content introduced at a basic level, progressing, by specialization, to more difficult matters. (Dual listed with Administration of Justice)

BE139 BASIC PERSONAL FINANCE 1

This course focuses on basic skills in personal financial management with an emphasis on basic money management including budgeting, controlling debt, bank accounts, borrowing, credit cards, investments, and retirement. Practical knowledge and application of these areas are stressed.

BE152 SALESMANSHIP3

The student will be provided examples of selling in a global environment, information about the technology available to every salesperson, and most importantly, the ABC's (the fundamentals) of relationship selling. The course is a vehicle by which the student is given ample materials to construct his/her own sales presentation. Covering the basic foundations for understanding the concepts and practices of selling in a practical, straight-forward, and effective manner, the course provides the student a guide to use in preparing sales presentations and role-playing exercises.

BE153 ▸ PERSONAL FINANCE 3

A personal financial management course that emphasizes time value of money, budgeting, borrowing, taxes, insurance, consumer credit, risk management, investments, retirement, and estate planning. Practical knowledge and application of these areas are stressed.

BE154 BUSINESS LAW 3

Few subjects are as dramatic and challenging as the law. Because laws grow from human conflict, lawsuits are often emotional, complex, and costly. Despite these costs, more and more business and personal disputes are being settled in court every day. Ours is a "litigious society." Knowing more about the law can help students avoid legal conflicts in their professional and personal lives. If they cannot resolve a dispute, a background in the law will help them preserve their rights.

BE155 MARKETING3

Is essential to the operation of any business firm or public service organization. The successful enterprise in today's changing and competitive world is increasingly characterized by its understanding of the many facets of marketing and by its ability to deliver goods and services to the market more efficiently than its competitors. This course is designed to introduce students to the basic concepts, practices, and techniques of marketing.

Course Descriptions

BE160 BUSINESS ACCOUNTING.....3

Students receive instruction in the fundamentals of accounting from recording business transactions including financial statement preparation. Emphasis is on the fundamentals of double entry accounting and the basic accounting cycle for service and merchandising enterprises.

BE161 ACCOUNTING I 3

An introduction to the financial accounting fundamentals. This course focuses on analyzing transactions, the use of various journals and ledgers, measuring the value of assets and liabilities, calculation of the different methods of depreciation, preparation of financial statement as per U.S. GAAP along with an introduction of IFRS for service and merchandising enterprises.

BE162 ACCOUNTING II..... 3

A continuation of BE161 Accounting I with greater emphasis placed on the interpretation and use of accounting data. The course focuses on accounts, records, and financial statements specific to partnerships, corporations, and manufacturing companies. Fair Value is used where applicable. Managerial Accounting is introduced in this course. Prerequisite: Accounting I with grade of C or higher.

BE163 FINANCIAL ACCOUNTING..... 4

A comprehensive introduction of financial accounting fundamentals. This course focuses on the accounting cycle, preparation and analysis of financial statements as per U.S. GAAP, the valuation of assets and liabilities, an introduction of fair value accounting, an introduction of IFRS, and the quality of business decisions in an ethical context.

BE164 MANAGERIAL ACCOUNTING.... 3

An introduction of managerial accounting fundamentals. This course focuses on applying the management accounting techniques of planning and controlling operations including: master and capital budgets, variance analysis, cost-volume-profit analysis, cost allocation, and evaluating the ethical dimensions of managerial accounting. Pre-requisite: Final grade of a C or better in BE162 Accounting II or BE163 Financial Accounting.

BE165 COMPUTERIZED ACCOUNTING ..3

Provides a hands-on approach to learning how computerized integrated accounting systems function. Provided is an overview for using the software QuickBooks Pro and developing the process for recording transactions involving sales, receivables, purchases, payables, general accounting, end-of-period procedures, payroll, and computerization of a manual accounting system. Prerequisite: High School Accounting, Business Accounting, or higher.

BE166 PAYROLL ACCOUNTING 3

An in-depth look at the many aspects of preparing, distributing, and recording payroll. Included in this course are issues regarding reporting, deductions, Federal forms, deposits, regulations,

and government laws related to payroll. Prerequisite: High School Accounting, Business Accounting or higher (may be enrolled currently).

BE170 BUSINESS STATISTICS..... 3

Is an introduction to descriptive and inferential statistics. Included are the uses of measures of central tendency and dispersion, probability, estimation and hypothesis testing, analysis of variance, and correlation. Recommended Prerequisite: High school algebra, Intermediate Algebra, or Survey of Math with a C or better or appropriate Accuplacer/ACT score.

BE172 CUSTOMER SERVICE..... 3

This course provides how-to topics for the customer service professional and includes the concepts and skills needed for success in business careers, including listening techniques, verbal and nonverbal communication, and use of technology. The course will focus on the needs and requirements of internal and external customers, the enhancement of customer relationships, the significance of market research with respect to the customer, the design and redesign of customer service strategies, and differentiate between internal and external customers in a service and manufacturing organization. Emphasis is given to dealing with customer service problems and how to handle conflicts and stress.

BE185 HUMAN RESOURCE MANAGEMENT....3

An examination of the employment process, international challenges, current and recurring issues. Emphasis on evaluation, interviewing, training, and labor relations

BE188 PRINCIPLES OF ADVERTISING3

Students will learn the fundamental role of advertising in the communication process, how it works as an element of the marketing process, basic terminology, the functions and effects of advertising in business, the influence of economics on the evolution of advertising, and advertising's overall impact on the society in which it operates. Emphasis is placed on analyzing current examples of advertising along with real-world experiences in the advertising industry.

BE210 LEADERSHIP DEVELOPMENT3

Is designed to prepare students to assume increasingly responsible leadership roles in their personal, professional and academic lives. The course focuses not only on significant theories of leadership and their applicability to leaders of the past and present, but also includes substantial hands-on experiential learning opportunities which puts leadership into action.

BE220 COOPERATIVE EDUCATION

INTERNSHIP1-6
See CA220

Course Descriptions

CAREER CENTER

CA192 DYNAMICS OF CAREER PLANNING.....1-2

Is designed to help people explore their interests, abilities, strengths, weaknesses, likes and dislikes and relate them to the world of work. The class participants will learn techniques for exploring the world of work on the Internet and develop an academic plan which reflects their career decision.

CA220 COOPERATIVE EDUCATION INTERNSHIP1-6

Cooperative Education Internships enhance the academic background of the student with a curriculum related on-the-job work experience. These experiences may be completed by working while attending school or by working during the summer. College personnel will assist in matching employers and students in this program which is committed to the growth of the student. Cooperative Education is a valued partnership between employers, students, and educators. Students must 1) already be enrolled in at least 12 credit hours at CCCC or is in the process of completing coursework; 2) employed or work with college personnel to find a placement related to the curriculum they are enrolled in; 3) complete the necessary enrollment process which includes paying the tuition to be able to earn college credits; and 4) be a U.S. citizen or prove immigration eligibility to accept a work assignment.

CA221 JOB SEARCH 1

Is to make the student aware of the skills needed for entry into the competitive world of work. It will provide valuable insight into one's strengths and weaknesses while providing practice in preparing resume's, cover letters and standard application forms. In addition, the student will learn techniques for presenting himself/herself in a confident, professional manner at the employment interview and how to appropriately respond to a wide range of possible questions at that interview.

COMMUNICATIONS

(Courses numbered 099 and below will not apply toward graduation.)

CM073 ELEMENTARY ESL: LISTENING AND SPEAKING.....3

Elementary ESL Listening and Speaking is an applied course for the development of listening and speaking skills for Elementary English Language Learners (ELLs) whose native language is not English. The student will develop functional and academic skills necessary to engage in college-level courses in English. Co-requisite: CM074 Elementary ESL: Reading and Writing (To create an immersive language experience, students enrolled in the Listening and Speaking section must be enrolled in Reading and Writing section).

CM074 ELEMENTARY ESL: READING AND WRITING.....3

Elementary ESL Reading and Writing is an applied course for the development of reading and writing skills for Elementary English Language Learners (ELLs) whose native language is not English. The student will develop functional and academic skills necessary to engage in college-level courses in English. Co-requisite: CM073 Elementary ESL: Listening and Speaking (To create an immersive language experience, students enrolled in the Reading and Writing section must be enrolled in the Listening and Speaking section).

CM075 INTERMEDIATE ESL: LISTENING AND SPEAKING.....3

Intermediate ESL Listening and Speaking is an applied course for the development of listening and speaking skills for Intermediate English Language Learners (ELLs) whose native language is not English. The student will develop functional and academic skills necessary to engage in college-level courses in English. Prerequisite: appropriate test scores OR the Elementary ESL class: Reading and Writing (to create an immersive language experience, students enrolled in the Listening and Speaking section must be enrolled in the Reading and Writing section).

CM076 INTERMEDIATE ESL: READING AND WRITING.....3

Intermediate ESL Reading and Writing is an applied course for the development of reading and writing skills for Intermediate English Language Learners (ELLs) whose native language is not English. The student will develop functional and academic skills necessary to engage in college-level courses in English. Prerequisite: appropriate test scores OR the Elementary ESL class. Co-requisite: CM075 Intermediate ESL: Listening and Speaking (To create an immersive language experience, students enrolled in the Reading and Writing section must be enrolled in the

Is a transfer course designed to acquaint students with the botanical principles underlying plant growth, development and r

CM077 ADVANCED ESL: READING AND WRITING.....3

Advanced ESL Listening and Speaking is an applied course for the development of listening and speaking skills for Advanced English Language (ELLs) whose native language is not English. The student will develop functional and academic skills necessary to engage in college-level courses in English. Prerequisite: appropriate test scores OR the Intermediate ESL classes. Co-requisite: CM078 Advanced ESL Reading and Writing (To create an immersive language experience, students enrolled in the Listening and Speaking section must be enrolled in the Reading and Writing section.)

CM078 ADVANCED ESL: LISTENING AND SPEAKING.....3

Advanced ESL Reading and Writing is an applied course for the development of reading and writing skills for Intermediate English Language Learners (ELLs) whose native language is not English. The student will develop functional and academic skills necessary to engage in college-level courses in English. Prerequisite: appropriate test scores OR the Intermediate ESL classes. Co-requisite: CM077 Advanced ESL: Listening and Speaking (To create an immersive language experience, students enrolled in the Reading and Writing section must be enrolled in the Listening and Speaking section.)

Course Descriptions

CM079 PEER TUTOR TRAINING.....1

This course prepares students to be peer tutors. The students will learn how to adjust to different learning styles, incorporate brain-based learning, and apply study strategies to specific courses.

CM087 READING COMPREHENSION.....1-3

Complex materials are no longer a mystery as critical thinking about main ideas and details, summarization, and identification of patterns of organization are used to comprehend text. Reading and writing are blended to build strong academic skills.

***CM094 COMPOSITION WORKSHOP.....3**

Composition Workshop is a developmental course designed for the student who needs individualized instruction in the clear and correct usage of English grammar, extended practice with writing form and purpose, and additional support in the development of successful writing habits. Co-requisite : Because Composition Workshop focuses on building writing skills, Composition Workshop should be paired with an English Composition I (CM 101) course at the time of enrollment. Students withdrawing from English Composition I (CM 101) will need instructor's permission to remain in Composition Workshop. Prerequisite: Appropriate ACT Accuplacer writing score, an appropriate writing score on the college-administered writing sample, or a C or better in Transitional English. (This course, or derivations of this course, may be offered as part of a pilot study).

CM098 TRANSITIONAL ENGLISH.....3

Transitional English helps students develop their reading and writing skills in preparation for English Comp I and English Comp II courses. This class includes various writing assignments, grammar review, and critical reading. The class structure consists of lecture, discussions, class workshops, individual conferences, small group work, and in-class writing. Students may also be required to work assignments in the Student Success Center

CM101▶ ENGLISH COMPOSITION I 3

English Composition I provides instruction in writing with emphasis on grammatical correctness, acceptable usage, effective organization, and expression of ideas. Assigned reading, research and expository writing are required. Prerequisites: Appropriate ACT/Accuplacer score or Transitional English (CM098) with a C or better and enrollment in co-requisite, Composition Workshop (CM094). Co-requisite: Composition Workshop (CM094) determined by appropriate ACT/Accuplacer score.

CM102▶ ENGLISH COMPOSITION II3

English Composition II is a continuation of English Composition I with an emphasis in writing and rewriting. Assigned readings, argument and persuasion, literary analysis (poetry, fiction, drama), and research are included. Prerequisite: English Composition I.

CM106 ▶ CREATIVE WRITING I3

Creative Writing I is designed to present opportunities for the writing and rewriting of short story, poetry, drama, and other genres. It is a time for students to immerse themselves in the discipline of writing and become more conscious as writers - trying other genres, setting writing schedules, trying out advice for revision, discovering what makes them tick as a writer. Recommended preparatory course: English Composition I.

CM107 CREATIVE WRITING II3

Creative Writing II is designed to stimulate creativity and encourage students to seek answers and interpretations beyond the obvious - to develop insight and creative vision. It goes beyond the requirements of Creative Writing I, however, in that students work on one lengthy work or a series of connected short works, and consult with the instructor in and outside class in addition to the regular work of the class. Prerequisite: Creative Writing I.

***CM115▶ PUBLIC SPEAKING.....3**

Public Speaking is an elementary course in the study and practice of the basic principles of speech and interpersonal communication with emphasis on critical thinking, the creative and intelligent selection of material, organization and oral presentation. Students taking this class in an on-line format will be required to record and submit speeches electronically. All speeches must be recorded in front of a live audience which the students must arrange. Minimum audience numbers vary by speech.

CM120 SURVEY OF TECHNICAL WRITING...3

Survey of Technical Writing is an introduction to the process of technical and business writing. Topics include conducting audience needs analysis; organizing and writing clear, precise, grammatically correct workplace prose; and producing a variety of routine professional reports and correspondence. Focused projects will include applied business/industry or technical degree exercises. Prerequisite: Appropriate ACT/Accuplacer score or Transitional English.

CM121▶ INTRODUCTION TO LITERATURE...3

Introduction to Literature is a survey of literature from Britain, the United States and other countries emphasizing major poets, fiction writers and playwrights plus general literary analysis, including the literary devices used in these genres. Prerequisite: English Composition I. Recommended preparatory course: English Composition II.

CM122 ▶ AMERICAN LITERATURE I3

American Literature I is a historical survey of the literature of early Americans, emphasizing major authors, literary trends, historical events and significant ideas from early Native American works through the Transcendental Movement of the 1850's. Prerequisite: English Composition I. Recommended preparatory course: English Composition II.

Course Descriptions

CM123 ▷ AMERICAN LITERATURE II 3

American Literature II is a study of American literature from the Civil War period through the trends of realism, naturalism, and on into the ideas and literary trends of modern and contemporary America. Prerequisite: English Composition I. Recommended Preparatory Courses: English Composition II.

CM124 WORLD LITERATURE AND THE HUMAN EXPERIENCE 3

The course emphasizes the study of the literary, cultural, and human significance of select works of world literature. The class promotes an understanding of the works in their cultural/historical contexts and the enduring human values which unite the different literary traditions. Prerequisite: English Composition I. Recommended preparatory courses: English Composition II.

CM125 LITERATURE FOR CHILDREN.....3

Literature for Children is a survey of literature for children particularly in the elementary grades. It gives an opportunity to read and evaluate many books, stories and poems. Also promoted are resources and practical applications for reading aloud in the classroom, as well as igniting a love for reading in the mind of the individual child. For teachers in elementary education. Prerequisite: English Composition I. Recommended preparatory course: English Composition II.

CM127 THE SHORT STORY.....3

The Short Story is a survey of short stories from both American and selected world authors. Selected short stories from different eras are studied. Assigned readings, various themes, and literary analysis are included. Prerequisite: English Composition I. Recommended preparatory course: English Composition II

CM129 MEDIA LAW AND ETHICS3

Media Law and Ethics is designed to instill a greater appreciation for freedom of expression, provide an overview of the diverse field of communications law, and impart a functional understanding of the legal rules and principles that are generally relevant to journalism and mass communication professionals in the U.S.

CM136 MASS COMMUNICATIONS SOFTWARE3

An introduction to, and studio practice in, the area of visual communication. Emphasis is placed on mastery of software applications used in the communication graphics industry. Emphasis will be given to concepts relating to the organization of how software applications can support design concepts, color usage, image and concept development, and creative problem solving.

CM137 INTRODUCTION TO MULTIMEDIA COMMUNICATIONS3

This course is an introduction to reporting and storytelling through a combination of mass communication mediums including radio, print, web, visual, and social media. Students will apply the concept of “media convergence”, the synthesis of multiple modes of media, to communicate dynamic and coherent messages. This course offers extensive hands-on experience using multimedia tools, terminology, and techniques to develop multimedia projects. Recommended Prerequisite: CM136 Mass Communications Software.

CM138 BROADCAST NEWS 3

Broadcast News is an extension of Basic Media Writing and Intro to Multimedia Communications that emphasizes techniques involved in gathering, writing, and presenting the news specifically for radio, video, and web broadcasts. Students will cover the events and prepare the story for both live and pre-recorded broadcasts. The course will also include instruction for feature story presentation, interviews, and issues that confront the responsible journalist.

CM139 SPORTS BROADCASTING 3

Sports Broadcasting provides students a more in-depth look at the mechanics and preparation aspects involved in the coverage of a sporting event. Students will operate the equipment, prepare the information, and do the actual “on-air” broadcasts of sporting events. Emphasis will also be placed on sports reports, coach and athlete interviews, broadcast equipment terminology, and play-by-play announcing.

CM140▷THEATRE APPRECIATION3

Theatre Appreciation challenges students to interpret, criticize, and appreciate roles theatre plays in society through positive comparisons to our modern “theatre of availability” - television and film.

CM141▷INTRODUCTION TO ACTING3

Introduction to Acting offers majors and non-majors the fundamentals of acting in daily life and as a profession. Students should be able to connect acting experiences found in the lives of ordinary people with those crafted for theatrical characterization. Students explore the process of acting from critical thinking and analysis to public presentation.

CM142 ADVANCED PERFORMANCE:

OFF - STAGE AND ON.....3

Advanced Performance is a course intended to further students’ acting skills through the study of various aspects of the creative craft. On a rotating basis, the course may cover aspects of vocal production, period acting styles, or alternative acting approaches and techniques. Course emphasis will be on script analysis, characterization, ensemble acting, creativity, and preparation.

Course Descriptions

CM143 ▶ PLAY PRODUCTION3

Play Production is a lecture-lab course with emphasis on acting in dramatic productions under performance conditions. Lectures and practice in the processes of interpretation and techniques of theatrical expression. Course culminates in a performance for public viewing.

CM146 ▶ PLAY PRODUCTION II3

Play Production II, a continuation of Play Production, is a lecture-lab with emphasis on direct experience in play production, either as a performer, an assistant director, stage manager, or in technical support capacity.

CM148 AMERICAN CINEMA APPRECIATION.....3

American Cinema Appreciation is a survey of the American film industry as an art form, as a business, and as a system of representation and communication. The course further explores how Hollywood films work technically, aesthetically, and culturally to reinforce and challenge America's national self image.

CM155 DIGITAL MAGAZINE PRODUCTION: STORYTELLING.....3

Digital Magazine Production: Storytelling is the content component of the digital magazine project, published annually in April, which documents a year in the life of Cloud County Community College. This class requires students to use multiple modes and genres of storytelling to meet the needs of a specific audience in a real-time project. Students will cover life at Cloud from multiple perspectives using traditional print, visual, audio, and video formats.

CM156 DIGITAL MAGAZINE PRODUCTION DESIGN & STYLE.....3

Digital Magazine Production: Design and Style is the design component of the digital magazine project, published annually in April, which documents a year in the life of Cloud County Community College. This class focuses on the foundation of the project including principles of design and photography, the creation of a style and layout manual for the project, and the basics of storytelling in print, visual, audio, and video formats.

CM157 MASS MEDIA PRODUCTION.....3

This course is a hands-on, in-depth study of how media conventions and content interact. In this applied production course, students will use the principles of convergent media to report school, community, and national news, sports, and lifestyle stories to T-Bird News as well as other real-world industry outlets.

Students will work hands-on, discovering, developing, composing, editing, and publishing a story. Students will be required to produce and publish each story using a variety of media including print, radio, video, and web.

CM158 MASS MEDIA PRODUCTION II 3

This course emphasizes a multi-disciplinary and multimedia approach to business-client relationships. Students will prepare a strategic communication campaign on behalf of a local client. It will include the production of material in a variety of mediums including print, radio, video, and web for use by the client. These materials, in turn, may be used by the students as they develop their professional portfolios. This class is rooted in critical thinking, research, multimedia production and problem solving as well as professionalism and strong communication skills.

CM220 COOPERATIVE EDUCATION INTERNSHIP 1-6

See CA220.

CM240 ▶ INTERPERSONAL COMMUNICATIONS..3

This course is a study of dyadic communication within interpersonal relationships between friends, family, fellow students, romantic partners, supervisors, and colleagues in the workplace. Emphasis is placed on the role of healthy and meaningful communication in establishing, building, maintaining, and sometimes refashioning personal and/or professional interpersonal relationships. Course content stresses how to become a more effective and competent communicator by exploring personal communication goals, analyzing communication barriers, identifying relational breakdowns in communication, and addressing conflict scenarios in order to deepen a student's understanding of the communication process and improve communication skills.

* A lab fee will be assessed for these courses.

Course Descriptions

COMPUTER SCIENCE

CS102 PERSONAL COMPUTING 3

Designed for individuals to become familiar with microcomputers and their operations. An introduction to the Windows environment will be discussed. Microsoft software will be used to apply this knowledge in the use of word processing, data-base, electronic spreadsheet, and data communications technology for both home and business use.

CS104 INTRODUCTION TO WEB SITE DESIGN.....3

Intended as an introductory course on creating Web pages. The objectives of this course are: to teach the fundamentals of developing Web pages using HTML; to acquaint students with the XHTML guidelines; to show students how to create Web pages suitable for course work, professional purposes, and personal use; to expose students to common Web page formats and functions; and to promote curiosity and independent exploration of World Wide Web resources. Prerequisite: Knowledge of computer software and Windows operating systems.

CS107 GRAPHIC SOFTWARE APPLICATIONS.....3

Introduction to, and studio practice in, the area of visual communication. Emphasis is placed on mastery of software applications used in the communication graphics industry. Emphasis will be given to concepts relating to the organization of how software applications can support design concepts, color usage, image and concept development, and creative problem solving.

CS108 COMPUTER APPLICATIONS 3

An introductory computer course designed for individuals to become familiar with computers and their operations. An integrated software program will be used to apply this knowledge in word processing, database, and electronic spreadsheet technology for both home and business use.

CS155 NETWORKING AND COMPUTER TECHNOLOGY3

Introduces the student to the networking field. Focuses on network terminology and protocols, local-area networks (LANs), wide-area networks (WANs), Open System Interconnection (OSI) model, cabling, cabling tools, switches, routers, Ethernet, Internet Protocol (IP) addressing, and network standards. The course will reinforce lecture and study from the text with laboratory activities through a simulated networking program called LabSim™ Online for Network+.

CS220 COOPERATIVE EDUCATION INTERNSHIP.....1-6

See CA220

Course Descriptions

ECONOMICS

EC101 ▸ PRINCIPLES OF MACROECONOMICS...3

Presents a macroeconomic approach in the introduction of the concepts of scarcity, national income and monetary analysis, the economic role of government, brief history, and economic growth.

EC102 ▸ PRINCIPLES OF MICROECONOMICS...3

Is concerned with microeconomic approach to the economics of the business firms and the market structures for the product and resource market allocation. Supply and demand will be studied in some detail, plus cost-benefit analysis and some domestic and international problems.

EC220 COOPERATIVE EDUCATION INTERNSHIP 1-6

See CA220.

EDUCATION

ED100 ▸ INTRODUCTION TO EDUCATION.....3

An introductory course for students considering a career in professional education. The course includes historical, philosophical, sociological and learning developments within the education profession, professional needs and demands and requirements of professional education programs. Prerequisite: at least a 2.5 GPA in a minimum of 12 General Education hours creditable to a university teacher education program; simultaneous class- room experience (ED101 or a practicum connected with another course).

ED101 INTRODUCTION TO EDUCATION PRACTICUM.....1-2

The practicum is designed to provide aspiring education majors an opportunity to observe and interact with teachers and students in an elementary and secondary setting. Opportunities to evaluate the total spectrum of education will be offered through direct observation. Prerequisite: at least a 2.5 GPA in a minimum of 12 General Education hours creditable to a university teacher education program; proof of liability insurance. The student must be dual enrolled in ED100 Introduction to Education.

ED114 ART IN THE ELEMENTARY CLASSROOM 3

Art methods, materials and philosophy of children's art at different grade levels. This is considered a lab class.

ED118 DIVERSE LEARNERS 3

There are many ways that students differ from each other in academic situations. Understanding the implication of differences in abilities, disabilities, cultural backgrounds, religious backgrounds, psychological disorders, and first languages on learning can enhance the effectiveness of teachers in their classrooms.

ED119 TEACHER CADET CLASS..... 3

The course is an introduction to the field of teaching. The course includes observation opportunities in local classrooms and didactic experiences in their various high schools. The intent of the class is to help students to decide if teaching is a career that they would want to pursue in the future.

ED123 MUSIC IN THE ELEMENTARY CLASSROOM 3

A methods class that is designed to encourage thinking about teaching. Another primary purpose of the class is to encourage an understanding of how to help students express themselves through music. The class will prepare the student with a foundation in competencies to prepare materials, establish teaching objectives, and teach the use of music within the elementary classroom. The class will provide the student with skills in using recorders, guitars, keyboards, and rhythm instruments for musical activities. Time will also be spent with rhythmic movement, and doing creative musical activities.

ED124 ELEMENTARY SCHOOL PHYSICAL EDUCATION 3

A methods class that is designed to instruct students in the essential components for teaching physical education to elementary students. Included in the class will be teaching styles, the development of children's physical, cognitive, and social skills, and organization of movement activities.

ED220 COOPERATIVE EDUCATION INTERNSHIP 1-6

See CA220.

FOREIGN LANGUAGE

FL111 ▸ SPANISH I 4

Is a course designed as an overview of the initial grammar, vocabulary, and special features of the Spanish language. The focus of the course is upon the enhancement of reading, writing and oral communication skills.

FL112 ▸ SPANISH II 4

Is a course designed to complete the initial grammar, vocabulary, and Spanish language began in Spanish I. The focus of the course is upon the enhancement of reading, writing, and oral communication skills. Prerequisite: Spanish I.

FL113 GERMAN I 4

Is designed to teach basic grammar and vocabulary of the German language. The focus of the course is upon the development of reading, writing, oral, and aural communication skills. Basic elements of the German culture will also be introduced.

FL114 GERMAN II..... 4

German II is designed to build upon the material introduced in German I. The focus of the course is upon the further development of reading, writing, oral, and aural communication skills. Basic elements of the German culture will also continue to be introduced. Prerequisite: German I

Course Descriptions

FL200 SPANISH III.....4

Is a course designed to complete the grammar, vocabulary, and Spanish language began in Spanish II. The focus of the course is upon the enhancement of reading, writing, and oral communication skills. Prerequisite: Spanish II.

GEOGRAPHY

GE101▶WORLD GEOGRAPHY..... 3

World Geography is designed to survey the geographic and cultural features of the world's major regions. A central theme concerns the role played by technological change in shaping both the lifestyles and landscapes found in each of the regions studied. The resulting contrasts between the Technological World and the Developing World are examined in detail.

HISTORY

HI108 ▶WOMEN IN AMERICAN SOCIETY..... 3

Will explore the many facets of women in American society and the impact on relationships and family, both from historical and contemporary perspectives. Students will be offered a cross section of available information from a liberal arts perspective, including literature, psychology, history, political science, and social philosophy.

HI120▶WORLD HISTORY I 3

World History I is an introductory survey of major developments in the history of the world from the origins of civilizations to the 15th century. The focus is on a comparison of key trends and conditions in different parts of the world throughout these centuries.

HI121▶WORLD HISTORY II..... 3

World History II is an introductory survey of major developments in the history of the world from the 15th century to the 21st century. Students will examine changes and continuities, patterns in and among various societies as they come into contact, influence each other, and, in places, become interdependent.

HI122 ▶U.S. HISTORY I.....3

Is a survey of American History from its European background through the time of the Civil War. The political, economic and social growth of our country is emphasized.

HI123 ▶ U.S. HISTORY II.....3

Is a survey of American History from Reconstruction to the present. The intellectual, political, economic, and social growth of our country is emphasized.

HI124 INTRODUCTION TO HISTORY....3

Covers what history is, how it is produced, and what its functions are. Designed for students who want an introductory course which explains the methodology and purposes of the discipline.

HUMAN ECOLOGY

HE124▶ NUTRITION3

Is designed to support the concept that achieving and maintaining optimal nutritional status is an essential component of health promotion. A molecular approach to nutrition is used as a basis for understanding the importance of nutrition in health and disease. Facts and principles are included to give the student a basic nutritional background to later enhance high quality nutritional care. The information acquired in this course will be used as the basis for understanding therapeutic nutrition.

EARLY CHILDHOOD EDUCATION

***HE095 ORIENTATION TO EARLY CHILDHOOD DEVELOPMENT2**

This course is a supplemental course to accompany HE150, Early Childhood Development, and is designed to aid the student who has scored below 74 on the reading and below 78 on the writing of the Accuplacer test, or below 41 on the ASSET test, or below 21 on the ACT test, or who indicated that they would like additional assistance with the course. Included will be review of the lectures in a discussion format, computer aided instruction, additional videos to explain concepts, and the use of chapter vocabulary worksheets and review questions for the HE150 lectures.

***HE144 INCLUSIVE EARLY CHILDHOOD EDUCATION 3**

This course is a study of the research applications of how special children are included in the inclusive educational and day care settings. Emphasis will be placed on proven recommendations for inclusion merging early childhood education and early childhood special education philosophies.

***HE147 PRINCIPLES OF THE CHILD DEVELOPMENT ASSOCIATE CREDENTIAL..... 3**

Will focus on the preparation for the Child Development Associate (C.D.A.) credential. The students will write their competency statements, prepare their Professional Resources File and study for the Early Childhood Studies Review. A person who has met the criteria established by the Council for Early Childhood Professional Recognition earns the CDA Credential. Successful completion of this course does not guarantee the granting of the C.D.A. by the Council for Early Childhood Professional Recognition.

***HE149 INTRODUCTION TO EARLY CHILDHOOD EDUCATION1**

This course is an introduction to employment opportunities in Early Childhood Education. An overview of philosophies, ethics and developmentally appropriate practice will offer students a look into what they can expect from this field.

Course Descriptions

***HE150 ▸ EARLY CHILDHOOD DEVELOPMENT.....3**

Is a study of the physical, cognitive, affective, social, and emotional development of the child from conception to age eight. Emphasis is on the interrelationship of growth and behavior of the preschool child. Included will be the influence of cultural environment on development and individual differences in development.

***HE151 EARLY CHILDHOOD DEVELOPMENT LAB..... 1**

The student will observe and learn about cognitive, emotional, social and physical development of the child from birth to age eight. The student will also learn proper observation techniques to be used for tracking healthy development.

***HE152 INTERACTION TECHNIQUES WITH YOUNG CHILDREN..... 3**

Is a study of the guidance approaches which can be used to interact with and guide young children in a group or family setting. Communication skills and development of a positive self-concept will be emphasized.

***HE153 CREATIVE ACTIVITIES FOR YOUNG CHILDREN 3**

Is an introduction to various learning activities which may be used with preschool aged children in a group setting, focusing on selection, preparation, and presentation. Prerequisite: Successful completion of HE150.

***HE154 CREATIVE ACTIVITIES FOR YOUNG CHILDREN LAB..... 1**

Is a laboratory experience to plan, prepare, present, and evaluate a variety of activities for preschool aged children.

***HE155 PARENT, PROVIDERS, AND COMMUNITY RELATIONSHIPS.....3**

Is a study of Early Childhood Education provider's interrelationships with parents, colleagues, and the community. Topics included are public relations, family diversity and development, asset building, evaluations, parent meetings, parent-teacher communications, and professionalism.

***HE156 DEVELOPMENTAL PROGRAM PLANNING FOR YOUNG CHILDREN OVER 2.5 3**

Is a study of the techniques of curriculum planning for young children over 2.5 years in a group setting, emphasizing the organization of activities into complete unit plans and year long plans. Assessment techniques and accountability in terms of curriculum will be emphasized. Prerequisite: Successful completion of HE152, HE153, and HE154.

***HE157 DEVELOPMENTAL PROGRAM PLANNING FOR YOUNG CHILDREN OVER 2.5 LAB....1**

Student will participate in various activity centers in a child care facility and will teach segments of the unit plans developed in Developmental Program Planning. Prerequisite: Successful completion of HE154 with a C or better.

***HE158 DIRECTED FIELD EXPERIENCE..6**

Is a supervised practicum in which students are responsible for daily planning, preparation, presentation, and evaluation of activities meeting developmental needs of children in an approved licensed child care facility. A minimum of 350 on-site hours is required for the semester. Weekly on-campus seminars. Prerequisite: Successful completion of HE156 and HE157 with a C or better and approval of instructor.

***HE159 DIRECTED FIELD EXPERIENCE SEMINAR 1**

Designed to facilitate the experience the students have in the approved licensed Child Care Facility. Topics of interest relevant to the learning taking place in the Centers will be discussed. Daily journals will be kept to facilitate optimal learning for the students. Must be taken concurrently with HE158.

***HE160 CHILD CARE ADMINISTRATION AND ORGANIZATION.....3**

Is an analysis of the administrator's role in the Early Childhood Education Center. Application of philosophical approaches, communication techniques, and management skills necessary to operate early childhood programs. Federal, State, and local regulations and support systems will also be discussed.

***HE161 HEALTH & NUTRITION FOR YOUNG CHILDREN 3**

Is a study of the health, safety, and nutritional needs of children (prenatal to age 8). Emphasis will be placed on the methods in which these health, safety, and nutritional needs can be met in a child care facility..

***HE162 CHILD CARE MANAGEMENT1**

Is a reflective course dealing with management style as it relates to child care and guidance. The practical application of management principles as they relate to child care and guidance will be emphasized.

***HE163 PARENTING3**

Is a study of varying approaches to parenting and their impact on the child's behavior and development. The major content of the course concerns preparing for parenthood using the democratic approach to parenting.

Course Descriptions

***HE164 DEVELOPMENTAL PROGRAM PLANNING FOR YOUNG CHILDREN UNDER 2.5.....3**

This class will focus on the development of the child ages birth to thirty-six months and how to plan for this child in group care. Emphasis will be placed upon the parent-child relationship, parent-teacher relationship, and development of the child.

***HE165 DEVELOPMENTAL PROGRAM PLANNING FOR YOUNG CHILDREN UNDER 2.5 LAB.....1**

This laboratory will focus on developing appropriate care giving behaviors for working with infants and toddlers. Focus will be placed upon developing care giving skills through direct involvement with the children. The semester will be shared between infants and toddlers.

***HE168 FAMILY AND CULTURAL PERSPECTIVES.....3**

This course is an overview of diversity topics in early childhood education. Material covered may include, but is not limited to, reviewing personal biases, relationships with families, preparing the early childhood environment, sensitivity to diversity and conflict resolution.

HE220 COOPERATIVE EDUCATION INTERNSHIP1-6

See CA220.

* A lab fee will be assessed for these courses.

HUMANITIES

HU201 HUMANITIES I.....3

Humanities I is designed to help you gain a richer understanding and enjoyment of the humanities, particularly in Western culture. This course includes an overview of the history of Western cultures between 1600 and the early 1800's and introduces great works of literature, philosophy, art, and music. As an interdisciplinary course, it seeks to show how these different elements contribute to and express human creativity and values. Prerequisite: English Composition I.

HU202 HUMANITIES II3

Humanities II promotes the understanding and enjoyment of the humanities in Western culture. This course includes an overview of the history of Western cultures from the 1830's to present time and introduces great works of literature, philosophy, art, and music. As an interdisciplinary course, it seeks to show how these different elements contribute to and express human creativity and values. Humanities I is not a prerequisite for Humanities II. Prerequisite: English Composition I.

INDUSTRIAL EDUCATION

IE106 WELDING.....3

Involves principles and practices in electric and gaseous welding. Course content includes theory of operation of the various electric welding machines (A.C., D.C., M.I.G., and T.I.G.) and gaseous welding equipment (oxygen, acetylene, carbon dioxide, argon, and propane) along with student practice and performance through use. Proficiency in welding various metals, positions, and types of welds will be stressed.

IE107 ADVANCED WELDING.....3

Is an advanced course in welding designed to expand the beginning welders' skills and techniques in arc and acetylene welding, as well as expanding his understanding of metallurgy, heat treatment of metals and joint and weld defects. Students in the class are allowed to utilize these skills and understandings projects as jointly determined by the instructor and the student.

IE116 OSHA 10-HOUR CONSTRUCTION TRAINING 1/2

This course is intended to provide an entry level construction worker with broad awareness in recognizing and preventing hazards on a construction site. It is also ideal for supervisors with safety and health responsibilities. OSHA recommends the training as an orientation to occupational safety and health. Students will be introduced to OSHA policies, procedures, and standards. Emphasis will be placed on hazard identification, avoidance, control, and prevention. Upon successful completion of the course, participants will receive an OSHA 10-Hour Construction DOL Course Completion Card by mail.

IE117 OSHA 10-HOUR GENERAL INDUSTRY TRAINING1/2

This course is intended to provide an entry level general industry worker with broad awareness in recognizing and preventing hazards on a general industry site. It is also ideal for supervisors with safety and health responsibilities. The course covers a variety of safety and health hazards which a worker may encounter. Students will be introduced to OSHA policies, procedures, and standards as well as general industry safety and health principles. Emphasis will be placed on hazard identification, avoidance, control, and prevention. Upon successful completion of the course, participants will receive an OSHA 10-Hour General Industry DOL Course Completion Card by mail.

IE150 NATURAL/PROPANE GAS & ELECTRICAL SYSTEM SAFETY 3

This course provides instruction to plumbers, electricians, and heating/air personnel in the proper techniques and procedures for working with natural or propane installations; as well as electrical lock-out/tag-out. The course covers the components of a gas system, sizing of piping, proper purging of a system, differences between a leak test and a pressure test, flow test, various safety issues, hands-on training with pipe/fitting display boards, demonstration of various testing equipment, and lock-out/tag-out per OSHA regulations.

Course Descriptions

JOURNALISM

JN100 ↯ MASS MEDIA IN SOCIETY3
A general survey of the various mediums of mass communication, including print media and electronic media and movies, and their roles in American society.

JN101 BASIC MEDIA WRITING3
Explores mass media sources of information, the preparation and the application of the media message. After learning techniques for information gathering, students will study and practice the fundamentals of writing for each of the mass media outlets.

JN140 BEYOND WEB 2.0: SOCIAL MEDIA AS IDENTITY3
For today's college students, digital communication is the norm, but what does it mean to exist in an on-line community? Tools like Facebook, Twitter, and text messaging are prevalent and you can learn to use them all to maintain privacy, enhance reputation, and build a more satisfying personal and professional life on-line. This course proposes to make every enrolled student an astute digital learner. Students will also understand the sociocultural implications of their digital existence and the powerful marketing tool that is social media.

JN220 COOPERATIVE EDUCATION INTERNSHIP 1-6
See CA220.

* A lab fee will be assessed for these courses.

MANAGEMENT

MG101 ↯ MANAGEMENT PRINCIPLES3
Is an introductory course designed to provide the student with fundamental concepts and terminology. Designed for development of managerial techniques and practices and the understanding of their utilizations. For both terminal degree and transfer students.

MG102 INTRODUCTION TO ENTREPRENEURSHIP.....3
In this course you will find information on high growth, start-up ventures, such as Dell Computer, Google and Microsoft (all started while the founders were college students, by the way!). But more importantly you will find information on the kinds of small businesses most people really do start. These are small businesses in traditional industries and markets from the "Mom and Pop" retail, a manufacturing or service business, a web-based enterprise to the sophisticated, pre-packaged franchise operation. According to the textbook authors, small businesses are vitally important to our economy and helping them survive has long been an art. In this course you will study the art and the science of small business management. The objective of the course is to help you understand the challenge before you operate your own small business.

MG220 COOPERATIVE EDUCATION INTERNSHIP1-6
See CA220.

MANUFACTURING SKILLS

MS101 BLUEPRINT READING/GEOMETRIC DIMENSIONS & TOLERANCES.....2
This program provides students with an overview of geometric dimensions and tolerances, teaching basic methods of reading and interpreting GD&T symbols and how part features are specified in terms of their relationships to other features.

MS102 PRECISION MEASUREMENT & QUALITY CONTROL.....2
The use and reading of precision measurement devices, including mastery of the most common gauges and measurement tools seen in typical work environments, is a requirement for many jobs today. This course enables workers to learn practical, efficient ways to read these devices and build the skills necessary for quality improvement.

MS103 APPLIED SHOP MATHEMATICS I...2
Almost every shop activity requires basic math skills. This course will give workers the practical knowledge they need to understand and use basic math for practical problem solving they typically encounter on the job.

MS104 OCCUPATIONAL SAFETY AND HEALTH 1
This course provides the student with an understanding of current safety regulations, established safety practices, how to recognize basic hazards and the impact of work related injuries to the company and the employee.

MS105 EMPLOYABILITY SKILLS1
This course prepares students for employment by providing them with the information and skills needed to obtain and be successful at a job. Students will learn how to take full advantage of employment opportunities, including mastering resume writing, cover letters, job search and job interview skills.

MATHEMATICS

(Courses numbered 099 and below will not apply toward graduation.)

MA091 INTERMEDIATE ALGEBRA APPLICATIONS 2
This course is designed and structured to support Intermediate Algebra students who have appropriate test scores. Students in the prescribed range of test scores must be enrolled in this course and a paired section of MA110, Intermediate Algebra, or they may enroll in MA099, Elementary Algebra.

MA092 COLLEGE ALGEBRA APPLICATIONS..... 1
This course is designed and structured to support College Algebra students who have appropriate test scores. Students in the prescribed range of test scores must be enrolled in this course and a paired section of MA111, College Algebra, or they may enroll in MA110, Intermediate Algebra.

Course Descriptions

MA097 PRE-ALGEBRA 3

Provides a comprehensive coverage of basic computational skills and their applications while also covering fractions, decimals, ratios and proportions, percents, measurement and a brief introduction to variables and algebra.

MA099 ELEMENTARY ALGEBRA 3

This course is designed for students with little or no high school algebra, or those who have appropriate math scores on the ACT or Accuplacer exam. Topics covered will include properties of the graphs of linear equations, polynomials, factoring rational expressions, and radicals. Prerequisite: Pre-Algebra with a C or better, or appropriate test scores.

MA105 SURVEY OF MATHEMATICS 3

Is designed for students earning a two-year, non-transfer degree. Topics covered will include finance, statistics, probability, mathematical relationships, graphs of linear equations and their properties, and geometry. This course will not satisfy prerequisite requirements for College Algebra. Prerequisite: appropriate test scores or Elementary Algebra with a grade C or better.

MA107 MEDICAL MATHEMATICS 1

This course covers application problems involving medical dosages and intravenous fluid rates. Students who need orientation to the mathematical procedures of medication calculations will benefit from this course.

MA110 INTERMEDIATE ALGEBRA 3

This course is designed for students who are inadequately prepared for College Algebra. Topics covered will include linear equations and inequalities, functions, systems of linear equations, polynomials, exponents, rational expressions, radical expressions, and quadratic equations. Prerequisite: appropriate test scores or Elementary Algebra with a grade of C or better or its equivalent.

MA111 COLLEGE ALGEBRA 3

This course reviews standard topics of algebra. Students will study linear and quadratic equations, functional notation, linear, quadratic, rational, logarithmic and exponential functions, systems of equations and inequalities, and matrix algebra. Other topics may be covered at the instructor's discretion. Prerequisite: appropriate test scores or Intermediate Algebra with a grade of C or better.

MA112 TRIGONOMETRY 3

Is a study of trigonometric functions and their applications, solutions to right and oblique triangles, trigonometric identities, inverse functions, graphs of trigonometric functions, and vectors. Prerequisite: appropriate test scores or College Algebra with a grade of C or better.

MA114 ELEMENTARY STATISTICS 3

This course is designed for students with adequate algebra background to cover introductory, non-calculus based statistics. Topics covered will include sampling and displaying data, measures of central tendency and variation, introductory probability theory, discrete probability distributions (binomial), normal distributions, standard normal distributions, sampling distributions and the central limit theorem, estimating parameters, hypothesis testing, regression and correlation, chi-square, and non-parametric statistics. Prerequisite: College Algebra with a C or better.

MA115 LINEAR ALGEBRA AND GENERAL CALCULUS 3

This course is an introduction to calculus and linear algebra concepts particularly useful to economics and business administration students. It requires no knowledge of trigonometry, and is not intended for a student seeking a degree in a science related field. Topics covered include limits, derivatives, multivariate calculus, basic integrals, and systems of equations. Practical applications include analysis of mixing problems, optimization, analysis of graphs for sales and marketing purposes, and marginal analysis. Prerequisite: College Algebra with a C or better.

MA120 ANALYTIC GEOMETRY AND CALCULUS I 5

This course reviews inequalities, linear equations, function notation, graphing and trigonometry. Students will study limits, continuity, derivatives, differentials, and integrals. Practical applications include graphing, motion, optimization, related rates, Newton's Method, and L'Hopital's Rule. Prerequisite: appropriate test scores or College Algebra and Trigonometry with grades of C or better.

MA121 ANALYTIC GEOMETRY AND CALCULUS II 5

This course picks up where MA120 left off with applications of integration. Develops calculus as applied to logarithmic, exponential, and hyperbolic functions. Students study limits, techniques of integration, infinite series, parametric equations and polar coordinates. Practical applications include growth and decay, Taylor series, surface area, work and arc length. Prerequisite: Analytic Geometry and Calculus I with a C or better.

MA122 ANALYTIC GEOMETRY AND CALCULUS III 5

Students will study vectors, vector functions, surfaces, differentiation, integration, cylindrical and spherical coordinates, and vector calculus. Practical applications will include arc length, area, volume, optimization, and Kepler's Laws. Prerequisite: Analytic Geometry and Calculus II with a C or better.

MA123 DIFFERENTIAL EQUATIONS 4

This course is the study of qualitative and quantitative behavior of first- and second-order differential equations, as well as systems of first-order equations. Both analytical and numerical methods for solution will be studied, including the use of Laplace transforms. Prerequisite: Analytic Geometry and Calculus III with a C or better.

MA130 CONTEMPORARY MATH 3

Explores the uses of mathematics in different settings. Applications are seen in the contemporary world, across different disciplines. Topics will include, but are not limited to, the following: critical and logical thinking, statistics and probability, the application of mathematics to social issues such as voting, and financial applications. Prerequisite: MA 110 Intermediate Algebra with a grade of C or better.

Course Descriptions

MA220 COOPERATIVE EDUCATION INTERNSHIP 1-6

See CA220.

MUSIC

***MU100 ▸ MUSIC APPRECIATION3**

Music Appreciation is a basic study of the development of the art of music (European based) and personal development of the art of creative listening through frequent use of recordings. Recommended for the general student and music major.

MU102 WORLD MUSIC..... 3

World Music is a study of music in the context of human civilization and a people's way of life. Cultural awareness leads to an understanding of that way of life. Cultures to be studied will include: Navajo, West Africa, American Blues, South India, Indonesia, Japan, and Ecuador. Recommended for the general student and music major.

MU103 HISTORY OF ROCK MUSIC 3

This course will survey the history of rock music from 1950 to the present. Idioms covered will include early rhythm and blues, Southern influenced gospel and spirituals, rockabilly, the California "surf" sound, the British invasion, the Motown sound, pop and folk rock, contemporary Southern rock, heavy metal, funk, and modern hip-hop. Artists and music from these genres will be studied with special emphasis placed on the significance of music in development of popular culture.

MU104 CLOUD COUNTY COMMUNITY CHORALE.....1

The Cloud County Community Chorale is the community choir of Concordia and North Central Kansas. Comprised of singers from within the community as well as CCCC, the Chorale emphasizes the ideal of the "singing city" --friends and neighbors gathered together to rehearse and perform music from different time periods, with added emphasis on fostering arts and music within Concordia and the broader region. Rehearsals are held once weekly with performances throughout the year. No audition is required.

MU110 ▸HARMONY AND EAR TRAINING I.....4

Harmony and Ear Training I is the study of the structure and components of western music. This study will include the fundamental concepts of notation, tonality, intervals, chords, melodic organization, rhythm, harmonic progression and analysis. Additional aural skills concepts of dictation and sight singing will also be covered.

MU111 ▸HARMONY AND EAR TRAINING II.....4

Harmony and Ear Training II is the intermediate study of the structure and components of western music and builds on the

concepts explored in Harmony and Ear Training I. This study will include supplemental concepts of notation, tonality, intervals, chords, melodic organization, rhythm, harmonic progression and analysis. Additional aural skills concepts of dictation and sight singing will also be covered. Prerequisite: Harmony and Ear Training I or consent of instructor.

MU112 HARMONY AND EAR TRAINING III....4

Harmony and Ear Training II is an advanced level course with the addition of altered chords, ninth, eleventh and thirteenth chords and simple and complex methods of modulation, plus advanced ear training procedures including harmonic as well as melodic dictation and sight singing. Prerequisite: Harmony and Ear Training II.

MU113 HARMONY AND EAR TRAINING IV.....4

Is a continuation of Harmony and Ear Training III. Prerequisite: Harmony and Ear Training III.

MU117 COLLEGE BAND1

The "Rolling Thunder" is the college activity band. This ensemble rehearses twice per week and performs in a college service capacity at athletic contests and other appropriate campus and community events.

MU118 COLLEGE BAND II..... 1

This course is a continuation of College Band. The "Rolling Thunder" is the college activity band. This ensemble rehearses twice per week and performs in a college service capacity at athletic contests and other appropriate campus and community events.

MU119 COLLEGE BAND III 1

This course is a continuation of College Band II. The "Rolling Thunder" is the college activity band. This ensemble rehearses twice per week and performs in a college service capacity at athletic contests and other appropriate campus and community events.

MU126 CONCERT BAND1

Concert Band rehearses one day weekly and will perform a formal concert each semester. Literature performed will be from the traditional as well as modern band repertoire and will include works from such representative composers as Gustav Holst, Ralph Vaughan-Williams, John Philip Sousa, and Johan DeMeij. Prerequisite: Proficiency on a traditional wind or percussion instrument.

MU127 JAZZ ENSEMBLE1

Jazz Ensemble is a small instrumental group designed to perform in the popular idiom, including rock, soul, folk type, and country music. This group is primarily a public performing ensemble that is small enough to be mobile yet large enough to perform all types of music in the popular fields. By audition. Jazz meets three times a week for fifty-five minutes each, one hour credit.

Course Descriptions

MU130 APPLIED MUSIC: VOICE 1

Applied Music: Voice provides the opportunity for the student to improve his singing skills in a direct teacher-to-student instructional setting. Technical skills and their application will be explored within a varied song repertoire.

MU131 APPLIED MUSIC: INSTRUMENT.....1

Applied Music: Instrument is for individual instruction in instrument of student's choice beginning with student's level of competency.

MU132 ▸ APPLIED MUSIC: PIANO1

Applied Music: Piano is for individual instruction in piano beginning with the student's level of competency and developing piano techniques and building a repertoire.

MU134 APPLIED MUSIC: VOICE II.....1

Applied Music: Voice II is a continuation of Applied Music: Voice. It involves private instruction in voice techniques. Appropriate skills and applications will be addressed through preparation of appropriate literature for recital performance.

MU135 APPLIED MUSIC: INSTRUMENT II.....1

Applied Music: Instrument II is a continuation of Applied Music: Instrument. It involves private instruction in instrumental techniques. Appropriate skills and applications will be addressed through preparation of appropriate literature for recital performance.

MU136 ▸ APPLIED MUSIC: PIANO II 1

Applied Music: Piano II is a continuation of Applied Music: Piano. It involves private instruction in piano techniques. Appropriate skills and applications will be addressed through preparation of appropriate literature for recital performance.

MU137 APPLIED MUSIC: VOICE III1

Applied Music: Voice III is a continuation of Applied Music: Voice II. It involves private instruction in piano techniques. Appropriate skills and applications will be addressed through preparation of appropriate literature for recital performance.

MU138 APPLIED MUSIC: INSTRUMENT III.....1

Applied Music: Instrument III is a continuation of Applied Music: Instrument II. It involves private instruction in piano techniques. Appropriate skills and applications will be addressed through preparation of appropriate literature for recital performance.

MU139 APPLIED MUSIC: PIANO III..... 1

Applied Music: Piano III is a continuation of Applied Music: Piano II. It involves private instruction in piano techniques. Appropriate skills and applications will be addressed through preparation of appropriate literature for recital performance.

MU146 CHAMBER SINGERS I.....1

Chamber Singers I is the flagship ensemble of CCCC that performs for college community and area events. Emphasis is placed on performance, literature and musicianship. This ensemble performs frequently. Membership is by audition.

MU147 CHAMBER SINGERS II.....1

A continuation of Chamber Singers II. Chamber Singers is the flagship ensemble of CCCC that performs for college, community, and area events. Emphasis is placed on performance, literature, and musicianship. This ensemble performs frequently. Membership is by audition.

MU148 CHAMBER SINGER III 1

Chamber Singers III is the flagship ensemble of CCCC that performs for college community and area events. Emphasis is placed on performance, literature and musicianship. This ensemble performs frequently. Membership is by audition.

MU160 CONCERT CHOIR1

Concert Choir is a large, mixed-voice ensemble that performs for collegiate and community events. Emphasis is placed on developing musical skills, exploring diverse musical literature, and offering a challenging and satisfying musical experience. Rehearsals are held twice weekly. No audition is required.

MU161 CONCERT CHOIR II 1

Concert Choir II is a continuation of Concert Choir.

MU220 COOPERATIVE EDUCATION INTERNSHIP 1-6

See CA220.

* A lab fee will be assessed for these courses.

NURSING

NR110 HEALTH ASSESSMENT FOR NURSES....3

This course is designed to provide students with a basic understanding and working knowledge of health assessments to begin making clinical judgments. Opportunities are provided for students to demonstrate competencies of the individual across the life span. Emphasis is placed on the interview process and recognition of expected findings for history and physical examination of each system. Prerequisite: Anatomy & Physiology, Human Growth and Development, General Psychology, Intermediate Algebra or higher with a grade C or higher, and admission to the associate degree nursing program. NR111 taken concurrently or completed with an 80% (B) or higher.

***NR111 LIFESPAN NURSING I.....6**

This course is an introduction to the professional role of the nurse and nursing process. Foundational psychomotor skills, safe practice, and basic communication skills are taught to provide care to adults and older adults. Requisite lab and clinical experiences are part of this course. Prerequisite: Anatomy & Physiology, Human Growth and Development, General Psychology, Intermediate Algebra or higher with grade C or higher, and admission to the associate degree nursing program. NR110 taken concurrently or completed with an 80% (B) or higher.

***NR112 LIFESPAN NURSING II9**

This course is an introduction to the care of healthy families, health promotion, and patient centered care associated with common acute and chronic physical and psychosocial health alterations across the lifespan. Requisite lab and clinical experiences are part of this course. Prerequisite: Successful completion of Lifespan Nursing I and Health Assessment for Nurses with a grade of 80% (B) or higher.

Course Descriptions

*NR114 PHARMACOLOGY II.....2

This course focuses on nursing implications associated with pharmacologic therapy for patients across the lifespan experiencing acute and chronic health alterations. Prerequisite: NR110 and NR111 with a grade of 80% (B) or higher.

*NR115 PHARMACOLOGY III.....2

In this course students continue their study of pharmacology and nursing implications across the lifespan. Specific prototypes of selected drug classifications provide the framework for understanding the action, use, adverse effects and nursing implications of medications. The nurse's role in drug administration, assessment, and patient education are emphasized. Prerequisite: Pharmacology II with grade 80% (B) or higher or admission to the Nursing Program with Advanced Standing.

*NR210 LPN TO RN BRIDGE COURSE 1

This course focuses on professional standards, scope of practice, clinical reasoning and psychomotor skills for the Registered Nurse. Prerequisite: Completion of a practical nurse program, LPN licensure or candidate for licensure, admission to the ADN program, Anatomy and Physiology, Human Growth and Development, Intermediate Algebra, and Pathophysiology.

*NR211 LIFESPANNURSING III.....9

This course builds to provide care for patients with complex, acute and chronic, physical and psychosocial health problems. The concepts of prioritization and clinical judgment are incorporated to provide care for patients across the lifespan. Requisite lab and clinical experiences are part of this course. Prerequisite: Successful completion of Lifespan Nursing II, Pharmacology II with a grade 80% (B) or higher. (or) LPN licensure, LPN to ADN Bridge, Anatomy and Physiology, Human Growth and Development, General Psychology, English Composition I, Intermediate Algebra, Pathophysiology with a grade C or higher and admission to the ADN program.

*NR212 LIFESPANNURSING IV..... 9

This course addresses emergent and multisystem healthcare problems. It supports the transition of the student to the professional role of the nurse. Requisite lab and clinical experiences are part of this course. Prerequisite: Pharmacology III and Lifespan Nursing III with a grade 80% (B) or higher.

NR220 COOPERATIVE EDUCATION

INTERNSHIP..... 1-6
See CA220.

* A lab fee will be assessed for these courses.

PHYSICAL EDUCATION

PE101 TEAM SPORTS I.....1

Is designed to give the student an opportunity to participate in physical education activities of a team nature. Areas of interest includes, but are not limited to, soccer, men's basketball, women's basketball, volleyball, baseball, softball, and men's and women's track.

PE102 TEAM SPORTS II..... 1

Is designed to give the student an opportunity to participate in physical education activities of a team nature. Second semester activities are basketball, volleyball, and softball.

*PE107 BOWLING I..... 1

Is designed to teach the fundamentals of bowling to the beginner or to one who needs to improve his\her skill.

*PE108 ARCHERY..... 1

Is designed for students interested in the sport of archery. The course will teach the student fundamentals in archery skills and competition.

PE109 GOLF I 1

Is designed to teach the fundamentals of golf.

PE110 TOTAL FITNESS.....1

Is designed to bring about changes in the body as manifested by physical exercise. This course can be physically demanding, but very satisfying for those interested in improving their physical condition. Students will be informed on how to correctly use all of the equipment in the fitness center, and will have the opportunity to ask questions of the instructor or the fitness center staff member on duty when working out.

PE113 SOCIALDANCE I..... 1

Is a beginning course teaching basic steps such as fox-trot, waltz, polka, line dances, jitterbug, etc., and a knowledge of ballroom etiquette.

PE114 SOCIALDANCE II..... 1

Includes advanced ballroom dance steps. Learn steps to the hustle, cha cha, folk dancing, and variations of steps learned in Social Dance I. Prerequisite: Social Dance I.

PE118 AEROBICS 1

Is a course designed to achieve and maintain a persons total fitness. Total fitness is achieved through the development of strength, endurance, dedication, forming good attitudes and self-discipline.

Course Descriptions

PE119 WEIGHT TRAINING AND PHYSICAL FITNESS..... 1

Involves development of the muscular system as well as overall fitness. Includes explanation of muscular function and how to plan a conditioning program suited for an individual. This course is physically demanding, but very satisfying for those interested in improving their physical condition.

PE125 FITNESS FOR LIFE 1

The primary purpose of this course is to acquaint students with a basic knowledge, understanding and value of physical activity as related to optimal healthful living.

PE126 CHEERLEADING I..... 1

Is designed to teach the student the fundamentals of cheerleading. This is a first level cheer class. Students will learn beginning stunting including the preparation and practice of routines, weight conditioning programs, knowledge of personal health and self-motivation, as well as focusing on cheer techniques. Students will also learn cheer terminology, choreography, and other related topics. (With approval of Cheer Coach.)

PE127 CHEERLEADING II1

Is designed to teach the student the fundamentals of cheerleading. This is the second level of cheerleading. Students will be expected to be role models and help teach the advanced stunting to the first level students. This includes the preparation and practice of routines, weight conditioning programs, knowledge of personal health and self-motivation, as well as focusing on stunting techniques. Students will also learn stunting terminology, choreography, and other cheer related topics. (With approval of Cheer Coach.)

PE128 DANCE TEAM I.....1

Is designed to teach the student the fundamentals of dance. This is a first level dance class that will include the preparation and practice of routines, weight conditioning programs, knowledge of personal health and self-motivation, as well as focusing on jazz, hip hop, lyrical, and modern dance techniques. Students will also learn dance terminology, choreography, and other dance topics. (With approval of Dance Coach.)

PE129 DANCE TEAM II1

Is designed to teach the student the fundamentals of dance. This is a second level class where the students will be more involved with helping demonstrate techniques and will include the preparation and practice of routines, weight conditioning programs, knowledge of personal health and self-motivation, as well as focusing on jazz, hip hop, lyrical, and modern dance techniques. Students will also learn dance terminology, choreography, and other dance related topics. (With approval of Dance Coach.)

PE130 INTRODUCTION TO PHYSICAL EDUCATION.....3

Surveys the modern program of physical education, fitness and sport as to its history, philosophy, aims and objectives. It covers a broad scope of topics including personal fitness, scientific foundations, exploring careers professional development, coaching and athletics and social foundations.

***PE131 FIRST AID AND SAFETY.....3**

Acquaints the student with safety and first aid (treating injuries and sudden illnesses) in the home, school, and community. The National Safety Council first aid course and American Heart Association Heartsaver and Healthcare Provider courses are offered.

PE134 PERSONAL AND COMMUNITY HEALTH..... 3

The study of personal health and wellness of the individual. The course examines several areas of wellness to include the physical, psychological, social, intellectual, spiritual, and environmental dimensions. The student will assess him/herself in numerous areas of lifestyle (i.e. stress, physical fitness, nutrition, destructive behaviors, communicable diseases, chronic diseases) and examine ways to improve his/her health for the future.

PE135 CONCEPTS OF PHYSICAL EDUCATION...1

The primary purpose of this course is to acquaint students with a basic knowledge, understanding and value of physical activity as related to optimal healthful living. The course will include physical fitness assessment, exercise prescription, nutrition, weight management and stress management.

PE136 THEORY OF COACHING3

A comprehensive introduction to the art and science of coaching. This course introduces a positive coaching philosophy, the principles of coaching as digested from the fields of sport psychology, sport pedagogy, sport physiology, sport medicine, and sport management. This course includes American Sport Education Program Coaching Principles certification (K.S.H.S.A.A. - Level 1 certification)

PE137 INTRODUCTION TO RECREATION.....3

This course is designed to introduce the student to the nature, scope and history of recreation, leisure services, and outdoor education. It examines trends and issues of leisure studies and out-of-door recreation, and potential of these areas of service as a profession.

Course Descriptions

PE139 TECHNIQUES OF COACHING

BASKETBALL.....2

Is designed to provide coaches with the skills needed to organize and develop a quality basketball program. It will include basketball techniques, strategies, theories, philosophies of offense and defense, also organizational, administrative skills to handle parents, players, assistant coaches and school personnel. Class will consist of lectures, small group activity, videos, observations and gymnasium activity.

PE140 TECHNIQUES OF COACHING

VOLLEYBALL2

Is designed to provide coaches with the skills needed to organize and develop a quality volleyball program. It includes volleyball techniques and tactical strategies (offenses and defenses) of the game.

PE141 PERSONAL WELLNESS.....3

The study of personal health and wellness of the individual. The course examines several areas of wellness to include the physical, psychological, social, intellectual, spiritual, and environmental dimensions. The student will assess him/herself in numerous areas of lifestyle (i.e. stress, physical fitness, nutrition, destructive behaviors, communicable diseases, chronic diseases) and examine ways to improve his/her health for the future.

PE142 CYCLING..... 1

An introductory road cycling course. Emphasis will be placed on proper bicycle maintenance, riding technique, safety, and etiquette. The course is designed to provide students with an appreciation of cycling as a way to achieve personal health, fitness, or competitive goals. Mountain and cross bikes are welcome, but the majority of riding will be on pavement. This course can be physically demanding, but satisfying for those interested in improving their physical condition.

PE143 TOTAL FITNESS II..... 1

This class is designed to bring about continued changes in the body as manifested by increased amounts of physical exercise. This course is physically demanding, but very satisfying for those interested in continuing to improve their physical condition. Prerequisite: Total Fitness.

*PE144 ARCHERY II.....1

This class is designed for students interested in the sport of archery. This course is designed to teach the student more advanced archery skills and levels of competition.

PE146 CONCEPTS OF TEAM SPORTS.....3

This course is to provide learning experiences that will lead to the development of basic skills in team sports. In addition to skill acquisition, the course will focus on how to plan, implement, and explain the different sports/activities that are presented. An emphasis will be placed on the use of the game stages and movement framework as a guide for designing a variety of sport game experiences. Students will be expected to achieve an intermediate level of skill in the selected team sports. Practice outside of class time may be necessary for some students to achieve the expected performance level.

PE148 INTRODUCTION TO SPORTS MANAGEMENT... 3

Introduction to the discipline of sports management and its vast array of career opportunities. Successful management is required in all segments of the sport industry whether professional or amateur, private or public, school-related or club, community or national, and all levels of competition.

PE150 BASIC CARE AND PREVENTION OF ATHLETIC INJURIES I.....3

Is designed for students interested in the prevention and care of athletic injuries. Basic principles of all aspects of athletic training are covered. Through lectures on specific injuries and practical lab experiences, the student will learn how to recognize and care for common athletic injuries. This course is open to all students, it is a first semester requirement for students in the Athletic Training Program.

PE151 BASIC CARE AND PREVENTION OF ATHLETIC INJURIES II.....3

This course is designed for students interested in the evaluation, treatment, and rehabilitation of upper extremity athletic injuries. The anatomy involved in specific injuries that commonly occur in athletics and evaluation techniques will be emphasized. The use of therapeutics modalities and rehabilitation exercises for athletic injuries will be presented. Through lectures on specific injuries and practical lab experiences the student will learn about basic athletic training. This course is open to all students. This course is a second semester requirement for students in the Athletic Training program. Prerequisite: Basic Care & Prevention of Athletic Injuries I with passing grade or consent of instructor.

PE155 RECOGNITION & CARE OF ATHLETIC INJURIES3

This course will acquaint the student with the first-response recognition, evaluation and treatment techniques for more than 110 sport related injuries and illnesses. It will cover treatment of injuries and illness, injury prevention, as well as cardiopulmonary resuscitation (CPR) for young adults. This course includes American Sport Education Program Sport First Aid Certification (K.S.H.S.A.A. - Level 2 certification).

PE156 PRINCIPLES OF STRENGTH & CONDITIONING.....2

This course is designed to provide students with the theoretical and practical knowledge of the physiological, biomechanical and administrative aspects of designing and supervising safe and effective strength and conditioning programs for youth through adult populations.

PE160 VARSITY SPORTS: BASEBALL 1

A sport for baseball players. It begins the first day of classes for the fall semester and ends with the regional and national baseball tournaments in May. Baseball consists of skill development, intended to produce a competitive baseball team, in pitching, fielding and hitting skills.

PE161 VARSITY SPORTS: BASKETBALL.....1

A sport for basketball players. Practice begins the first of October and concludes in March. Preseason conditioning starts four weeks preceding regular practice. Players will practice six days a week and play approximately 30 regular season games.

Course Descriptions

PE162 VARSITY SPORTS: TRACK.....1

A sport for track and field athletes. Athletes are expected to participate in all practices and meets scheduled by the coach.

PE164 VARSITY SPORTS: SOCCER.....1

A sport for varsity soccer players. It begins two weeks prior to the fall semester and its conclusion coincides with the end of the spring semester. Soccer consists of a number of daily activities to include practice for skill and fitness development, study hall, and attendance checks all of which are designed to promote the success of the student athletes involved.

PE165 VARSITY SPORTS: SOFTBALL...1

A sport for softball players, which includes Fall and Spring Semester participation. Softball consists of daily practices and a schedule of approximately 20 games in the Fall and 50 games in the Spring.

PE167 VARSITY SPORTS: CROSS COUNTRY1

A sport for distance runners. It begins in August or at the start of the Fall Semester and ends with the National Championship in November. Cross country consists of a variety of hill, road and track workouts to better develop the cardiovascular system.

PE168 VARSITY SPORTS: VOLLEYBALL.....1

This class is designed to bring about changes in the body as manifested by physical exercise. This course can be physically demanding, but very satisfying for those interested in improving their physical condition. Students will be informed on how to correctly play the game of volleyball, and will have numerous opportunities to play the game as well. Also students will be provided the opportunity to ask questions of the instructor training or competing.

PE169 VARSITY SPORTS: WRESTLING.....1

A sport for wrestlers. The course begins the first day of classes for the fall semester and ends with the regional wrestling tournaments in February. Wrestling consists of skill development intended to produce a nationally competitive NJCAA wrestling program in all aspects.

PE185 VARSITY SPORTS: BASKETBALL II.....1

Students will comprehend and demonstrate the fundamental skills of shooting, passing, dribbling, and rebounding the basketball. Students will learn to analyze and demonstrate these skills within a competitive environment. This course is a continuation of Varsity Sports: Basketball.

PE220 COOPERATIVE EDUCATION INTERNSHIP 1-6

See CA220.

PE250 STRESS MANAGEMENT.....3

This course will study the mind-body relationship and the psychophysiology of stress including the relationship of the stress reaction to specific illnesses and disease. The course will cover an understanding of the basic principles of stress management through coping skills, the study of the mind-body relationship in stress management, cognitive reappraisal of daily life stressors, and techniques to deal with these stressors. The cognitive strategies and relaxation techniques are cornerstones for optimal health and can help one manage stressors in a healthful and productive manner.

* A lab fee will be assessed for these courses.

PHILOSOPHY

PH100 ▶INTRODUCTION TO PHILOSOPHY.....3

Is a survey course designed to increase the student's understanding of their own ideas, the ideas of philosophers, and the ideas of their fellow students. Topics covered include: logic, epistemology, ethics, pragmatism, and existentialism.

PH101 ▶INTRODUCTION TO CRITICAL THINKING.....3

Is designed to help students recognize inaccurate and fallacious reasoning and identify and practice good thinking. Students will apply the standards of good reasoning to traditional and contemporary ethical, social, economic and political problems.

PH105 ▶CHRISTIAN ETHICS IN OUR CONTEMPORARY SOCIETY.....3

Traditional ethical theories are discussed, with reference to Plato, Aristotle, Bentham, Mill, Kant and John Rawls. The nature of ethics is clarified in terms of how science and philosophy differ in their approaches to moral behavior. Biblical ethics of both Old and New Testaments are examined and compared to traditional social and moral issues. Moral problems and social issues such as abortion, capital punishment, business practices, sexuality, world hunger, pornography and war are studied from various viewpoints.

PHOTOGRAPHY

***PT101 PHOTOGRAPHY I.....3**

Is a beginning course emphasizing types and basic construction of the camera, elements of good picture taking and the use of the darkroom. (Dual listed with art)

***PT102 PHOTOGRAPHY II.....3**

Is a continuation of Photography I with emphasis on picture taking and darkroom procedure. Prerequisite: Photography I or permission by instructor. (Dual listed with art)

PT229 ADVANCED DIGITAL IMAGING3

Advanced work in Digital Photography to develop an understanding of advanced photographic techniques and computer assisted image manipulation. This course will include, but not be limited to, the following topics; advanced camera functions, advanced digital image processing, visualization and design skills, and digital manipulation techniques needed in today's market place. Students will have

Course Descriptions

opportunities to create portfolio pieces.
* A lab fee will be assessed for these courses.

RELIGION

RE102 CONTEMPORARY CHRISTIAN THOUGHT.....2

Is directed to the innovators of contemporary religious thinking, the secularizers and to the existentialists' movements. Such theologians as Barth, Niebuhr, Brunner, Bonhoeffer, Chadin, Kierkegaard, Marcel, Bullman, Bubet and others are considered. The newsworthy theological opinion-makers are presented.

RE103 RELIGION IN CONTEMPORARY AMERICA.....3

Is an analysis of current American religious bodies in contemporary history. Consideration of both the more traditional bodies and the more recent arrivals will be evaluated. This course, as an analysis of current American religious denominations and the social and political dynamics that they have made on American society. We will use the time frames of the decades of 1955-64, 1965-84, and 1985-94. Consideration will be given to the more traditional denominational bodies along with nontraditional that have become a part of the religious scene in America in recent history.

RE104 WORLD RELIGIONS3

Discusses religions of mankind set in historical perspective. The course will focus upon the basic teachings of each of the major religions of the world, their founders, geographic distribution and importance in the theological world.

SCIENCE

*SC100 SURVEY OF SCIENCE3

This course is intended to familiarize the student with the methods of scientific discovery and investigation. Students will study phenomena in a variety of scientific fields to become familiar with the scientific process used for explaining phenomena. Students will also become aware of the effects of science on nature and society. This course includes three hours lecture time.

*SC101 GENERAL BIOLOGY +4

Engages the non-biology major in explorations of the unity and diversity of organisms with particular attention devoted to the commonalities. Students are involved in various investigative simulations and extended laboratory activities. Study begins with the chemical foundation of life and culminates with interactions between organisms and environment. This course combines three hours lecture and one and one-half hours of laboratory time.

*SC103 PHYSICAL SCIENCE +5

Is a study of man's physical world emphasizing fundamental universal laws and their implications in modern living through observations and analysis of sensible data. This study may include (but is not limited to) topics in the following areas: astronomy, chemistry, geology, meteorology, and physics.

This course combines three hours of lecture and three hours of laboratory time. Prerequisite: Elementary Algebra with a C or better or appropriate Accuplacer/ACT scores.

*SC104 GEOLOGY +.....4

This course provides a study of the basic landforms and geological processes. Topics include Earth structure and composition, erosional and depositional processes, minerals and rocks, stream flow, glaciation, plate tectonics, and groundwater. This course includes three hours lecture and one and one-half hours laboratory time.

*SC105 GENERAL ASTRONOMY+.....4

This course is an introduction to space science designed to acquaint students with the history of astronomy, the universe, the solar system, the Sun and other stars, the evolution and properties of celestial bodies, and astronomical phenomena. This course includes three hours lecture and one and one-half hours laboratory time.

*SC107 METEOROLOGY+.....4

This course introduces the nature, origin, processes, and dynamics of the Earth's atmospheric environment. Content will focus on: (1) weather systems and processes, (2) seasonal trends, (3) atmospheric circulation, pressure, and moisture, (4) storm development, (5) air pollution, and (6) anthropogenic influences on weather and climate. This course includes three hours lecture and one and one-half hours laboratory time.

*SC109 APPLIED PHYSICS 3

The applied physics course is designed to teach the basic concepts of physics, while applying them to practical situations and situations pertaining to wind energy and wind energy generation. Students will use a hands-on approach to study the concepts of force, work, rate, resistance and energy as related to mechanical, fluid, electrical, and thermal systems. Corequisite: Intermediate Algebra, or appropriate ACT/Accuplacer scorer, or Successful completion of a higher level mathematics class.

*SC110 PRINCIPLES OF BIOLOGY I +5

Is a combined lecture and laboratory course for students planning to choose biological sciences as major and take additional courses in biology. Covers contents of basic biochemistry, cell structure and function, molecular biology, and genetics, integrated in an evolutionary perspective. Meets three hours of lecture and three hours of laboratory per week. Equivalent to Biology I for Majors with Lab approved by Kansas Board of Regents for system-wide transfer.

SC111 MICROBIOLOGY LECTURE..... 3

Is a study of microorganisms with emphasis on bacteria including fundamentals of their morphology, physiology, genetics and relationship to health and disease. (This is a three-hour lecture only class. No lab is included. Students wishing to take Microbiology Lab will also need to enroll in SC112.) Prerequisite: A college level biological science course with a C or better.

Course Descriptions

***SC112 MICROBIOLOGY LAB +.....2**

Is an extended weekly time period during which students are given the opportunity to demonstrate via specific laboratory procedures, principles of microbial structure, function, and the relationship of microbes to health and disease. This course includes three hours laboratory time. Prerequisite: Microbiology Lecture (SC111) or concurrent enrollment.

***SC115 GEOLOGY LAB +1**

This lab is intended as a hands-on approach to learning Earth materials and geological processes. Experiments will include: (1) using the scientific method and science tools to interpret geologic data, (2) examining the cause and effects of geologic hazards, (3) identifying rocks and minerals, (4) simulating stream and coastal processes, (5) assessing groundwater pollution, (6) analyzing geologic maps, and (7) interpreting the geologic history of the Great Plains. This course includes one and one-half hours laboratory time. Prerequisite: Previous credit in Geology lecture and approval from instructor

***SC116 METEOROLOGY LAB +1**

This lab is a hands-on study of atmospheric processes. Students will apply the scientific method to learn the reason for seasons and the causes of precipitation, weather hazards (tornadoes and hurricanes), atmospheric phenomena (mirages, halos, and rainbows), air pollution, and climate change. This course includes one and one-half hours laboratory time. Prerequisite: Previous credit in Meteorology lecture and approval from instructor.

***SC117 GENERAL BIOLOGY LAB + 1**

This is a laboratory class that is an opportunity for an extended weekly time period during which students are given the opportunity to demonstrate via specific laboratory procedures, principles of scientific method, cellular biology, enzymatic functions, diversity, evolution, and ecology. This course includes one and one-half hours laboratory time. Prerequisite: Previous credit in Biology lecture and approval from instructor.

***SC120 HUMAN ANATOMY & PHYSIOLOGY I +...4**

Is an introduction to the basic concepts of biochemistry, cytology, histology, and cellular physiology that relate to all tissues, organs and organ systems of the human body. This will include the following organ systems: integumentary, skeletal, muscular, and neural. This course includes three hours of lecture and one and one-half hours of laboratory time.

***SC121 HUMAN ANATOMY & PHYSIOLOGY II + ..4**

Is a continuation of topics introduced in Human Anatomy and Physiology I as related to the following organ systems: cardiovascular, respiratory, gastrointestinal, excretory, endocrine, and reproductive. This course includes three hours of lecture and one and one-half hours of laboratory time. Prerequisite: Completion of or concurrent enrollment in Human Anatomy and Physiology I.

***SC125 HUMAN BODY DISSECTION +..... 1**

Is designed to give the more advanced student an opportunity for hands-on dissection experience with a human cadaver. This course includes one and one-half hours of laboratory time. Prerequisite: Completion of or concurrent enrollment in Human Anatomy & Physiology I.

***SC126 ANATOMY AND PHYSIOLOGY +....5**

Anatomy and Physiology is an introduction to the basic concepts of biochemistry, cytology, histology, and cellular physiology that relate to all tissues, organs and organ systems of the human body. It will include the following organ systems: integumentary, skeletal, muscular, neural, senses, endocrine, circulatory, respiratory, urinary, digestive, and reproductive. This course includes three hours of lecture and three hours of laboratory time.

*** SC128 PATHOPHYSIOLOGY.....4**

Focuses on pathophysiologic concepts related to the functional and structural changes that accompany disease processes and the application of basic concepts to body systems and selected disease processes. Etiologies, signs, symptoms, courses, and complications of common diseases of the following organ systems are included: neurologic, endocrine, reproductive, hematologic, cardiovascular, lymphatic, pulmonary, renal and urologic, digestive, musculoskeletal, and integumentary. This course is a four hour lecture class. This course has no lab. Prerequisite: SC126 Anatomy and Physiology or SC120 Human Anatomy and Physiology I and SC121 Human Anatomy and Physiology II.

***SC129 INTRODUCTION TO CHEMISTRY.....1**

Engages the student in an overview of chemical concepts related to content in the biological sciences. Particular attention is devoted to chemical structure, chemical interactions and the chemical composition of cells as students acquire a fundamental understanding of the chemical foundation of life.

***SC130 GENERAL CHEMISTRY +5**

Is an introductory course that assumes no previous experience with chemistry. The course includes a basic overview of inorganic, organic and biochemistry. This course includes three hour lecture and three hours laboratory time. Prerequisite: Elementary Algebra with a "C" or better or an appropriate ACT/Accuplacer math score.

***SC131 CHEMISTRY I + 5**

Is an introductory course designed for engineering, allied health and science majors. Fundamental laws of chemistry, atomic theory and structure, chemical calculations, chemical bonding, gases and the kinetic molecular theory, chemical kinetics, acids, bases, and salts are covered in this course. This course includes three hours lecture and three hours laboratory time. Prerequisite: Intermediate Algebra with a "C" or better or appropriate ACT/Accuplacer scores.

***SC132 CHEMISTRY II + 5**

This course will focus on the following topics: properties of solids and solutions, chemical kinetics, chemical equilibrium and applications, acids and bases, spontaneity, entropy, and free energy, thermochemistry, and an overview of organic and biochemistry. This course includes three hours lecture and three hours laboratory time. Prerequisite: Chemistry I with a C or better.

Course Descriptions

***SC134 ORGANIC CHEMISTRY I +5**

Is a study of the general principles of organic chemistry with emphasis on the major types of aliphatic compounds; and introduction to aromatic compounds; spectroscopy and certain biochemically important compounds. This course is designed to meet the needs of students requiring either one semester of organic chemistry or the two semester sequence. This course includes three hours lecture and three hours laboratory time. Prerequisite: Chemistry I and Chemistry II with a C or better.

***SC135 ORGANIC CHEMISTRY II +5**

Will be a continuation of Organic Chemistry I. Areas of study will include organic reactions, reaction-specific reagents, mechanisms for reactions, a continued look at functional groups and their nomenclature, and an introduction to biochemical molecules. Concepts learned in the classroom will be applied in the laboratory. This course includes three hours lecture and three hours laboratory time. Prerequisite: Organic Chemistry I with a C or better.

SC137 NATURAL HAZARDS AND DISASTERS.....3

This course will examine the physical mechanisms that create natural hazards and disasters, explore the geographic distribution of disasters around the globe, and address how humans mitigate against and respond to them. Topics to be covered include tornadoes, earthquakes, tsunamis, volcanoes, floods, hurricanes, heat waves, and droughts, as well as some lesser-known and larger scale phenomena such as the El Nino/La Nina cycle, meteorite impacts, and global climate change. This course includes three hours lecture. This course has no lab. Students wishing to take Natural Hazards and Disasters Lab must enroll in SC138.

***SC138 NATURAL HAZARDS AND DISASTERS LAB + 1**

This lab will examine the physical mechanisms that create natural hazards and disasters, explore the geographic distribution of disasters around the globe, and address how humans mitigate against and respond to them. Topics to be covered include tornadoes, earthquakes, tsunamis, volcanoes, floods, hurricanes, heat waves, and droughts, as well as some lesser-known and larger scale phenomena such as El Nino/La Nina cycle, meteorite impacts, and global climate change. This course includes one and one-half hour lab time. Prerequisite: Previous or concurrent enrollment in SC137.

***SC140 COLLEGE PHYSICS I +5**

Is an introductory course covering the general topics of mechanics, static, and dynamic forces, energy, momentum and simple harmonic motion. Depending on the time and level of class preparation other material may be covered during the first semester, particularly heat and thermodynamics. College Physics I is recommended for majors in science and allied health. This course includes three hours lecture and three hours laboratory time. Prerequisite: College Algebra and College Trigonometry with a "C" or better or appropriate ACT/Accuplacer scores.

***SC141 COLLEGE PHYSICS II +.....5**

Is the second half of introductory physics covering the general topics of heat, sound, electricity, light, and modern physics. College Physics II is recommended for majors in science and allied health. This course includes three hours lecture and three hours laboratory time. Prerequisite: College Physics I with a C or better.

***SC142 UNIVERSITY PHYSICS I +.....5**

Is an introductory course covering the general topics of mechanics and heat and is recommended for majors in science and engineering. Extended laboratory are required as this course combines three hours of lecture and three hours of laboratory time. Co-requisite: Analytic Geometry and Calculus I.

***SC143 UNIVERSITY PHYSICS II +.....5**

Is the second half of introductory physics covering the general topics of sound, electricity, light, and modern physics. University Physics II is recommended for majors in science and engineering. This course includes three hours lecture and three hours laboratory time. Prerequisite: University Physics I with a "C" or better.

SC146 ENVIRONMENTAL SCIENCE AND CONSERVATION.....3

An interdisciplinary study from the perspective of Environmental Science. This course will examine the use of natural resources across the planet, with emphases on conservation, resource management, and significant human impacts on natural systems. Major topics covered include an introduction to Earth systems science and environmental science; agriculture, soils, biotechnology, and the production of food; the atmosphere, pollution, and climate change; the hydrosphere, water quality, and aquaculture; biodiversity, ecosystems and environmental ecology; natural resource extraction, the production of energy; and sustainable solutions. Special attention will be given to analyzing these topics in light of current events and governmental policy at the local, state, and federal levels. This course includes three hours lecture. This course has no lab. Students wishing to take Environmental Science and Conservation Lab must enroll in SC147.

***SC147 ENVIRONMENTAL SCIENCE AND CONSERVATION LAB +...1**

An interdisciplinary study from the perspective of Environmental Science. This course will examine the use of natural resources across the planet, with emphases on conservation, resource management, and significant human impacts on natural systems. Major topics covered include an introduction to Earth systems science and environmental science; agriculture, soils, biotechnology, and the production of food; the atmosphere, pollution, and climate change; the hydrosphere, water quality, and aquaculture; biodiversity, ecosystems and environmental ecology; natural resource extraction, the production of energy; sustainable solutions. Lab work will consist of observation and demonstration,

Course Descriptions

experimentation with such materials as soil, water quality testing kits, and lab report writing; topics as described above. This course includes one and one-half hours of laboratory time.

SC151 PRINCIPLES OF BIOLOGY II +.....5

A combined lecture and laboratory course for students planning to choose majors of biological sciences and take additional courses in biology. Covers contents of basic plant and animal morphology and physiology, biodiversity and phylogeny, population genetics, and principles of evolution and ecology. Meets three hours of lecture and three hours of laboratory per week. Equivalent to Biology II for Majors with Lab approved by Kansas Board of Regents for system-wide transfer.

SC199 GENERAL ZOOLOGY +4

In this class, students are given the opportunity to demonstrate an understanding of each Phyla of the Kingdom Animalia. Students must determine characteristics of the Phyla based on morphological, reproductive, behavioral, and ecological differences enhancing an understanding of the diversity of species in the animal kingdom. Students will have to understand the classification system and utilize taxonomy to differentiate organisms. In the laboratory, light microscopy and dissection will be utilized to determine structural and morphological characteristics in conjunction with an ability for identification. This course includes three hours of lecture and one and one-half hours of laboratory time. Prerequisite: Principles of Biology I.

SC220 COOPERATIVE EDUCATION INTERNSHIP 1-6

See CA220.

* A lab fee will be assessed for these courses.
+These courses are considered lab courses.

SOCIAL SCIENCE

SS099 PERSONAL ASSESSMENT AND PLANNING1

Allows students to assess their skills, aptitudes, interests, and values. It helps students: 1) determine what obstacles are interfering with their learning, 2) devise a plan to overcome these obstacles, and 3) gain the self-confidence and self-determination necessary for college success. All students with academic probation status are required to enroll in this course. Students may not drop or withdraw from this course without prior approval from the Vice-President of Academic Affairs.

SS100 COLLEGE SKILLS AND RESOURCES 1

Familiarizes incoming Cloud students with the campus, its facilities, procedures and regulations. Students are assisted in 1) defining their educational goals, 2) identifying courses and experiences that can help fulfill their goals and 3) accessing the support services necessary to achieve their goals. Required for first-time college students enrolled in nine or more credit hours.

SS101 GENERAL PSYCHOLOGY.....3

A survey of methods, facts, and principles relating to basic psychological processes. Major topic areas include neural bases of behavior, learning and motivation, psychosocial development and abnormal psychology, human cognition, cognitive development, individual differences and social psychology. The classroom lab activities provide experience with methods of research and data collection.

SS102 ABNORMAL PSYCHOLOGY.....3

Presents an overview of deviant behavior study, the concept of differential diagnosis categories of deviant behavior, an overview of the major theoretical models explaining deviant behavior and a discussion of major psychological and psychiatric models for treating and modifying deviant behavior.

SS103 SOCIAL PSYCHOLOGY.....3

Is an introduction to the discipline that utilizes the scientific method to attempt to understand and explain how the individual's behavior, thoughts, and feelings are influenced by the actual, imagined or implied presence of others. Analysis of the self, culture and gender will be given special emphasis in regard to their direct and indirect influence upon human behavior.

SS105 HUMAN GROWTH AND DEVELOPMENT 3

This course is a study of the self and steps which lead to psychological maturity. The class will include an analysis of our culture in relationship to the needs for personal growth and will study the individual from conception through death. The course will cover physical, mental, and cultural needs for a rich and satisfying life.

SS106 MARRIAGE AND FAMILY 3

Is a study of mate selection, marriage, and the family from the psychological, sociological, biological, and developmental points of view. Included are the relationship of values to marriage, sex roles, dating and engagement, family planning, parenthood, family economics, communication and marital growth and fulfillment, and death in the family.

SS107 HUMAN SEXUALITY..... 3

Is an introductory course focusing on the biological, psychological, social and legal aspects of human sexuality with the major emphasis on the development of wholesome attitudes toward the masculine and/or feminine elements of one's unique development.

SS113 HUMAN RELATIONS 3

Is an experience-oriented class which is designed to assist persons to focus upon themselves and others. Utilizing group interaction and discussion, emphasis is placed upon the development of listening and communication skills, conflict management, personal and interpersonal awareness, goal setting, and effective time management.

Course Descriptions

SS125 INTRODUCTION TO CULTURAL ANTHROPOLOGY.....3

Is designed to introduce students to the extraordinary diversity of human cultures. This variation is viewed as a reflection of each society's continuing need to adapt successfully to local, social and environmental conditions. While the course focuses chiefly upon primitive and non-industrialized societies today (i.e., those living in the "ethnographic present"), past cultures are also surveyed from the perspectives of physical anthropology and archaeology.

SS127 CHILD PSYCHOLOGY.....3

Child psychology is designed to cover the developmental aspects of physical, neurological, cognitive, psychosocial and personality development of the child from conception through adolescence. Research methods and genetic, behavioral and environmental theory will be included. This course will explore current impacts on behavior and development.

SS129 INTRODUCTION TO SOCIAL WORK.....3

This course aims to assist students gain knowledge about the nature of social work practice including its values, ethics, roles and activities; understand some of the differences between conventional and progressive approaches to social work; understand more about themselves in regard to social work; and gain familiarity with the work done by social workers in the community and the world.

SS130 INTRODUCTION TO SOCIOLOGY...3

Is designed as an introduction to the study of the structure and function of human groups, particularly those which occur in contemporary industrialized cultures. The relationships between the individual and his society, culture and society, and the social dynamics of institutions are investigated.

SS131 RACE AND ETHNIC RELATIONS IN THE UNITED STATES.....3

This course seeks to expose students to historical and contemporary issues related to diversity, race, and ethnicity in the United States. The course will utilize different sociological perspectives to critically analyze racial and ethnic relations. The course will highlight concepts such as power, oppression, stereotypes, inequality, prejudice, and social stratification. The course examines social policy as it relates

SS140 U.S. GOVERNMENT: NATIONAL.....3

Is an introduction to the structure and function of the United States Government and the political behavior of the American people.

SS141 U.S. GOVERNMENT: STATE AND LOCAL.....3

Is a study of the structure and function of state and local governments with special attention given to the governments in Kansas.

SS142 CURRENT POLITICAL ISSUES....3

An introduction to contemporary political issues and the problems that concern American society. This course will look at current events that are shaping current political policy at the local, state and national levels.

SS150 INTRODUCTION TO INTERNATIONAL RELATIONS.....3

This course focuses on concepts and patterns of political behavior within societies, and the reasons behind these patterns. The aim of this course is to furnish students with the intellectual tools to understand the future, as well as current events in their society and around the globe.

SS201 SOCIAL PROBLEMS.....3

This course involves the application of sociological concepts and principles to the description and critical analysis of major social problems of modern societies. A founding assumption to this course is that it is crucial for people to be able to subject their own society to scrutiny in order to arrive at intelligent assessments of particular social problems. It is equally important that people understand the general patterns of societal development that often cause or aggravate these problems. Within this framework, this course will examine various problems including those of wealth and poverty, class stratification, race and ethnicity, crime and deviance, gender, and problems of our consumersociety.

SS220 COOPERATIVE EDUCATION INTERNSHIP.....1-6

See CA220.

* A lab fee will be assessed for these courses.

SOLAR ENERGY

***SE100 INTRODUCTION TO SOLAR ENERGY3**

Introduction to Solar Energy students will be exposed to many facets of the solar industry. This course will cover basic principles of solar energy conversion. The solar industry worldwide is growing every year and the cost of the energy has been declining because of the efficiency of new technologies. Class topics will not only cover the mechanical, technical, and electrical aspects of solar energy but also environmental, social, political and economic aspects of solar energy.

***SE101 SOLAR ENERGY FUNDAMENTALS.....3**

Solar Energy Fundamentals will cover the solar industry, composition of PV systems, basic terminology for the industry, importance of the sun's insolation, and the effects of solar shading. The course will also examine the specifics of a panel at the component level and the importance of panel selection.

Course Descriptions

***SE102 SOLAR ENERGY DESIGN3**

Solar Energy Design students will learn real world knowledge, experience, and understanding of solar photovoltaic and solar power systems. This course will cover designing, estimation, bidding, submitting, permitting, building, and passing inspections of PV systems.

***SE103 SOLAR ENERGY OPERATIONS & MAINTENANCE..... 3**

Solar Energy Operations and Maintenance course will cover analyzing results of test tools used during commissioning, performance evaluations, operations, maintenance, and troubleshooting. Tools include insulation resistance testing, IV curve tracing, infra-red cameras, and thermal imaging. Students will learn the proper set-up, use, and function of the tools and the proper ways to evaluate the system. The course will also include the proper ways to troubleshoot and locate common faults of PV systems using tools and methods.

***SE201 ADVANCED SOLAR ENERGY DESIGN3**

Solar Energy Advanced System students will be exposed to the specific techniques in design of a solar project. This course will cover customer expectations and characteristics specific to a site. Class topics will also cover the mechanical, technical, and electrical design requirements of solar PV systems.

***SE202 ADVANCED SOLAR ENERGY INSTALLATION3**

Solar Energy Advanced Installation will cover all aspects of the installation of a solar PV project. The course will explore the safety requirements of the solar industry and hazards associated. It will also cover the proper regulations and methods required by the NEC and other governing bodies.

***SE203 SOLAR ENERGY SYSTEM COMMISSIONING3**

Solar Energy System Commissioning students will learn the proper procedures in commissioning of a solar PV system. This course will cover equipment use, proper inspection, conducting proper tests, and verification of proper system operation.

***SE204 SOLAR ENERGY ADVANCED OPERATIONS & MAINTENANCE3**

Solar Energy Advanced Operations and Maintenance course will learn methods for verifying system operation and performance in order to diagnose and correct problems. Students will perform preventative maintenance on PV systems in real life situations and determine corrective actions to take.

*** A lab fee will be assessed for these courses.**

UNMANNED AIRCRAFT SYSTEMS

***UA100 INTRODUCTION TO SUAS.....3**

This course is an introduction to Unmanned Aerial Systems. It will cover the safety requirements to operate in the National Air Space in the United States. It will also evaluate the role of the FAA and local laws which govern the operation of UAV's. Other organizations which work to keep citizens and operators safe and efficient in their operation of UAV's will also be introduced. Through the course, the different types of drones and applications in today's world will be explored.

***UA201 SUAS COMMAND, CONTROL, & COMMUNICATIONS.....3**

Command, Control, and Communications will be covered as it relates to the team operation of a UAS. Students will learn the various types of systems and controls required to operate a UAV in the National Air Space. They will learn the devices needed and the reliability of the differing technologies for safe and effective flight. Both hardware components and software control solutions will be covered.

***UA210 SUAS SYSTEMS AND CONCEPTUAL DESIGN.....3**

This course will introduce the components required for remote controlled flight by a multi-rotor vehicle. Within the course the structural pieces of the UAV will be constructed by 3D printer techniques and all components which cannot be printed will be added to the design with a finished flying UAV by the end of the course. Through this process students will learn the various laws of physics and construction and repair techniques to create an air-worthy multi-copter.

WIND ENERGY

***WE100 INTRODUCTION TO WIND ENERGY 3**

Students will be exposed to the many facets of the wind industry. This course will cover basic principles of wind energy conversion. The wind industry worldwide is growing faster than any other energy source. Class topics will not only cover the mechanical, technical, and electrical aspects of wind energy but also environmental, social, political and economic aspects of wind energy.

***WE102 ENERGY INDUSTRY FUNDAMENTALS3**

Energy Industry Fundamentals provides a broad understanding of the electric and natural gas utility industry and the energy generation, transmission, and distribution infrastructure, commonly called the "largest machine in the world," which forms the backbone for the industry. The course includes business models, regulations, types of energy and their conversion to useable energy such as electric power, how generated power is transmitted and distributed to the point of use, emerging technologies, and the connection to careers in the energy industry.

Course Descriptions

***WE105 EMPLOYABILITY SKILLS, SAFETY, BLUEPRINT READING.....3**

A course designed specifically for the wind energy students. Each of the course's topics will be presented for approximately a third of the semester. Employability Skills will provide the student with lifelong career planning skills and employability skills necessary to secure a career in the wind industry. Safety will cover the necessary topics of OSHA safety training in the electrical industry. Blueprint Reading will provide the student with communication skills in the areas of reading blueprints for development, construction, operation, maintenance, and electrical power systems.

***WE110 ELECTRICAL THEORY.....3**

Students will be exposed to many facets of electrical energy. This course will cover basic electrical circuit information such as voltage, current, resistance, series circuits, parallel circuits, combination circuits, conductors, insulators, electrical power, sources of electrical energy, magnetism, meters, AC/DC current, and other topics that are appropriate.

***WE120 HYDRAULICS.....3**

Hydraulics is a study dealing with the mechanical properties of liquids. Hydraulic topics cover concepts such as hydraulic pumps, actuators, accumulators, cylinders, control valves, check valves, flow control valves, directional control valves, pressure control valves, motors, filters, coolers, and reservoirs.

***WE130 WIND PUBLIC/LANDOWNER RELATIONS.....3**

Educating the public and/or landowners on the advantages and disadvantages of wind energy is a necessary step in the development of a wind project. Information on economic and environmental issues will be necessary from the initial development period to the completion of the wind project. Students will learn how to answer the Myth vs. Fact questions concerning wind farm development. Procedures for obtaining the proper permits and access rights to enter property to assess the wind resource will be addressed. Additionally, students will learn about setback constraints, archaeological restrictions, aviation obstruction marking requirements, and other organizational and governmental regulations affecting wind power project development.

***WE150 MECHANICAL SYSTEMS.....3**

Mechanical Systems will expose the wind energy students to the installation, use, maintenance, and troubleshooting of mechanical drive components. This course will cover basic principles of wind energy mechanical systems with practical hands-on tasks which will be encountered in the wind industry.

***WE202 ELECTRICAL POWER DELIVERY.....3**

This course will cover the entire scope of electric power delivery from generation to transmission and distribution to electrical loads. Students will learn about the generation systems that convert resources into electrical power. Underground and overhead transmission cables, distribution lines, and substations will be studied. The students will also learn about the interconnection of electrical energy into the electrical grid, and how it is distributed throughout the grid to electrical loads. General transformer function and operation will be discussed, as well as protective relaying and circuit breaker types. A combination of site visits to operating generation plants, substations, and electric utility companies will reinforce the classroom material.

***WE205 WIND BUSINESS.....3**

Wind Business is designed to learn about topics in business as they apply to the wind industry. Students will become familiar with different manufacturers of wind turbines, warranties, and service agreements. Knowledge of the supply and demand of wind equipment is necessary when developing a wind project. Students will learn about dispatchable and non-dispatchable resources, why curtailment is sometimes necessary, and capacity factor. Information related to the construction process of a wind farm will be included in this course.

***WE210 ELECTRONICS.....3**

The study of the flow of charge through various electrical devices and the transmission of power and information. This course will cover principles of the electronics fields which will be necessary to understand how electronic components are used to make complex electrical systems. These electrical systems are the backbone of the electrical energy industry. Prerequisite: Electrical Theory with a C or better. Students must be admitted to the Wind Energy Technology Program or permission of the Department Chair to enroll in this course.

***WE215 ELECTRICAL SYSTEM PROTECTION AND COORDINATION3**

Students will learn how circuit breakers and fuses are employed to ensure optimal system protection from system faults and overload conditions. Proper installation and operation of switching mechanisms, fuses, and single-phase and three-phase circuit breakers and reclosers will be covered through lecture and hands-on experience. Protective relaying, sectionalizing, and remote monitoring and control through SCADA systems will also be covered. Students must be admitted to the Wind Energy Technology Program or permission of the Department Chair to enroll in this course.

WE220 COOPERATIVE EDUCATION INTERNSHIP.....1-6

See CA220. Students must be admitted to the Wind Energy Technology Program or permission of the Department Chair to enroll in this course.

Course Descriptions

***WE225 MOTORS, GENERATORS, PLC.....3**

Provides students with the basic understanding of the principles of motors, generators, motor controls, and programmable logic controllers (PLCs). Both electromechanical and solid state electronic control devices are covered in this course. Students must be admitted to the Wind Energy Technology Program or permission of the Department Chair to enroll in this course.

***WE227 PLCs (PROGRAMMABLE LOGIC CONTROLLERS).....3**

The PLC course will provide a broad-based understanding of important PLC principals and concepts. You will understand how to connect to PLC hardware, create ladder logic programs, explore applications of PLC controls, and see how they function in various control systems. You will also study various programming conventions, as well as practical issues about automation controls and components. Students must be admitted to the Wind Energy Technology Program or permission of the Department Chair to enroll in this course.

***WE230 SUBSTATION & VOLTAGE REGULATION.....3**

A study of substations, capacitors, voltage regulators, boost and buck boosters; practical experience in substation grounding, inspections, substation maintenance; operation and installation of high side fuses, power transformers, substation buswork, and transfer switches; methods of voltage regulation, and Supervisory Control and Data Acquisition (SCADA). Students must be admitted to the Wind Energy Technology Program or permission of the Department Chair to enroll in this course.

***WE240 GIS/GPS.....3**

The GIS/GPS course is designed to provide a basic working knowledge of Geographical Information Systems and Global Positioning Systems as they relate to the operation of small UAVs. Upon completion of this course, the student will understand the time-line of development for GIS, GPS, and UAVs. The student will be able to demonstrate necessary software configuration, operation and maintenance of a UAV for purposes of aerial imaging. The course will be taught with the intent of expanding one's ability to complete inspection of wind turbine blades, power lines and substations, agricultural surveys and the integration of sports and event photography.

***WE250 DATA ACQUISITION AND COMMUNICATIONS3**

This course will give students information on how resource data is collected and analyzed for the use in the generation of electricity. Analog-to-digital data conversion will be studied, as well as instrument calibration. Students will also learn how data is communicated to assess power production of generation systems. The function of Supervisory Control and Data Acquisition (SCADA) systems will be discussed in detail. Students must be admitted to the Wind Energy Technology Program to enroll in this course.

***WE255 AIRFOILS AND COMPOSITE REPAIR.....3**

Students will be exposed to many facets of composites to build concrete foundations and blades on a wind turbine. This course will cover basic principles of the wind turbine blade design, blade composition, and base construction. The airfoils portion of this class will cover the aero-dynamic basics of the wind turbine blades using the wind to convert one form of energy to another. Composite materials will be studied as they are used in the manufacturing processes of wind turbine components.

***WE257 APPLIED AIRFOILS3**

Applied Airfoil students will be exposed to many facets of wind turbine blades from the wind turbine industry. Reliability of wind turbines is directly related to the quality and service of the rotor and blades. Documentation of defects from manufacturing as well as current stress is vital to determining blade length of service and projected maintenance schedules. This course will cover fundamental principles of mold construction, blade construction, quality control, inspection, and materials used for wind turbine blades.

WE260 WIND TURBINE SITING3

Students will be exposed to many facets of the proper placement (siting) of individual wind turbines as well as wind farms. This course will cover basic principles of how to find the best site and if it is suitable for wind energy. Class topics will cover the physical restrictions, institutional restrictions, wind turbine noise, placement near the grid, spacing of turbines, social aspects of wind turbines, and environmental issues associated with wind turbines.

***WE262 BLADE REPAIR OPERATIONS.....4**

Blade Repair Operations will introduce the students to industry standards of safety, operation, and maintenance of wind turbines and project operations. Students will be trained on the proper techniques and safety to gain access to the blades of a wind turbine for inspection and repair procedures. Specific training on suspended access equipment will allow student to safely inspect/repair wind turbine blades. Safety is at the heart of everything we do in this training program. Students will also understand the concept of day to day operations of a blade repair technician. Students will become familiar with the tools and equipment used and learn the value of teamwork as it applies to operations and repair of wind turbine blades. Students must be admitted to the Wind Energy Technology Program or permission of the Department Chair to enroll in this course.

***WE265 FIELD TRAINING & PROJECT OPERATIONS5**

This course will introduce students to industry standards of safety, operation and maintenance of wind turbines and project operations. Students will also benefit from field trips to operational projects to gain perspective of day to day operations of a wind turbine generation facility. Students must be admitted to the Wind Energy Technology Program or permission of the Department Chair to enroll in this course.

Course Descriptions

***WE270 TRANSFORMER THEORY.....3**

A transformer is a device used to transform (change) electrical power from one circuit to another. This course will cover the basics of magnetism, induction, windings, turns ratios, step-up transformers, step-down transformers, efficiencies, power transmission, single-phase power, three-phase power, delta windings, wye windings, and other transformer topics. Students must be admitted to the Wind Energy Technology Program to enroll in this course.

***WE280 WIND ENERGY TECHNOLOGY INTERNSHIP.....4**

The CCCC WET Internship program allows students to gain real world experiences with a wind energy or electrical related industrial company. Internships provide a bridge between classroom learning and full-time employment. Students work as a team with other competent employees who help guide the students to develop job skill sets necessary for employment in the area of electrical generation and distribution. An internship enables students to experience valuable work experience to help make future career choices.

*** A lab fee will be assessed for these courses.**

▮ The courses noted with this symbol qualify for guaranteed transfer. Visit [www.kansasregents.org/transfer articulation](http://www.kansasregents.org/transfer_articulation) for more information.

Professional Staff

Aaron Acree, Head Softball Coach, Director of Intramurals. A.A., Cloud County Community College, Concordia, Kansas; B.S.E., Fort Hays State University, Hays, Kansas.

JoDee L. Aldridge Ball, Coordinator Allied Health. A.S., Cloud County Community College, Concordia, Kansas; B.S., Friends University, Wichita, Kansas.

Jordan Altman, Head Men's Basketball Coach, B.A., Creighton University, Omaha, Nebraska

Matt Bechard, Athletic Director. A.A., Cloud County Community College, Concordia, Kansas; B.A., Wichita State University, Wichita, Kansas; M.S., Fort Hays State University, Hays, Kansas.

Sara Beikman, Nursing. B.S.N., University of Texas School of Nursing, Galveston, TX; M.S.N. (in progress), Grand Canyon University, Phoenix, Arizona.

Bryan Bombardier, Science. B.A., Emporia State University, Emporia, Kansas; PharmD, Creighton University, Omaha, Nebraska

Gwen Carnes, Mathematics. B.S., Tulsa University, Tulsa, Oklahoma; M.S., University of Central Oklahoma, Edmond, Oklahoma; EdD, Oklahoma State University, Stillwater, Oklahoma.

Andrew Clark, Wind Energy. A.A.S., Cloud County Community College, Concordia, Kansas

Crystal Davis, B.A., Kansas State University, Manhattan, Kansas; M.H.R., University of Oklahoma, Norman, Oklahoma; Ph.D., University of Phoenix, Phoenix, Arizona

Susan Dudley, Coordinator of Residence Life. B.A., Bethany College, Lindsborg, Kansas; M.A., Ashford University, Clinton, Iowa

D. Brett Erkenbrack, Head Women's Basketball Coach. A.A., Cloud County Community College, Concordia, Kansas; B.S., Kansas State University, Manhattan, Kansas.

Shelly Farha, Business. Department Chair for Business. A.A., Cloud County Community College, Concordia, Kansas; B.S., Marymount College of Kansas, Salina, Kansas; M.L.S., Fort Hays State University, Hays, Kansas

Kristina Farmer, Director of Advisement and Retention. A.S., Butler County Community College, El Dorado, Kansas; B.S., Emporia State University, Emporia, Kansas

Cathy Forshee, Business. A.A., Cloud County Community College, Concordia, Kansas; B.S., Kansas State University, Manhattan, Kansas; M.S., Kansas State University, Manhattan, Kansas.

Kristina Frost, Criminal Justice and Sociology. Department Chair for Social and Behavioral Science. A.A., Cloud County Community College, Concordia, Kansas; B.A., Fort Hays State University, Hays, Kansas; B.S., Fort Hays State University, Hays, Kansas; M.L.S., Fort Hays State University, Hays, Kansas.

Brandon Galm, English. B.A., Muskingum College, Concord, Ohio; M.A., Indiana University of Pennsylvania, Indiana County, Pennsylvania; Ph.D., Indiana University of Pennsylvania, Indiana County, Pennsylvania

Randy Gantvoort, Wind Energy. B.S., South Dakota State University, Brookings, South Dakota; M.B.A., Kansas Wesleyan University, Salina, Kansas.

Heather Gennette, Foundation Director. B.S., Kansas State University, Manhattan, Kansas

Suzette Ghent, Humanities, University of South Carolina, Lancaster, South Carolina; B.C.A., University of North Carolina - Charlotte, Charlotte, North Carolina; M.F.A., Florida State University, Tallahassee, Florida

Eric Gilliland, Head Baseball Coach. A.S., Cloud County Community College, Concordia, Kansas; B.S., Fort Hays State University, Hays, Kansas; M.A., Fort Hays State University, Hays, Kansas

Susan Greene, Business. A.S., Albany Junior College, Albany, Georgia; B.S., Brigham Young University-Hawaii, Laie, Hawaii; M.B.A., Troy State University, Dothan, Alabama.
